First Heroes The Extraordinary Story Of The Doolittle Raid Americas First World War II Victory:

The First Heroes Craig Nelson, 2003-09-30 Immediately after Japan's attack on Pearl Harbor President Franklin D. Roosevelt sought to restore the honor of the United States with a dramatic act of vengeance: a retaliatory bombing raid on Tokyo. On April 18, 1942, eighty brave young men led by the famous daredevil Jimmy Doolittle took off from a navy carrier in the mid-Pacific on what everyone regarded as a suicide mission but instead became a resounding American victory and helped turn the tide of the war. *The First Heroes* is the story of that mission. Meticulously researched and based on interviews with twenty of the surviving Tokyo Raiders, this is a true account that almost defies belief: a tremendous human drama of great personal courage and a powerful reminder that ordinary people when faced with extraordinary circumstances can rise to the challenge of history.

The Doolittle Raid John Grehan, 2020-03-30 On 1 April 1942, less than four months after the world had been stunned by the attack upon Pearl Harbor, sixteen US aircraft took to the skies to exact retribution. Their objective was not merely to attack Japan but to bomb its capital. The people of Tokyo, who had been told that their city was invulnerable from the air, would be bombed and strafed, and the shock waves from the raid would extend far beyond the explosions of the bombs. The raid had first been suggested in January 1942 as the US was still reeling from Japan's preemptive strike against the US Pacific Fleet at Pearl Harbor. The Americans were determined to fight back and fight back as quickly as possible. The 17th Bomb Group Medium was chosen to provide the volunteers who would crew the sixteen specially modified North American B-25 bombers. As it was not possible to reach Tokyo from any US land bases, the bombers would have to fly from aircraft carriers, but it was impossible for such large aircraft to land on a carrier; the men had to volunteer for a one-way ticket. Led by Lieutenant Colonel Jimmy Doolittle, the seventy-one officers and 130 enlisted men embarked on the USS *Hornet*, which was shielded by a large naval task force. However, the ships were spotted by a Japanese ship. The decision was therefore made to take off before word of the task force's approach reached Tokyo, even though the carrier was 170 miles further away from Japan than planned and in the knowledge that the B-25s would not have enough fuel to reach their intended landing places in China. The raid was successful, and the Japanese were savagely jolted out of their complacency. Fifteen of the aircraft crash landed in or their crews baled out over China; the sixteenth managed to

reach the Soviet Union Only three men were killed on the raid with a further eight being taken prisoner by the Japanese three of whom were executed and one died of disease The full story of this remarkable operation of the men and machines involved is explored through this fascinating collection of images

The Pacific War William B. Hopkins, 2010-11-04 This important comprehensive study of WWII in the Pacific examines the high level decision making and strategy that led to victory Roanoke Times Once the stories have been told of battles won and lost most of what happens in a war remains a mystery So it has been with accounts of World War II in the Pacific a complex conflict whose nature is often obscured by simple chronological narratives In *The Pacific War* William B Hopkins a Marine Corps veteran of the Pacific war and respected military history author opens the story of the Pacific campaign to a broader and deeper view Hopkins investigates the strategies politics and personalities that shaped the fighting His regional approach to this complex war conducted on land sea and air offers an insightful perspective on how this multifaceted conflict unfolded As expansive as the immense reaches of the Pacific and as focused as the most intensive pinpoint attack on a strategic island Hopkins account offers a fresh way of understanding the hows and more significantly the whys of the Pacific War

The Media Offensive Alexander G. Lovelace, 2022-05-25 World War II was a media war President Franklin D Roosevelt used the press to a great extent of course but as the war progressed the media also came to influence commanders decisions on the battlefield Rescuing General Douglas MacArthur from the Philippines in deference to public opinion forced the Allies to divide the Pacific War between two competing theaters Omar Bradley s concern over US public opinion convinced General Dwight D Eisenhower to include Americans in the final assault against Axis forces in Tunisia General George S Patton Jr raced across Sicily to gain media attention and British respect General Mark Clark s hunger for publicity and the glory of capturing Rome allowed an entire German army to escape destruction Negative media pressure and the fear of V 1 bombs damaging British morale provided the impetus for the breakout of Normandy and the unsuccessful attempt to liberate the Netherlands in the fall of 1944 British general Bernard Montgomery s remarks to the press during the Battle of the Bulge almost caused him to lose his command and created tremendous ill feelings among the Allies Soon afterward Eisenhower was forced to hold the dangerously exposed city of Strasbourg because of French public opinion By V E Day even Eisenhower was attempting to get more publicity for American as opposed to Allied units *The Media Offensive* offers a new way to understand military media relations during World War II The press and public opinion shaped not only how the conflict was seen but also how it was fought Alexander Lovelace demonstrates that the US military repeatedly discovered that the best effects resulted from accurate news stories Truthful news reporting defined as news reporting that accurately depicts the events it describes could not be created by the military or even the media but could only emerge through a free press searching for it Lovelace recasts World War II in a new and unique fashion by placing media and public opinion at the center of battlefield decision making Unlike past scholarship on the media during World War II that focused on censorship propaganda or the adventure stories of

war correspondents The Media Offensive takes the historiography of war reporting in a new direction In what could be called the new history of war reporting the focus is switched from how the military controlled reporters to how military decisions were shaped by the press **Target Tokyo** James M. Scott,2015-03-31 Finalist for the 2016 Pulitzer Prize in History Like Lauren Hillebrand's Unbroken Target Tokyo brings to life an indelible era Ben Cosgrove The Daily Beast On April 18 1942 sixteen U S Army bombers under the command of daredevil pilot Jimmy Doolittle lifted off from the deck of the USS Hornet on a one way mission to pummel Japan's factories refineries and dockyards in retaliation for their attack on Pearl Harbor The raid buoyed America's morale and prompted an ill fated Japanese attempt to seize Midway that turned the tide of the war But it came at a horrific cost an estimated 250 000 Chinese died in retaliation by the Japanese Deeply researched and brilliantly written Target Tokyo has been hailed as the definitive account of one of America's most daring military operations

V Is For Victory Craig Nelson, 2023-05-23 Historian Craig Nelson reveals how FDR confronted an American public disinterested in going to war in Europe skillfully won their support and pushed government and American industry to build the greatest war machine in history the arsenal of democracy that won World War II As Nazi Germany began to conquer Europe America's military was unprepared too small and poorly supplied The Nazis were supported by robust German factories that created a seemingly endless flow of arms trucks tanks airplanes and submarines The United States emerging from the Great Depression was skeptical of American involvement in Europe and not ready to wage war Hardened isolationists predicted disaster if the country went to war In this fascinating and deeply researched account Craig Nelson traces how Franklin D Roosevelt steadily and sometimes secretly put America on a war footing by convincing America's top industrialists such as Henry Ford Jr to retool their factories by diverting the country's supplies of raw materials to the war effort and above all by convincing the American people to endure shortages to work in wartime factories and to send their sons into harm's way Within a few years the nation's workers were producing thousands of airplanes and tanks hundreds of warships and submarines Under FDR's resolute leadership victory at land and sea and air across the globe began at home in America a powerful and essential narrative largely overlooked in conventional histories of the war but which in Nelson's skilled authoritative hands becomes an illuminating and important work destined to become an American history classic
