by criminal sentences This book thus raises the question for theoretical sentencing scholarship whether the prevailing judiciary centred understanding of sentencing should be rethought

**Sentencing Rape** Graeme Brown, 2020-05-14 This book presents an in depth comparative study of sentencing practice for rape in six common law jurisdictions England and Wales Scotland Ireland Canada New Zealand and South Africa It provides a thorough review of the medical literature on the physical and psychological effects of rape the legal and philosophical literature on the seriousness of the offence and the victim's role in sentencing Given the increasingly common practice of perpetrators using mobile and online technologies to film or photograph the commission of sexual offences the book examines recent socio legal research on technology facilitated sexual violence and considers the implications for sentencing By building on recent scholarship on judicial decision making in sentencing and case law comprising over 250 decisions of the relevant appellate courts the book explores and critically analyses judicial approaches to rape sentencing The analysis is undertaken with a view to suggesting possible reforms to rape sentencing in non guideline jurisdictions In so doing this book seeks to establish general principles for sentencing rape assisting in the imposition of proportionate sentences This book will be of interest to judges and practising lawyers to those researching criminal law criminal justice criminology and gender studies and to policy makers including sentencing councils and commissions in common law jurisdictions worldwide

Sentencing and the Legitimacy of Trial Justice Ralph Henham, 2013-03-01 This book discusses the under researched relationship between sentencing and the legitimacy of punishment It argues that there is an increasing gap between what is perceived as legitimate punishment and the sentencing decisions of the criminal courts Drawing on a wide variety of empirical research evidence the book explores how sentencing could be developed within a more socially inclusive framework for the delivery of trial justice In the international context such developments are directly relevant to the future role of the International Criminal Court especially its ability to deliver more coherent and inclusive trial outcomes that contribute to social reconstruction Similarly in the national context these issues have a vital role to play in helping to re position trial justice as a credible cornerstone of criminal justice governance where social diversity persists In so doing the book should help policy makers in appreciating the likely implications for criminal trials of mainstreaming restorative forms of justice **Sentencing and the Legitimacy of Trial Justice** firmly ties the issue of legitimacy to the relevant context for delivering justice It suggests a need to develop the tools and methods for achieving this and offers some novel solutions to this complex problem This book will be a valuable resource for graduate students academics practitioners and policy makers in the field of criminal justice as well as scholars interested in socio legal and cross disciplinary approaches to the analysis of criminal process and sentencing and the development of theory and comparative methodology in this area

Sentence Discounts and the Criminal Process Ralph J Henham, 2017-09-20 This title was first published in 2001 This volume presents the results of an empirical investigation into the operation of sentence discounts for guilty pleas in the Crown Court It focuses primarily on the nature of judicial compliance with the S48 Criminal

Justice and Public Order Act 1994 and those variables in sentence decision making which impact on this process It also examines the relative use made of sentence discounts and the nature and relevance of court of appeal guidance In doing so it raises important theoretical issues relating to sentencing research and addresses the implications for sentencing policy and practice With empirical research on the operation of the sentencing process being comparatively rare the book should make an important contribution to the existing literature      **Sentencing and Society** Cyrus Tata,Neil Hutton,2017-03-02

Roberts,2015-02-27 This volume explores the theory and practice of sentencing in England and Wales exploring issues such as the role of previous convictions offender remorse and sentencing female offenders as well as drawing upon a new and unique source of data from the Crown courts      The Crime of Conspiracy in International Criminal Law Juliet R. Amenge Okoth,2014-05-13 This book looks at the relevance of conspiracy in international criminal law It

establishes that conspiracy was introduced into international criminal law for purposes of prevention and to combat the collective nature of participation in commission of international crimes. Its use as a tool of accountability has however been affected by conflicting conceptual perceptions of conspiracy from common law and civil law countries. This conflict is displayed in the decisions on conspiracy by the international criminal tribunals and finally culminates into the exclusion of punishment of conspiracy in the Rome Statute. It is questionable whether this latest development on the law of conspiracy was a prudent decision. While the function of conspiracy as a mode of liability is satisfactorily covered by the modes of participation in the Rome Statute, its function as a purely inchoate crime used to punish incomplete crimes is missing. This book creates a case for inclusion in the Rome Statute punishment of conspiracies involving international crimes that do not extend beyond the conceptual stage to reinforce the Statute's purpose of prevention. The conspiracy concept proposed is one that reflects the characteristics acceptable under both common law and civil law systems.

**Alcohol and Crime** Gavin Dingwall, 2013-07-23 Alcohol is massively associated with crime. Evidence from the British Medical Association found that alcohol use is associated with 60-70 per cent of murders, 70 per cent of stabbings, 50 per cent of fights or assaults in the home. For non-violent offences the association is very strong as well: 88 per cent of those arrested for criminal damage, 83 per cent for breach of the peace, 41 per cent for theft and 26 per cent for burglary had drunk in the four hours prior to their arrest. At the same time there has been intense concern about public drunkenness in town and city centres especially on the part of young people and the cost and damage this causes. This book seeks to understand the nature of the connection between alcohol and crime and the way the criminal justice system responds to the problem, providing a clear and accessible account and analysis of the subject. It draws upon a wide range of sources and research findings and also sets the subject within a broader comparative context. It takes an interdisciplinary approach and includes a sociological account of the role of alcohol in British society, a criminological analysis of the link between alcohol and crime and a philosophical consideration of individual responsibility for harm caused whilst intoxicated and a legal analysis of different approaches that can be adopted as a response to alcohol-related offending.
