

A Step-By-Step Guide To Starting A Business

Building your own business can be a scary but fulfilling experience. Check out this infographic and learn how to start a business from scratch with this step-by-step guide.

1

Have a business idea

First and foremost, you must have a business idea that you are passionate about. Think about the things that you love and you care about doing.

2

Do market research

Is the niche too saturated? Or is there room for a new player like you? Conduct market research to see if the business could be profitable.

3

Create a business plan

Start planning your business. List down your modes of selling (online vs. physical store) and create a checklist of how you want your business to grow.

4

Secure capital

Based on your business plan, gather funding. Plan your inventory and other business costs to ensure that you won't run out of funds during the first few months of your business.

5

Build your A-team

Start hiring people that can help you achieve your business goals. Some people start by hiring families and friends at first. Some people go to job sites and freelancing sites to look for qualified talent.

6

Register Your Business

Business registration and obtaining the necessary permits and licenses is very important. Do not skip this step!

7

Be a boss and have fun!

Now that you have everything settled, it's time to start being a boss! Be hands-on during the first few months of the business to ensure that everything is running smoothly. Always have fun - remember why you started the business in the first place!

t understand the competition and market dynamics Later you spend a lot of money and face many failures You get successful after all this But you need to take care that you should watch these 24 chapter around these 3 sections Ways to do a startup

- 1 Passion Some people are passionate and they believe that they can build a company of Rs 500 crore
- 2 Technology Some people can make a technology that becomes intellectual property They also believe that even if they are unable to form a big organization they can sell the technology to someone
- 3 Idea Some people have a very strong idea and they can create a big company by hiring the people of technology and marketing You should start a startup when your idea and strategy is strong and you also have the knowledge of technology

Steps to move from passion to idea and technology

- 1 Knowledge Deep knowledge of a subject
- 2 Capability
- 3 Network the people you know and are going to support you when you start a startup
- 4 Financial assets As it is said that 95% of the startups fail in the 3 years of execution it happens because of the lack of finances
- 5 Established brand You need to check whether you already have an established brand or you have something on which you can build something The brand can also be of your co founder or you can partner with someone who has a big brand In such a case you have an added advantage
- 6 Past work experience
- 7 Commitment you need to check how much you are committed towards your idea or technology
- 8 Find a founding team Startup is not a lonely journey and therefore you will have to find a founding team There are many individuals who are founders on their own but they set up a very strong management team The future of India is in your hands so create it as this is your moment
