Emigration From Europe 1815 1914 Select Documents In Economic History:

Emigration from Europe, 1815-1914 Charlotte Erickson, 1976 Emigration from Europe 1815-1930 Dudley Baines, 1995-09-14 Why did 60 million people leave Europe for overseas destinations in the hundred years after the Napoleonic Wars What were the social and economic causes and effects of this mass migration Why did some people emigrate and not others and why did so many emigrants return to Europe This short comprehensive survey answers these and other questions regarding emigration from different parts of Europe in the years between 1815 and 1930 Written specifically for undergraduate students it reviews the current literature in several European languages summarises both economic and demographic theories and analyses the relation between economic change in Europe and the emigration rate as well as discussing the economic effects of immigration on the receiving countries and the social experiences of the immigrants **Bibliography of European Economic and Social History** Derek Howard Aldcroft, Richard Rodger, 1993 This bibliographical guide contains 10 000 references to the economic and social history of 30 European countries during the period 1700 1939 More than 3000 periodicals have been consulted to obtain references as well as books edited collections and conference proceedings The information is listed in categories such as industry agriculture finance migration labour conditions urban communities and organizations Full publication details are included so that references may be located easily British Emigration, 1603-1914 A. Murdoch, 2004-10-15 The idea of Britain has been understood largely in terms of sectarian conflict and state formation whereas emigration has most often been explored in terms of economic and social history This book explores the relationship between two subjects normally studied in isolation and includes emigration from Ireland as a social phenomenon which cannot be understood in isolation from modern British History as well as the impact of British emigration on the ethos and identity of the British Empire at its zenith at the turn of the Nineteenth and Twentieth centuries **Forgotten Migrants** Madelyn Holmes, 1988 This study focuses on the impact of German and Italian foreign workers on the industrialization of Switzerland prior to World War I Included in the analysis are case studies of the textile and engineering industries demographic profiles of the workers and discussion of internal conditions in Germany and Italy that led to the migration Emigration and the Labouring Poor Robin F. Haines, 1997-09-12 Robin Haines has analysed the origins occupations literacy and mobilization of emigrants recruited in the UK on behalf of colonial legislatures Her exploration of strict selection procedures shows that the symbiosis between the clergy empire minded philanthropic societies and parishes which combined to fund the emigrants considerable pre departure expenses increased the opportunities for underemployed rural and domestic workers during an era of farm rationalization and industrial restructuring Although poor hybrid state and private funding enabled them to relocate to Australia where their skills were in demand Migration in a Mature Economy Dudley Baines, 2002 By examining the origins of emigrants from Britain Mr Baines challenges notions of emigration as a flight from poverty **Dickens and Empire** Grace Moore, 2017-03-02 Dickens and Empire offers a

reevaluation of Charles Dickens's imaginative engagement with the British Empire throughout his career. Employing postcolonial theory alongside readings of Dickens's novels, journalism, and personal correspondence, it explores his engagement with Britain's imperial holdings as imaginative spaces onto which he offloaded a number of pressing domestic and personal problems, thus creating an entangled discourse between race and class. Drawing upon a wealth of primary material, it offers a radical reassessment of the writer's stance on racial matters. In the past, Dickens has been dismissed as a dogged and sustained racist from the 1850s until the end of his life, but here author Grace Moore reappraises *The Noble Savage*, previously regarded as a racist tract. Examining it side by side with a series of articles by Lord Denman in *The Chronicle*, which condemned the staunch abolitionist Dickens as a supporter of slavery, Moore reveals that the tract is actually an ironical riposte. This finding facilitates a review and reassessment of Dickens's controversial outbursts during the Sepoy Rebellion of 1857 and demonstrates that his views on racial matters were a good deal more complex than previous critics have suggested. Moore's analysis of a number of pre and post Mutiny articles calling for reform in India shows that Dickens, as their publisher, would at least have been aware of the grievances of the Indian people and his journal's sympathy toward them is at odds with his vitriolic responses to the insurrection. This first sustained analysis of Dickens and his often problematic relationship to the British Empire provides fresh readings of a number of Dickens texts, in particular *A Tale of Two Cities*. The work also presents a more complicated but balanced view of one of the most famous figures in Victorian literature.

British Economic and Social History R. C. Richardson, William Henry Chaloner, 1996

Irish Emigration 1801-1921 David Fitzpatrick, David Patrick Brian Fitzpatrick, 1984

Colonization and Community John Douglas Belshaw, 2002

Although immigrants from the United States, China, and elsewhere were part of the workforce brought in between 1850 and 1900 to man the mining industry of Vancouver Island, the largest group of miners was born in Britain. Belshaw's philosophy, history, and politics U College of the Cariboo, Canada, explores the aspirations, motivations, and experiences of these British immigrants who formed the core of British Columbia's first industrial working class. He attempts a holistic examination that details the group's demographic features, its responses to day-to-day life under industrial capitalism, and its cultural development, and explores the lives of the miners, their families, and their communities.

[Empire, migration and identity in the British World](#) Kent Fedorovich, Andrew S. Thompson, 2015-11-01

The essays in this volume have been written by leading experts in their respective fields and bring together established scholars with a new generation of migration and transnational historians. Their work weaves together the new imperial and the new migration histories and is essential reading for scholars and students interested in the interplay of migration within and between the local, regional, imperial, and transnational arenas. Furthermore, these essays set an important analytical benchmark for more integrated and comparative analyses of the range of migratory processes, free and coerced, which together impacted on the dynamics of power, forms of cultural circulation, and making of ethnicities across

a British imperial world **A Community Transplanted** Robert Clifford Ostergren, 1988 The book follows the people from the Swedish farming community of Rättvik to Isanti County Minnesota and explores the link of people and places between Sweden and America **Britannia's Children** Eric Richards, 2004-05-14 The stories behind the mass exodus from Great Britain from 1600 to modern times **Convict Workers** Stephen Nicholas, 1988 This work offers a new interpretation of Australia's convict past It is based on a detailed analysis of records of 20 000 male and female convicts one in three of those transported to New South Wales between 1817 and 1840 **Empire and Globalisation** Gary B. Magee, Andrew S. Thompson, 2010-02-11 Focusing on the great population movement of British emigrants before 1914 this book provides a perspective on the relationship between empire and globalisation It shows how distinct structures of economic opportunity developed around the people who settled across a wider British World through the co-ethnic networks they created Yet these networks could also limit and distort economic growth The powerful appeal of ethnic identification often made trade and investment with racial outsiders less appealing thereby skewing economic activities toward communities perceived to be British By highlighting the importance of these networks to migration finance and trade this book contributes to debates about globalisation in the past and present It reveals how the networks upon which the era of modern globalisation was built quickly turned in on themselves after 1918 converting racial ethnic and class tensions into protectionism nationalism and xenophobia Avoiding such an outcome is a challenge faced today **The Pursuit of Power** Richard J. Evans, 2016-11-29 An Economist Best Book of the Year Sweeping an ambitious synthesis Evans writes with admirable narrative power and possesses a wonderful eye for local color Fascinating Stephen Schuker The Wall Street Journal From the bestselling author of The Third Reich at War a masterly account of Europe in the age of its global hegemony the latest volume in the Penguin History of Europe series Richard J Evans bestselling historian of Nazi Germany returns with a monumental new addition to the acclaimed Penguin History of Europe series covering the period from the fall of Napoleon to the outbreak of World War I Evans's gripping narrative ranges across a century of social and national conflicts from the revolutions of 1830 and 1848 to the unification of both Germany and Italy from the Russo-Turkish wars to the Balkan upheavals that brought this era of relative peace and growing prosperity to an end Among the great themes it discusses are the decline of religious belief and the rise of secular science and medicine the journey of art music and literature from Romanticism to Modernism the replacement of old regime punishments by the modern prison the end of aristocratic domination and the emergence of industrial society and the dramatic struggle of feminists for women's equality and emancipation Uniting the era's broad ranging transformations was the pursuit of power in all segments of life from the banker striving for economic power to the serf seeking to escape the power of his landlord from the engineer asserting society's power over the environment to the psychiatrist attempting to exert science's power over human nature itself The first single volume history of the century this comprehensive and sweeping account gives the reader a magnificently human picture of Europe in the age when it

dominated the rest of the globe Citizenship and Those Who Leave Nancy L. Green, Francois Weil, 2010-10-01 Exit like entry has helped define citizenship over the last two centuries yet little attention has been given to the politics of emigration How have countries impeded or facilitated people leaving How have they perceived and regulated those who leave What relations do they seek to maintain with their citizens abroad and why Citizenship and Those Who Leave reverses the immigration perspective to examine how nations define themselves not just through entry but through exit as well **A New History of Ireland: Ireland under the Union, II, 1870-1921** Daibhi O.
