Empire War Faith In Modern Europe:

Empire, War and Faith in Early Modern Europe Geoffrey Parker, 2002 Failure is fascinating partly because it is so common In the 20th century Enoch Powell claimed that All political lives end in failure while according the Winston Churchill Success is never final This has always been true Geoffrey Parker s new book examines ten cases from the history of Europe in the 16th and 17th centuries of defeat snatched from the jaws of victory *European Warfare, 1350-1750* Frank Tallett, D. J. B. Trim, 2010-01-28 The period 1350 1750 saw major developments in European warfare which not only had a huge impact on the way wars were fought but also are critical to long standing controversies about state development the global ascendancy of the West and the nature of military revolutions past and present However the military history of this period is usually written from either medieval or early modern and either Western or Eastern European perspectives These chronological and geographical limits have produced substantial confusion about how the conduct of war changed The essays in this book provide a comprehensive overview of land and sea warfare across Europe throughout this period of momentous political religious technological intellectual and military change Written by leading experts in their fields they not only summarise existing scholarship but also present new findings and new ideas casting new light on the art of war the rise of the state and European expansion **European War and Diplomacy, 1337-1815** William Young, 2003-10 The history of international relations and warfare of early modern Europe has gained popularity in recent years This bibliography provides a valuable listing of books dissertations and journal articles in the English language for scholars and general readers interested in diplomatic relations and warfare from the Hundred Years War to the Napoleonic Wars **Warfare in Early Modern Europe 1450-1660** Paul E.J. Hammer, 2017-05-15 The early modern period saw gunpowder weapons reach maturity and become a central feature of European warfare on land and at sea This exciting collection of essays brings together a distinguished and varied selection of modern scholarship on the transformation of war often described as a military revolution during the period between 1450 and 1660 Faith in War Nikolas M. Funke, 2024-08-01 While the social and cultural history of the early modern military has greatly advanced in the last few decades the religious dimension of the military life in the Holy Roman Empire between 1500 and 1650 has hardly been explored The Reformation brought profound political social and cultural upheavals but the religiosity of the men and women who followed the Christian life in the chaos of war still represents a large gap in the historiography Faith in War shows that confessional antagonisms lost much of their meaning during war and coexistence became a fact of army life Connecting military and civilian social and cultural history in these ways Nikolas Funke s case study on this period brings new life to important current historiographical discussions in a military context including stereotyping confessionalization social discipline deviance toleration religious violence and the culture of death *The Age of Wars of Religion, 1000-1650* Cathal J. Nolan, 2006-04-30 The Age of Wars of Religion saw navies armies armed merchant companies and mercenaries battle one another and local potentates in many lands and along

numerous shores Wars of religion were fought in and between all the major religions and civilizations from Europe to China in Africa and in the isolated Americas mixing motives of knightly idealism mercenary greed and competing claims of divine sanction This unparalleled work traces the extraordinary upheavals of the period in military technology competing theologies and civilizational change that were brought about by or impinged upon military conflict It offers nearly 2 000 discrete but cross referenced entries on cultural military religious and political history as well as geography biography and military literature Close to 2 000 entries offer detailed information on the major events places battles figures technologies and ideas one must know to begin to make sense of the past six centuries of global conflicts Though especially ferocious and intense the Wars of Reformation and Counter Reformation fought by Europeans from the 15th through 17th centuries were hardly unique in world or military history The Byzantine Empire bastion of Christian Orthodoxy staggered to the tortuous end of its long conflict with the Ottoman Empire the Great Power of the Sunni Muslim world The Ottomans in turn were still engaged in an equally ancient intra Muslim war between Sunnis and Shi ites In India the Hindu Rajputs and Marathas and also the Sikhs organized armies around religious communities to throw off the Muslim Yoke Mughul Empire and also fought against Christian invaders from Europe As for the isolated Americas ideas of divine kingship sustained by powerful priesthoods and religious warfare also prevailed as exemplified by the Inca and Aztec empires **Dynasty and Piety Luc**

Duerloo, 2016-04-29 The youngest son of Emperor Maximilian II and nephew of Philip II of Spain Archduke Albert 1559 1621 was originally destined for the church However dynastic imperatives decided otherwise and in 1598 upon his marriage to Philip s daughter the Infanta Isabella Clara Eugenia he found himself ruler of the Habsburg Netherlands one of the most dynamic yet politically unstable territories in early modern Europe Through an investigation of Albert s reign this book offers a new and fuller understanding of international events of the time and the Habsburg role in them Drawing on a wide range of archival and visual material the resulting study of Habsburg political culture demonstrates the large degree of autonomy enjoyed by the archducal regime which allowed Albert and his entourage to exert a decisive influence on several crucial events preparing the ground for the Anglo Spanish peace of 1604 by the immediate recognition of King James clearing the way for the Twelve Years Truce by conditionally accepting the independence of the United Provinces reasserting Habsburg influence in the Rhineland by the armed intervention of 1614 and devising the terms of the O ate Treaty of 1617 In doing so the book shows how they sought to initiate a realistic policy of consolidation benefiting the Spanish Monarchy and the House of Habsburg Whilst previous work on the subject has tended to concentrate on either the relationship between Spain and the Netherlands or between Spain and the Empire this book offers a far deeper and much more nuanced insight in how the House of Habsburg functioned as a dynasty during these critical years of increasing religious tensions Based on extensive research in the archives left by the archducal regime and its diplomatic partners or rivals it bridges the gap between the reigns of Philip II and Philip IV and puts research into the period onto a fascinating new basis **In Search of Ulster-Scots**

Land Barry Vann, 2008 Social and religious historians have conducted much research on Scottish colonial migrations to Ulster however there remains historical debate as to whether the Irish Sea in the seventeenth century was an intervening obstacle or a transportation artery Vann presents a geographical perspective on the topic showing that most population flows involving southwest Scotland during the first half of the seventeenth century were directed across the Irish Sea via centuries old sea routes that had allowed for the formation of evolving cultural areas As political or religious motivational factors presented themselves in the last half of that century Vann holds the established social and familial links stretched along those sea routes facilitated chain migration that led to the birth of a Protestant Ulster Scots community Vann also shows how this community constituted itself along religious and institutional rubrics of dissent from the Church of England Church of Scotland and Church of Ireland

Justice and Society in the Highlands of Scotland Charles Fletcher, 2021-10-25 This book fills a significant gap in our current understanding of early modern Scottish history It is the first systematic consideration of the workings of seigneurial courts of feudal lords in 18th century Scotland For several hundred years these courts were one of the main forums for justice across Europe Until 1748 Scottish courts of barony and regality handled both criminal complaints and civil disputes they made by laws and levied taxes they set wages and enforced morality The 18th century was a time of epoch defining events in Scotland such as the Jacobite rebellions and union with England The amount of literature on this period of Scottish history is extensive it is therefore remarkable that the story of these courts has been left untouched

Apocalypse and Anti-Catholicism in Seventeenth-Century English Drama Adrian Streete, 2017-08-17 Streete studies the political uses of apocalyptic and anti Catholic rhetoric in a wide range of seventeenth century English drama focusing on the plays of Marston Middleton Massinger and Dryden Drawing on recent work in religious and political history he rethinks how religion is debated in the early modern theatre

The Thirty Years War, 1618-1648 John Pike, 2023-02-16 The Defenestration of Prague the coup d'etat staged by Protestant Bohemian nobles against officials of the Hapsburg Emperor triggered the Thirty Years War When Habsburg Spain intervened in support of their Holy Roman Emperor relative what had started as a localised political and religious dispute in Germany transformed into a European and global conflict In seeking to exploit the Bohemian revolt Spanish Habsburg revanchist ambitions directed by the Spanish Count of Olivarez at the economically powerful Dutch Republic were allied with the Habsburg Emperor's counter reformation ambitions After the Bohemian defeat at the White Mountain in 1620 the war widened as the Dutch Republic England Transylvania Denmark Sweden and Richelieu's France all intervened to roll back Habsburg hegemony and restore the balance power There was extensive fighting across the globe as the Dutch and English sought to challenge the Spanish Habsburg global monopoly These colonial wars were a major factor in the Iberian revolutions with brought down the Habsburg Imperium Professor Charles Boxer called it the first world war It was a tragic war of attrition but also an epic story of remarkable individuals including the titans of the era Imperial General Wallenstein warrior King Gustavus sinister Count Olivarez and the masters of

international intrigue realpolitik and diplomacy Cardinals Richelieu and Mazarin Above all there were the decisive victories of the under sung military genius of the era Lennart Torstensson The Treaties of Westphalia followed a war which not only changed the global balance of power but accelerated over thirty years the transformation of the European continent from a world characterized by dynasties and the medieval concept of United Christendom to a European order that was recognisably modern

Churchill as Home Secretary Charles Stephenson, 2023-02-22 There can be few statesmen whose lives and careers have received as much investigation and literary attention as Winston Churchill Relatively little however has appeared which deals specifically or holistically with his first senior ministerial role that of Secretary of State for the Home Office This may be due to the fact that of the three Great Offices of State which he was to occupy over the course of his long political life his tenure as Home Secretary was the

briefest The Liberal Government of which he was a senior figure had been elected in 1906 to put in place social and political reform Though Churchill was at the forefront of these matters his responsibility for domestic affairs led to him facing other major challenges departmentally this was a time of substantial commotion on the social front with widespread industrial and civil strife Even given that Home Secretaries never do have an easy time his period in office was thus marked by a huge degree of political and social turbulence The terms Tonyandy and Peter the Painter perhaps spring most readily to mind Rather less known is his involvement in one of the burning issues of the time female suffrage and his portrayal as the prisoners friend in terms of penal reform Aged 33 on appointment and the youngest Home Secretary since 1830 he became empowered to wield the considerable executive authority inherent in the role of one of His Majesty s Principal Secretaries of State and he certainly did not shrink from doing so There were of course commensurate responsibilities and how he shouldered them is worth examination *Violence and Civilization in the Western States-Systems* Andrew

Linklater,2017-01-11 Andrew Linklater s *The Problem of Harm in World Politics* Cambridge 2011 created a new agenda for the sociology of states systems *Violence and Civilization in the Western States Systems* builds on the author s attempts to combine the process sociological investigation of civilizing processes and the English School analysis of international society in a higher synthesis Adopting Martin Wight s comparative approach to states systems and drawing on the sociological work of Norbert Elias Linklater asks how modern Europeans came to believe themselves to be more civilized than their medieval forebears He investigates novel combinations of violence and civilization through a broad historical scope from classical antiquity Latin Christendom and Renaissance Italy to the post Second World War era This book will interest all students with an interdisciplinary commitment to investigating long term patterns of change in world politics *The Problem of Harm in World Politics* Andrew Linklater,2011-02-10 The need to control violent and non violent harm has been central to human existence since societies first emerged This book analyses the problem of harm in world politics which stems from the fact that societies require the power to harm in order to defend themselves from internal and external threats but must also control the capacity to harm so that people cannot kill injure humiliate or exploit others as they please Andrew Linklater analyses writings in moral and legal philosophy that define and classify forms of harm and discusses the ways in which different theories of international relations suggest the power to harm can be controlled so that societies can co exist with the minimum of violent and non violent harm Linklater argues for new connections between the English School study of international society and Norbert Elias analysis of civilizing processes in order to advance the study of harm in world politics
