First Blood The Story Of Sumter:

Don Carlos Buell Stephen D. Engle, 2006-12-29 Major General Don Carlos Buell stood among the senior Northern commanders early in the Civil War led the Army of the Ohio in the critical Kentucky theater in 1861-62 and helped shape the direction of the conflict during its first years Only a handful of Northern generals loomed as large on the military landscape during this period and Buell is the only one of them who has not been the subject of a full scale biography A conservative Democrat Buell viewed the Civil War as a contest to restore the antebellum Union rather than a struggle to bring significant social change to the slaveholding South Stephen Engle explores the effects that this attitude one shared by a number of other Union officers early in the war had on the Northern high command and on political military relations In addition he examines the ramifications within the Army of the Ohio of Buell's proslavery leanings A personally brave intelligent and talented officer Buell nonetheless failed as a theater and army commander and in late 1862 he was removed from command But as Engle notes Buell's attitude and campaigns provided the Union with a valuable lesson that the Confederacy would not yield to halfhearted campaigns with limited goals **First blood** W. A. Swanberg, 1966 The Era of the Civil War--1820-1876 Louise A. Arnold-Friend, US Army Military History Institute, 1982 *The Era of the Civil War--1820-1876* US Army Military History Research Collection, 1974 **Visions of Glory** Kathleen Diffley, Benjamin Fagan, 2019-11-01 Visions of Glory brings together twenty two images and twenty two brisk essays each essay connecting an image to the events that unfolded during a particular year of the Civil War The book focuses on a diverse set of images that include a depiction of former slaves whipping their erstwhile overseer distributed by an African American publisher a census graph published in the New York Times and a cutout of a child's hand sent by a southern mother to her husband at the front The essays in this collection reveal how wartime women and men created both written accounts and a visual register to make sense of this pivotal period The collection proceeds chronologically providing a nuanced history by highlighting the multiple meanings an assorted group of writers and readers discerned from the same set of circumstances In so doing this volume assembles contingent and fractured visions of the Civil War but its differing perspectives also reveal a set of overlapping concerns A number of essays focus in particular on African American engagements with visual culture The collection also emphasizes the role that women played in making disseminating or interpreting wartime images While every essay explores the relationship between image and word several contributions focus on the ways in which Civil War images complicate an understanding of canonical writers such as Emerson Melville and Whitman Military Review, 2003 *The Civil War in Books* David J. Eicher, 1997 With the assistance of several scholars including James M McPherson and Gary Gallagher and a long time specialist in Civil War books Ralph Newman David Eicher has selected for inclusion in *The Civil War in Books* the 100 most important books on the war These are organized into categories as wide ranging as Battles and Campaigns Biographies Memoirs and Letters Unit Histories and General Works The last of these includes volumes on black Americans and the war battlefields fiction

pictorial works politics prisons railroads and a host of other topics Annotations are included for all entries in the work which is presented in an oversized 8 1/2 x 11 inch volume in two column format Appendixes list prolific Civil War publishers and other Civil War bibliographies and the works included in Eicher's mammoth undertaking are indexed by author or editor and by title Gary Gallagher's foreword traces the development of Civil War bibliographies and declares that Eicher's annotation exceeds that of any previous comprehensive volume *The Civil War in Books* Gallagher believes is precisely the type of guide that has been needed The first full scale fully annotated bibliography on the Civil War to appear in more than thirty years Eicher's *The Civil War in Books* is a remarkable compendium of the best reading available about the worst conflict ever to strike the United States The bibliography the most valuable reference book on the subject since *The Civil War Day by Day* will be essential for college and university libraries dealers in rare and secondhand books and Civil War buffs *Fateful Lightning* Allen C. Guelzo, 2012-05-11 *Fateful Lightning* is a mid length survey of the American Civil War In this revision of his 1994 *The Crisis of the American Republic* leading Civil War scholar Allen C Guelzo covers a broad range of topics including politics religion gender race diplomacy and technology Unlike other Civil War surveys the book concludes with substantial coverage of the postwar Reconstruction and the modern day legacy of the Civil War in American literature and popular culture Morris Island and the Civil War C. Russell Horres, 2019-04-01 From Charleston's doorstep Morris Island held a critical position in the Civil War It was first used by Confederates to assist in the bombardment of Fort Sumter and later became the scene of an epic struggle to prevent Union forces from gaining control After the battle the roles reversed and Union forces used the site to bombard Fort Sumter and Charleston Hundreds lost their lives and both sides expended a vast amount of war capital for what appeared to be little value Confederates greatly underestimated how events at Morris Island played into the hands of the Civil War's master strategist Abraham Lincoln Author C Russell Horres Jr offers the complete story of Morris Island in the War Between the States South Carolina in the Civil War and Reconstruction Eras Michael Brem Bonner, Fritz Hamer, 2022-04-13 An anthology of important scholarship on the Civil War and Reconstruction eras from the journal *Proceedings of the South Carolina Historical Association* Since 1931 the South Carolina Historical Association has published an annual peer reviewed journal of historical scholarship In this volume past SCHA officers of Michael Brem Bonner and Fritz Hamer present twenty three of the most enduring and significant essays from the archives offering a treasure trove of scholarship on an impressive variety of subjects including race politics military events and social issues All articles published in the *Proceedings* after 2002 are available on the SCHA website but this volume offers for the first time easy access to the journal's best articles on the Civil War and Reconstruction up through 2001 Preeminent scholars such as Frank Vandiver Dan T Carter and Orville Vernon Burton are among the contributors to this collection an essential resource for historical synthesis of the Palmetto State's experience during that era *A Gentleman and an Officer* Judith N. McArthur, Orville Vernon Burton, James B. Griffin, 1996 He left behind seven children the eldest only twelve and a wife who

was eight and a half months pregnant As a field officer in a prestigious unit the opportunities for fame and glory seemed limitless *We Have the War Upon Us* William J. Cooper, 2012-09-11 In this carefully researched book William J Cooper gives us a fresh perspective on the period between Abraham Lincoln s election in November 1860 and the firing on Fort Sumter in April 1861 during which all efforts to avoid or impede secession and prevent war failed Here is the story of the men whose decisions and actions during the crisis of the Union resulted in the outbreak of the Civil War Sectional compromise had been critical in the history of the country from the Constitutional Convention of 1787 through to 1860 and was a hallmark of the nation On several volatile occasions political leaders had crafted solutions to the vexing problems dividing North and South During the postelection crisis many Americans assumed that once again a political compromise would settle yet another dispute Instead in those crucial months leading up to the clash at Fort Sumter that tradition of compromise broke down and a rapid succession of events led to the great cataclysm in American history the Civil War All Americans did not view this crisis from the same perspective Strutting southern fire eaters designed to break up the Union Some Republicans crowing over their electoral triumph evinced little concern about the threatened dismemberment of the country Still others northerners and southerners antislave and proslave alike strove to find an equitable settlement that would maintain the Union whole Cooper captures the sense of contingency showing Americans in these months as not knowing where decisions would lead how events would unfold The people who populate these pages could not foresee what war if it came would mean much less predict its outcome *We Have the War Upon Us* helps us understand what the major actors said and did the Republican party the Democratic party southern secessionists southern Unionists why the pro compromise forces lost and why the American tradition of sectional compromise failed It reveals how the major actors perceived what was happening and the reasons they gave for their actions Lincoln and Jefferson Davis Stephen A Douglas William Henry Seward John J Crittenden Charles Francis Adams John Tyler James Buchanan and a host of others William J Cooper has written a full account of the North and the South Republicans and Democrats sectional radicals and sectional conservatives that deepens our insight into what is still one of the most controversial periods in American history *The Long Patrol* Michael Kozlowski, 2013-04-30 After a patrol lasting 139 years the Confederate States Submarine H L Hunley has returned home *The Long Patrol* describes how the world s first operational submarine was designed and built As this part of the story is methodically unveiled the characters of Horace Lawson Hunley and the Confederate military officers who backed him come to life and step off the pages of the book On another level this book is an indispensable social history of the Confederacy during its slow death It concludes with a description of the burial of the crew of the H L Hunley In his discussion of the likely causes for the loss of the Hunley Mike Kozlowski s description of exhaustion exposure cold ever decreasing oxygen levels and the multiplying factors of ill health concussion and long term malnutrition all strike a resonant chord His is the most likely and well substantiated explanation for the loss of the Hunley and one that fits well with information gained

during the recovery of the sunken submarine **The Maryland Campaign of September 1862, Volume I** Ezra Carman, 2010-05-20 The definitive soldier's eye view of the Battle of Antietam the bloodiest day in American history A veteran of the Battle of Antietam Ezra A Carman served as a colonel of the 13th New Jersey Infantry After the horrific fighting of September 17 1862 he recorded in his diary that he was preparing a good map of the Antietam battle and a full account of the action Unbeknownst to the young officer the project would become the most significant work of his life Appointed as the Historical Expert to the Antietam Battlefield Board in 1894 Carman solicited accounts from hundreds of veterans scoured through thousands of letters and maps and assimilated the material into the hundreds of cast iron tablets that still mark the field today Carman also wrote an 1 800 page manuscript on the campaign Although it remained unpublished for more than a century many historians and students of the war consider it to be the best overall treatment of the campaign ever written Dr Thomas G Clemens recognized internationally as one of the foremost historians of the Maryland Campaign has spent more than two decades studying Antietam and editing and richly annotating Carman's exhaustively written manuscript The result is *The Maryland Campaign of September 1862* Carman's magisterial account published for the first time in two volumes Jammed with firsthand accounts personal anecdotes maps photos a biographical dictionary and a database of veterans accounts of the fighting this long awaited study will be read and appreciated as battle history at its finest *The Shenandoah Valley Campaign of 1864* Gary W. Gallagher, 2006 The eleven essays in this volume re-examine common assumptions about the campaign its major figures and its significance Taking advantage of the most recent scholarship and a wide range of primary sources contributors examine strategy and tactics the performances of key commanders on each side the campaign's political repercussions and the experiences of civilians caught in the path of the armies The authors do not always agree with one another but taken together their essays highlight important connections between the home front and the battlefield as well as ways in which military affairs civilian experience and politics played off one another during the campaign **BOOK JACKET One Nation, Indivisible?** Robert F. Hawes, 2006 Is secession legal under the United States Constitution *One Nation Indivisible* takes a fresh look at this old question by evaluating the key arguments of such anti-secession men as Daniel Webster and Abraham Lincoln in light of reason historical fact the language of the Constitution and the words of America's Founding Fathers Modern anti-secession arguments are also examined as are the questions of why Americans are becoming interested in secession once again whether secession can be avoided and how an American state might peacefully secede from the Union **Longstreet's Aide** Thomas Jewett Goree, 1995 His letters are some of the richest and most perceptive from the Civil War period *The Civil War Naval Encyclopedia* Spencer C. Tucker, 2010-12-09 Long overlooked in favor of land engagements this is the first encyclopedia to analyze the naval aspects of the American Civil War The brilliance of both sides' secretaries of the navy Stephen Mallory and Gideon Welles The Dahlgren guns of the Union forces and the Confederate Navy's Brooke guns that were essential in battles involving ironclad ships The significant

contributions of African Americans in the ship crews of the U S Navy during the Civil War These are examples of the fascinating details contained in The Civil War Naval Encyclopedia that provide readers with a complete understanding of the naval aspects of the American Civil War The entries in this sweeping text provide comprehensive treatment of overall strategies on each side the role of diplomacy leading naval officers and other personalities battles and important engagements ship types well known individual warships naval ordnance and weapons systems and new developments such as mines and submarines Topics such as shipboard life major waterways prominent seaports and the role of logistics in determining the outcome of the war are also covered

Forged in the Fires E. Paul Yarbro, 2020-04-23 Individuals are not born to greatness but through failure and defeat they are prepared for it Our struggles seem to define us more than our triumphs and our character determines which path we choose What road would General George Washington take when offered absolute power Would Captain John Smith accept his common birth as a limitation of his own achievements Would Abraham Lincoln demand vengeance on the South after his victory in the Civil War What beliefs would guide their decisions and what life experiences shaped their character Nations as well are not born to greatness and must earn their places in history Their trials can destroy them or make them even stronger America was conceived in adversity and achieved greatness through the actions of its people in its darkest moments Six stories chronicle the lives of the people who guided a nation to greatness by relying on the Christian principles of providence divine purpose and perseverance God would direct their paths to victory over the dark times From the first settlements of Jamestown and Plymouth to the Civil War we discover that greatness rarely comes from success but often rises out of defeat In our weakness we are made strong Through the fires of struggle individuals forged a nation into a shining city on a hill These fires would light the way through the dark for future generations of Americans across the world to see

South Reports the Civil War J. Cutler Andrews, 2015-03-08 For the newspaper profession the problems confronted in reporting the Civil War were as catalytic as the war itself was for American society Many of the problems encountered in reporting later wars were present in the Civil War but they were new problems then communications transportation Federal confiscation of printing presses censorship military personalities and after mid 1863 how to tell a proud people that it was losing the war Professor Andrews author of The North Reports the Civil War 1955 now turns his attention to the South He shows that Southern war reporting at its best was comparable in quality to that of the leading Northern war correspondents that the reporting of news by the Southern press was an essential ingredient not simply of journalism but also of the Confederate propaganda effort and that the South's newsmen contributed to the revolution of a profession an industry and a form of human communication Originally published in 1970 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase
