Defensa del marxismo José Carlos Mariátegui,1985 **En defensa del Marxismo** Leon Trotsky,1995 Italian Communist Dissidence and Transnational Trotskyism towards the Fourth International (1928-1938) Gabriele Mastrolillo,2025-08-08 Following his expulsion from the Soviet Union in 1929 Leon Trotsky promoted the birth of an International Anti Stalinist Communist movement which considered itself in opposition to the Communist International Comintern However since 1933 it began to regard itself as an independent transnational organization in direct competition with the Comintern Italian Communist Dissidence and Transnational Trotskyism towards the Fourth International 1928 1938 draws from wide ranging primary and secondary sources most of which are unpublished to tell the fascinating unexplored story of the relations between the Italian communist dissidence Trotskyist and Bordigists Trotsky and the International Secretariat IS the leading structure of the Trotskyist movement in the 1930s It focuses on the role played by the two most notable executives of Italian dissident communism Alfonso Leonetti and Pietro Tresso who performed key roles inside the IS consequently the study of their activity gives us the possibility of following the development of Transnational Trotskyism in the 1930s until the establishment of the Fourth International Written for scholars of Italian and International Communism this book will also appeal to those interested in learning how Italian Trotskyism contributed to the building of a global alternative to Stalinism **Philosophy of Latin America** Guttorm Fløistad,2013-04-17 In most contributions collected in this volume the influence from European and American philosophy can be felt Remarkably ten out of thirteen philosophers feel that the working out of a genuine Latin American local national and continental cultural identity is a challenge to philosophy This volume contains articles on topics within a variety of disciplines political philosophy ethics history of philosophy formal logic philosophy of science and technology as well as philosophical interpretation of literature It is relevant to a large audience of philosophers and researchers in these disciplines Filosofía y Política en el Perú Augusto Castro,2015-11-28 La discusi n sobre la pol tica en el Per no tiene sentido si no se investigan con seriedad las corrientes y preocupaciones filos ficas que han aparecido en nuestro pa s Este libro es un intento de estudiar las ideas filos ficas propuestas por nuestros principales pensadores pol ticos del siglo xx Esta poca quiz represente el mejor momento para advertir una fineza intelectual pocas veces vista en nuestra comprensi n de la actividad filos fica y pol tica La obra de V ctor Andr s Belaunde es muestra de una de las mejores s ntesis construidas a partir de la reflexi n filos fica de la tradici n y la investigaci n sobre el Per De la misma manera la obra de Jos Carlos Mari tegui representa tambi n un punto de vista y una interpretaci n social del pa s construida con materiales de la tradici n socialista la filosof a vitalista y la est tica reinantes en su poca Por ltimo el pensamiento y la actividad pol tica de V ctor Ra l Haya de la Torre deben observarse a partir del intento

de construir desde principios del siglo xx una voluntad política organizada que tenga su base en la dialéctica hegeliana y las tendencias vitalistas que surgen a partir de la teoría de la relatividad Los peruanos han sido y son hoy políticamente hablando apristas socialistas y socialcristianos en su inmensa mayoría Conviene pues una reflexión desapasionada que permita una aproximación profunda de una época y de tres autores que es necesario asumir sopesar e integrar como parte de la experiencia política que hemos vivido los peruanos

Translating Marx Martín Cortés,2019-10-07 To speak of Latin American Marxism is to announce a problem To what extent can Marxism a theoretical universe forged from nineteenth century European experiences also be productive for grasping other realities How can we begin to make sense of the historical disconnection between that specific corpus of ideas and Latin America's popular movements Martín Cortés addresses these questions by considering the trajectory and works of José Aric who sought to rethink and disseminate in Spanish not only the works of Marx himself but also those of foundational socialist thinkers such as Antonio Gramsci Guided by an interest in Marxism's renovation Cortés explores Aric's vital contributions to key topics in political theory such as the nation the state the political subject and hegemony

Challenging Neoliberalism in Latin America Eduardo Silva,2009-08-31 At the turn of the twentieth century a concatenation of diverse social movements arose unexpectedly in Latin America culminating in massive anti free market demonstrations These events ushered in governments in Argentina Bolivia Ecuador and Venezuela that advocated socialization and planning challenging the consensus over neoliberal hegemony and the weakness of movements to oppose it Eduardo Silva offers the first comprehensive comparative account of these extraordinary events arguing that the shift was influenced by favorable political associational space a reformist orientation to demands economic crisis and mechanisms that facilitated horizontal linkages among a wide variety of social movement organizations His analysis applies Karl Polanyi's theory of the double movement of market society to these events predicting the dawning of an era more supportive of government intervention in the economy and society

The Interwar World Andrew Denning,Heidi J.S. Tworek,2023-08-29 The Interwar World collects an international group of over 50 contributors to discuss analyze and interpret this crucial period in twentieth century history A comprehensive understanding of the interwar era has been limited by Euro American approaches and strict adherence to the temporal limits of the world wars The volume's contributors challenge the era's accepted temporal and geographic framings by privileging global processes and interactions Each contribution takes a global thematic approach integrating world regions into a shared narrative Three central questions frame the chapters First when was the interwar Viewed globally the years 1918 and 1939 are arbitrary limits and the volume explicitly engages with the artificiality of the temporal framework while closely examining the specific dynamics of the 1920s and 1930s Second where was the interwar Contributors use global history methodologies and training in varied world regions to decenter Euro American frameworks engaging directly with the usefulness of the interwar as both an era and an analytical category Third how global was the interwar Authors trace accelerating connections

in areas such as public health and mass culture counterbalanced by processes of economic protectionism exclusive nationalism and limits to migration By approaching the era thematically the volume disaggregates and interrogates the meaning of the global in this era As a comprehensive guide this volume offers overviews of key themes of the interwar period for undergraduates while offering up to date historiographical insights for postgraduates and scholars interested in this pivotal period in global history *De Heidegger al postestructuralismo. Panorama de la ontología y antropología contemporáneas* Aragüés Estragués, Juan Manuel, Ezquerro Gómez, Jesús, 2014-06-18

A lo largo del siglo XX hemos asistido al desplome de esa ciudadela interior el sujeto laboriosamente edificada desde el helenismo cuya expresión filosófica más acabada es el cogito cartesiano Consecuencia inevitable de tal desplome es la muerte de esa ilusión llamada hombre La antropología filosófica ha de partir de esa verdad No hay hombre Este volumen reúne trabajos sobre autores diversos que desde Heidegger han abierto vías para pensar hoy una ontología sin sujeto y una antropología sin hombre **Latin**

American Philosophy Eduardo Mendieta, 2003-02-06 The essays in this book make it elegantly clear that there is a vigorous and rigorous Latin American philosophy and that others dismiss it at their peril Mario S enez The ten essays in this lively anthology move beyond a purely historical consideration of Latin American philosophy to cover recent developments in political and social philosophy as well as innovations in the reception of key philosophical figures from the European Continental tradition Topics such as indigenous philosophy multiculturalism the philosophy of race democracy postmodernity the role of women and the position of Latin America and Latin Americans in a global age are explored by notable philosophers from the region An introduction by Eduardo Mendieta examines recent trends and points to the social political economic and cultural conditions that have inspired the discipline Latin American Philosophy brings English speaking readers up to date with recent scholarship and points to promising new directions *Contra el revisionismo contemporáneo y en defensa del marxismo-leninismo de la unidad del movimiento comunista internacional*, 1964 **The New Latin**

American Left Jeffery R. Webber, Barry Carr, 2013 This anthology bringing together political scientists anthropologists historians sociologists economists and journalists provides a serious and sophisticated theoretical and historical analysis of the state of the Latin American Left The central thematic issues are addressed followed by a number of case studies written by the most astute radical Left observers of the contemporary setting **Utopía y Praxis Latinoamericana** Álvaro

Movements and State Power James Petras, Henry Veltmeyer, 2005-07-20 The 2003 electoral victory of Lucio Gutiérrez in Ecuador was met with the same sense of optimism that greeted the election of Ignacio Lula da Silva in Brazil and Hugo Chavez in Venezuela Gutiérrez's victory was viewed as a major advance for the country in its 500 year long struggle for freedom and democracy In Bolivia Evo Morales similarly came within an electoral whisker of achieving state power in 2002 and in 2003 Nestor Kirchner became President of Argentina Many journalists academics and politicians speak of a left turn in

Latin America characterizing these regimes as center left They came to power on the promise of delivering a fundamental change of direction that would steer their countries away from neo liberal economic policies and towards greater social equity Their success awakened major hopes on the Left for a new dawn in Latin American politics This book challenges these assumptions It critically examines their agreements with the IMF their social and economic policies and the economic ties of leading policy makers as well as the beneficiaries and losers under these regimes Latin America is unique in that it has experienced two decades of popular resistance to neo liberal policies each of the four countries examined here has a rich history of diverse indigenous and working class movements coming together to promote radical political change The authors examine the political dynamics between the state and its agenda and the strategy of mass mobilisation taken by the mass movements They explore the intensifying conflicts between the movements and their former allies in the state
