Dale Guthrie, 2005 Publisher Description **Rhetorical Animals** Kristian bitten before Bjørkdahl, Alex C. Parrish, 2017-11-30 For this edited volume the editors solicited chapters that investigate the place of nonhuman animals in the purview of rhetorical theory what it would mean to communicate beyond the human community how rhetoric reveals our brute roots In other words this book investigates themes that enlighten us about likely or possible implications of the animal turn within rhetorical studies. The present book is unique in its focus on the call for nonanthropocentrism in rhetorical studies Although there have been many hints in recent years that rhetoric is beginning to consider the implications of the animal turn as yet no other anthology makes this its explicit starting point and sustained objective Thus the various contributions to this book promise to further the ongoing debate about what rhetoric might be after it sheds its long standing humanistic bias <u>Transcending Violence</u> Tod Schneider, 2002 Every Ted Bundy Charles Manson Littleton Rwanda Kosovo inspires a renewed desperate search for explanations a brilliant synthesis of all available models by Lt Col Dave Grossman author of the Pulitzer nominated On Killing Transcending Violence stands out in offering both explanations pragmatic solutions Violence comes in many shapes sizes It grows in almost any soil Ethnic warfare school shootings crimes of passion murder for hire seem to have little in common One specialist blames overblown self esteem while another points to deep rooted shame Criminologists sociologists police peace activists military historians forensic psychologists bring contrasting perspectives to the table Each explanation carries a large grain of truth but when applied across the board guickly falls apart One error has been an obsession with finding only one factor that can carry the entire blame Competing theories often throw light on specific incidents but not on others These various perspectives become considerably more valuable when interwoven Specifically their shared characteristics concerns can be sorted into up to 5 steps 10 primary reinforcers Variations on these 5 steps produce individually tailored paths to violence That tapestry is laid out in the first half of Transcending Violence In part two Transcending Violence takes this confluence model turns it on its head By identifying specific steps and reinforcers for violence we become empowered to invert them We can disassemble the steps eliminate the reinforcers These actions apply at all levels from the individual to the global **Tourism Ethics** David A.
