as y técnicas que aquí se exponen están en constante desarrollo y están sujetas a modificaciones y cambios a medida que salen a la luz nuevos descubrimientos y conocimientos. Qué es la dimensión astral. El astral es la dimensión más cercana a la física. Se superpone e impregna el mundo como una enorme red mental que atrapa y retiene todo el pensamiento. Su contenido es creado por la conciencia colectiva de la mente mundial. Contiene todos los pensamientos, recuerdos, fantasías y sueños de todos los seres vivos del mundo. En las leyes de la atracción simpática o lo semejante atrae a lo semejante, hace que este océano de materia mental se estratifique y se asiente en capas o estanques. Estos estanques de pensamiento son más comúnmente llamados planos astrales, mundos astrales, subplanos astrales o reinos astrales. La dimensión astral se compone de materia astral y se describe acertadamente como materia mental. Es extremadamente sensible al pensamiento y puede ser moldeada en cualquier forma. Estas creaciones pueden ser tan perfectas que no se distinguen de la realidad. La mejor manera de explicar estas cosas de la mente es establecer una comparación entre la materia astral y la película fotográfica de alta velocidad no expuesta. Cuando esta película se expone a la luz enfocada por la lente de la cámara, una imagen perfecta de la realidad se quema instantáneamente en la película por la reacción química de la película a la luz. Cuando la materia astral se expone al pensamiento enfocado por la lente de la mente, se forma instantáneamente una imagen perfecta de la realidad a partir de la materia astral de la mente por la reacción de la materia astral al pensamiento. La complejidad y durabilidad de cualquier creación en la dimensión astral depende en gran medida de la fuerza de la mente que realiza la creación.

La ciudad de Dios III San Agustín, 2023-03-23. San Agustín es una de las personalidades más fascinantes y complejas de la historia del cristianismo. Una de sus más importantes obras es, sin duda, *La ciudad de Dios*, redactada en los años de la toma de Roma a manos de los visigodos. En ella se establece por primera vez la idea del paralelo entre Estado divino y Estado terrenal de gran influencia histórica en la política y las leyes de la historia occidental. Este volumen que incluye los libros XVI-XXII cierra la publicación íntegra de esta obra, culminando así la labor de Rosa María Marina. Se trata con una espléndida traducción exhaustivamente anotada. En esta última parte, Agustín de Hipona recurre a la historia bíblica para explicar la evolución entre la ciudad de Dios y la terrenal, y a continuación recapitula todo lo dicho en la obra antes de acometer por último las finalidades de ambas ciudades: el juicio final, el infierno y el cielo.

Viejas Inquisiciones Manuel Arduino Pavón, 2023-05-30. Hay alguna cosa que nos abra más la mente que inquirir en silencio qué origina esta voz interior. Esta obra contiene una interpelación al alma del lector por medio de preguntas que se agregan y amplían hasta alcanzar el punto neutro final, la pregunta imposible. En la segunda parte exhibe aforismos y variados comentarios sobre los mismos, siempre en el marco de una visión espiritualista.

Los frutos del árbol de la vida Manuel Arduino Pavón, 2020-05-21. Aforismos y relatos muy breves de orden físico y espiritual que obtienen su inspiración de múltiples filosofías de vida procedentes de las regiones más diversas del planeta. Pensamientos penetrantes y agudos en ocasiones paradójicos y desconcertantes, capaces de avivar la llama del intelecto y de producir una suerte de disfrute o de deleite literario, filosófico y moral. Relatos extremadamente propositivos.

redactados de la forma más cara a las tradiciones antiguas en algunos casos con descripciones y disquisiciones profundas que conducen a la mente hasta el abismo y la sueltan luego para que por sus propios medios emprenda un vuelo intuitivo libre y fundamental
