International Handbook of Emotions in Education Reinhard Pekrun, Lisa Linnenbrink-Garcia, 2014-04-16 For more than a decade there has been growing interest and research on the pivotal role of emotions in educational settings This ground breaking handbook is the first to highlight this emerging field of research and to describe in detail the ways in which emotions affect learning and instruction in the classroom as well as students and teachers development and well being Informed by research from a number of related fields the handbook includes four sections Section I focuses on fundamental principles of emotion including the interplay among emotion cognition and motivation the regulation of emotion and emotional intelligence Section II examines emotions and emotion regulation in classroom settings addressing specific emotions enjoyment interest curiosity pride anxiety confusion shame and boredom as well as social emotional learning programs Section III highlights research on emotions in academic content

domains mathematics science and reading writing contextual factors classroom family and culture and teacher emotions The final section examines the various methodological approaches to studying emotions in educational settings With work from leading international experts across disciplines this book synthesizes the latest research on emotions in education

Emotions and coping during exams Tobias Ringeisen, *Emotion Management and Feelings in Teaching and Educational Leadership* Izhar Oplatka, Khalid Arar, 2019-05-28 This book highlights the connection between culture and emotion management in teaching and educational leadership and allows researchers from different parts of the world to demonstrate how national and local culture influence the way educational leaders and teachers express their feelings display their emotion or suppress emotion publically

Advances in Teacher Emotion Research Paul A. Schutz, Michalinos Zembylas, 2009-08-14 Some reports estimate that nearly 50% of teachers entering the profession leave within the first five years Alliance for Excellent Education 2004 Ingersoll 2003 Quality Counts 2000 One explanation of why teachers leave the profession so early in their career might be related to the emotional nature of the teaching profession For example teaching is an occupation that involves considerable emotional labor Emotional labor involves the effort planning and control teachers need to express organizationally desired emotions during interpersonal transactions As such emotional labor has been associated with job dissatisfaction health symptoms and emotional exhaustion which are key components of burnout and related to teachers who drop out of the profession Research into emotional labor in teaching and other aspects of teachers emotions is becoming increasingly important not only because of the growing number of teachers leaving the profession but also because unpleasant classroom emotions have considerable implications for student learning school climate and the quality of education in general Using a variety of different methodological and theoretical approaches the authors in this edited volume *Advances in Teacher Emotion Research The Impact on Teachers Lives* provide a systematic overview that enriches our understanding of the role of emotions in teachers professional lives and work More specifically the authors discuss inquiry related to teachers emotions in educational reform teacher identity student involvement race class gender issues school administration and inspection emotional labor teacher burnout and several other related issues This volume then represents the accumulation of different epistemological and theoretical positions related to inquiry on teachers emotions acknowledging that emotions are core components of teachers lives *Advances in Teacher Emotion Research* takes an eclectic look at teacher emotions presenting current research from diverse perspectives thereby making this volume a significant contribution to the field

Emotions at School Reinhard Pekrun, Krista R. Muis, Anne C. Frenzel, Thomas Goetz, 2017-08-14 For more than a decade there has been growing interest in the role of emotions in academic settings Written by leading experts on learning and instruction *Emotions at School* focuses on the connections between educational research and emotion science bringing the subject to a wider audience With chapters on how emotions develop and work evidence based recommendations about how to foster adaptive emotions and clear explanations of key concepts and ideas

this concise volume is designed for any education course that includes emotions in the curriculum It will be indispensable for student researchers and both pre and in service teachers alike Emotions, Technology, and Learning Sharon Y. Tettegah, Michael P. McCreery, 2015-11-17 Research suggests two important roles of emotion related to learning and technology First emotion can be the key factor that is being learned or taught through technological means Second emotional responses with and through technology can alter what is being learned or how the content is learned The goal of this volume is to compile and synthesize research that addresses these two perspectives by focusing on the relationship between emotion and learning as facilitated by technology The book is divided into four sections to represent the specific interest related to emotion and learning Theory and Overview of Emotions and Learning Emotions and Learning Online Technology for Emotional Pedagogy with Students and Technology of Emotional Pedagogy with Teachers Provides a deeper theoretical and empirical perspective of emotion and learning Discusses how blended and online learning impact our ability to share emotion or learn emotion Explores how students learn emotion share emotion and how it impacts their ability to learn Examines how teachers learn emotion share emotion and how it impacts their ability to teach through technology Addresses student diversity Motivation and Emotion in Learning and Teaching across Educational Contexts Gerda Hagenauer, Rebecca Lazarides, Hanna Järvenoja, 2023-11-28 Motivation and Emotion in Learning and Teaching across Educational Contexts brings together current theoretical and methodological perspectives as well as examples of empirical implementations from leading international researchers focusing on the context specificity and situatedness of their core theories in motivation and emotion The book is compiled of two main sections Section I covers theoretical reflections and perspectives on the main theories on emotion and motivation in learning and teaching and their transferability across different educational contexts illustrated with empirical examples Section II addresses the methodological reflections and perspectives on the methodology that is needed to address the complexity and context specificity of motivation and emotion In addition to general reflections and perspectives regarding methodology concrete empirical examples are provided All cutting edge chapters include current empirical studies on emotions and motivation in learning and teaching across different contexts age groups domains countries etc making them applicable and relevant to a wide range of contexts and settings This high quality volume with contributions from leading international experts will be an essential resource for researchers students and teacher trainers interested in the vital role that motivation and emotions can play in education **Emotion in Education**, 2011-04-28 This edited book examines some of the current inquiry related to the study of emotions in educational contexts There has been a notable increased interest in educational research on emotions Emotion in Education represents some of the most exciting and current research on emotions and education and has the potential to impact research in this area This combination of variety timeliness potential for transformation of the field and uniqueness make this a must have resource for academics in the fields of education educational psychology emotion psychology cultural psychology sociology and teacher education The

chapters have been written for scholars in the area but authors also wrote with graduate students in mind Therefore the book is also be a great volume for graduate seminars Provides in depth examination of emotions in educational contexts Includes international roster of contributors who represent a variety of disciplines Represents a number of different research approaches *International Handbook on Globalisation, Education and Policy Research* Joseph Zajda,2005-12-05 The aim of this Handbook is to present a global overview of developments in education and policy change during the last decade It has the objective of providing both a strategic education policy statement on recent shifts in education and policy research globally and offers new approaches to further exploration development and improvement of education and policy making The Handbook attempts to address some of the above issues and problems confronting educators and policy makers globally Different articles seek to conceptualize the on going problems of education policy formulation and implementation and provide a useful synthesis of the education policy research conducted in different countries and practical implications The Handbook by focusing on such issues as the OECD 2001 model of the knowledge society and associated strategic challenge and deliverable goals OECD 2001 139 UNESCO driven lifelong learning paradigm and its relevance to education policy makers globally different models of policy planning and equity questions that are raised by centralization decentralization diversity uniformity and curriculum standardization issues the crises of educational quality the debate of standards and excellence and good and effective teaching will contribute to a better and more holistic understanding of the education policy and research nexus offering possible strategies for the effective and pragmatic policy planning and implementation at the local regional and national levels **Emotion and Discourse in L2 Narrative Research** Matthew T. Prior,2015-11-18 This book examines the interactional management of emotionality in second language autobiographical interview research Advancing a discursive constructionist approach it offers a timely methodological and reflexive perspective that brings into focus the dynamic and dilemmatic aspects of interviewee and interviewer identities and experiences and it makes visible the often unexpected and unseen consequences for the research project and beyond The author weaves together critical discussion and empirical analysis based on longitudinal narrative based research with adult immigrants from Southeast Asia living in the US and Canada This interdisciplinary book will be compelling reading for students researchers and others interested in emotion narrative discourse identity interaction interviews and qualitative research **Handbook of Educational Psychology** Lyn Corno,Eric M. Anderman,2015-07-06 The third edition of the Handbook of Educational Psychology is sponsored by Division 15 of the American Psychological Association In this volume thirty chapters address new developments in theory and research methods while honoring the legacy of the field s past A diverse group of recognized scholars within and outside the U S provide integrative reviews and critical syntheses of developments in the substantive areas of psychological inquiry in education functional processes for learning learner readiness and development building knowledge and subject matter expertise and the learning and task environment New chapters in this edition cover topics

such as learning sciences research latent variable models data analytics neuropsychology relations between emotion motivation and volition EMOVO scientific literacy sociocultural perspectives on learning dialogic instruction and networked learning Expanded treatment has been given to relevant individual differences underlying processes and new research on subject matter acquisition The Handbook of Educational Psychology Third Edition provides an indispensable reference volume for scholars in education and the learning sciences broadly conceived as well as for teacher educators practicing teachers policy makers and the academic libraries serving these audiences It is also appropriate for graduate level courses in educational psychology human learning and motivation the learning sciences and psychological research methods in education and psychology

The Role of Emotions in Preventative Health Communication Jessica Gall Myrick, 2015-09-17 Health related media permeate our modern experience from using an online search engine to reading a pamphlet about vaccinations at the doctor's office or watching a television news report on the dangers of sitting too much This book makes the argument that if prevention focused health messages are to motivate behavior change they must tug at the heartstrings and researchers need to understand more precisely how different emotional reactions influence health message effects In making this case this book takes a quantitative social science based approach to understanding the role of emotions in shaping individual level effects to preventative health messages disseminated through mass media channels The book focuses on how discrete emotions evoked by preventative health media messages influence how audiences respond to those messages Are they persuaded to change their behavior Will they seek more information Will they share information with others Will they support prevention focused policies While a rich literature exists on the effects of health related fear appeals on audiences researchers have yet to fully explore the role that other discrete emotions play in health communication processes and outcomes This book fills that gap by providing an overview of the role of nine different emotions both positive and negative in various prevention focused health communication settings It also introduces readers to commonly employed emotional theories and concepts and relates them to literature on prevention focused health and policy communication In addition to reviewing and synthesizing the literature this book offers new directions to researchers hoping to improve the effectiveness of prevention focused health messages

Handbook of Research on Synthetic Emotions and Sociable Robotics: New Applications in Affective Computing and Artificial Intelligence Vallverdú, Jordi, Casacuberta, David, 2009-05-31 This book focuses on the integration of emotions into artificial environments such as computers and robotics Provided by publisher

Affect and Emotion Ronald H. Humphrey, 2008-09-01 Affect and Emotion includes a variety of chapters by some of the most prominent scholars in the area of emotions and leadership as well as chapters by rising stars These chapters chart the direction of future research in affect and leadership in four main areas First several of these chapters make a convincing argument that leaders use emotional labor and other forms of emotional displays to influence followers and team members Leaders may use emotional labor to manage relational identities or to create favorable impressions on

followers and to create trust Leaders active emotional displays increase vision related performance and perception of transformational leadership Second one chapter reveals how emotions play an important role in leadership at every level from within person to organization wide leadership Leader s emotional labor plays an important role in several of these levels with the exact method of performing emotional labor varying by level A second chapter also examines levels of leadership with a particular examination of the effects of leader emotional labor on close and distant leadership Third several of the chapters examine emotions from the authentic leadership and positive leadership perspectives and two of these chapters focus on how psychological capital and authentic leadership skills help leaders be resilient and overcome obstacles Fourth two of the chapters show the role of affect and friendship ties to leadership research One of these chapters examines the need to develop psychometrically sound measures of affect and friendship whereas the other develops a model of how affect influences social network ties and informal leadership emergence Taken together these chapters illustrate four important research trends in emotions and leadership that are likely to grow in importance in the coming years

ECGBL2015-9th European Conference on Games Based Learning Robin Munkvold and Line Kolås,2015-09-18 These proceedings represent the work of researchers participating in the 9th European Conference on Games Based Learning which is being hosted this year by Nord Trondelag University College Steinkjer Norway on the 8 9 October 2015 The Conference has become a key platform for individuals to present their research findings display their work in progress and discuss conceptual advances in many different areas and specialties within Games Based Learning It also offers the opportunity for like minded individuals to meet discuss and share knowledge ECGBL continues to evolve and develop and the wide range of papers and topics will ensure an interesting two day conference In addition to the main streams of the conference there are mini tracks focusing on the areas of the design of multiplayer collaborative serious games applied Games and gamification the teacher s role in game based learning games for STEM Science Technology Engineering Mathematics learning assessment of digital game based learning and pervasive and ubiquitous gaming for learning In addition to the presentations of research we are delighted to host the third year of the Serious Game competition which provides an opportunity for educational game designers and creators to participate in the conference and demonstrate their game design and development skills in an international competition This competition is again sponsored by SEGAN Serious Games Network With an initial submission of more than 60 games 28 finalists will present their games at the conference Prizes will be awarded to the games judged to demonstrate the best quality and originality of game play itself and the positioning and articulation of the game s contribution to the educational domain With an initial submission of 190 abstracts after the double blind peer review process there are 75 research papers 15 PhD research papers 4 Non Academic papers and 8 work in progress papers published in these Conference Proceedings These papers represent research from more than 40 countries including Australia Austria Belgium Brazil Bulgaria Canada Czech Republic Denmark Finland France Germany Greece

Hungary Ireland Israel Italy Japan Malaysia Norway Portugal Russia Saudi Arabia Slovakia Slovenia South Africa Spain Sweden Switzerland Taiwan ROC The Netherlands The Netherlands United Arab Emirates UK and USA
