**The Secret Life of the Cheating Wife** Alicia M. Walker, 2017-10-24 Using a sample collected from Ashley

Madison this book is the result of a yearlong inquiry into women's extramarital experiences. Ultimately, these women reject the binary proposition of marriage that assumes that either we work on our marriages and remain monogamous within them or we break up the relationship and take up other relationships. These women conceive of an alternate solution to a marriage that is not wholly working where their own needs are ignored, unmet, and not prioritized. Thus, the women in this study are engaging in secret defiance of the expectations of marriage and primary partnerships. This book gives voice to women's experiences and perceptions regarding their participation in infidelity and glimpses into the interworkings of our most intimate relationships and the ways women negotiate marriages that fall short of their expectations. *Affective Mapping*

Jonathan FLATLEY, Jonathan Flatley, 2009-06-30 The surprising claim of this book is that dwelling on loss is not necessarily depressing. Instead, embracing melancholy can be a road back to contact with others and can lead people to productively remap their relationship to the world around them. Flatley demonstrates that a seemingly disparate set of modernist writers and thinkers showed how aesthetic activity can give us the means to comprehend and change our relation to loss. *Social Bonds and Historical Time*

Torbjörn Gustafsson Chorell, 2025-08-07 This book analyses the social dimension of historical time and explores how we emotionally and intellectually bind ourselves to the past and project these ties onto our present and future. Gustafsson Chorell argues that historical time is inherently social and that the nexus of past, present, and future is constructed through social mechanisms. Beginning with the concept of the historical imaginary, this book examines the theoretical shift from future-oriented to present-oriented models of time and integrates insights from intellectual history, philosophy, and social theory. This book demonstrates how a variety of social bonds, such as emotion, generation, and authority, can affect how historical time is demarcated. Analysing key concepts such as desire for the past, the impact of grief and nostalgia, and the role of history in shaping expectations for the future, the volume highlights the enduring significance of sociality even under new regimes of historicity such as the Anthropocene. Ultimately, Gustafsson Chorell offers a comprehensive view of how past, present, and future are interconnected and highlights the continued importance of thinking carefully about the relationship between time and history. *Couples in Sync*

*New Perspectives on Mutual Dependency in Care-Giving* Adéla Souralová, 2016-03-09 Many scholars see caregiving relationships as being based on mutual dependency or interdependency Extensively cited notions of the global care chain or international division of reproductive labour have prepared the ground for analysis of global interdependencies in several domains This book goes further by taking mutual dependency as a starting point for analysing all relationships Using the example of Vietnamese families in the Czech Republic and the Czech native nannies it shows how paid caregiving is contextualized in terms of various relationships between three types of actors employer employee caring for the child and mother child All of these ties are based on ontologically different principles and each of them operates as a piece of a puzzle which is meaningful only in relation to each other Souralová considers caregiving to be a formative activity that establishes ties between the concerned actors whose subjectivities are mutually shaped in the daily practice of caregiving With its stress on mutuality in care work this ground breaking book illuminates the new forms of interpersonal interethnic and intergenerational relationships and highlights the mechanisms and processes in which kinship ties are negotiated and reproduced
