First Hired Last Fired:

First Hired, Last Fired Anita Agers-Brooks, 2013 Today's employees face terror and stress at the prospect of losing their jobs and finding new ones. The global climate reeks of confusion, fear, anxiety, and competition while people clamber for jobs. Layoffs and shrinking markets choke confidence from qualified workers. **FIRST HIRED LAST FIRED** shows readers how to use the valuable wisdom found in the ancient text of the Bible to avoid becoming disposable in this challenging marketplace. Through timeless wisdom, simple solutions, and easy-to-apply principles, readers will find meaning in their work lives and deep satisfaction from committing to a job well done. Through practice, the reader will learn to look deeper into the Bible for relevant help with current issues. *First Hired, Last Fired* BRAMSON, 1999-06-22 This book reveals what makes an employee vital to employers so that readers can adopt these job-saving strategies and characteristics. The indispensable employee comes to life with authentic anecdotes and examples that will prove helpful to those looking for career growth and stability.

Heirs of Oppression Angelo J. Corlett, 2010-11-16 Packing his case with moral argument and relevant facts, Angelo Corlett offers the most comprehensive defense to date in favor of reparations for African Americans and American Indians. As Corlett sees it, the heirs of oppression are both the descendants of the oppressors and the descendants of their victims. Corlett delves deeply into the philosophically related issues of collective responsibility, forgiveness, and apology, and reparations as a human right in ways that no other book or article to date has done. He recommends specific policies and tests the basic arguments of this book with a lengthy chapter considering several objections to the line of reasoning grounding the project.

The Routledge Handbook of Feminist Philosophy of Science Sharon Crasnow, Kristen Intemann, 2020-11-30 The Routledge Handbook of Feminist Philosophy of Science is a comprehensive resource for feminist thinking about and in the sciences. Its 33 chapters were written exclusively for this Handbook by a group of leading international philosophers as well as scholars in gender studies, women's studies, psychology, economics, and political science. The chapters of the Handbook are organized into four main parts: I Hidden Figures and Historical Critique; II Theoretical Frameworks; III Key Concepts and Issues; IV Feminist Philosophy of Science in Practice. The chapters in this extensive fourth part examine the relevance of feminist philosophical thought for a range of scientific and professional disciplines, including biology and biomedical sciences, psychology, cognitive science, and neuroscience, the social sciences, physics, and public policy. The Handbook gives a snapshot of the current state of feminist philosophy of science, allowing students and other newcomers to get up to speed quickly in the subfield and providing a handy reference for many different kinds of researchers.

Court of Appeal (2nd Appellate District). Records and Briefs California (State)., *Work, Retire, Repeat* Teresa Ghilarducci, 2024-03-06 The issue of the future of Social Security on which millions of Americans depend produced great political theater at the State of the Union address That highlighted a bigger problem of financing retirement as baby boomers seek to retire often with limited resources Many argue that the solution to the problem is for people to work longer Teresa Ghilarducci a noted expert on retirement argues that the working longer idea is wrong unnecessary and discriminates against people who work in lower wage occupations Ghilarducci pushes for a national plan to finance retirement that would draw on contributions by both employers and employees to replace our privatized and ramshackle personal retirement system and make changes in the tax system that supports Social Security to give people a real choice whether to retire or continue to work in their later years This book tells the stories of people locked into jobs later in life not because they love to work but because they must work She demonstrates how relatively low cost changes in the way we manage and finance retirement will enable people in their so called golden years to choose how to spend their time Ghilarducci has a good public platform writes for Bloomberg and other outlets and is passionate about her ideas and reaching as broad a public as possible The book is for the growing number of people in the public and policy community who

Equal Employment Opportunity Commission, 1968 *The Graying of the Great Powers* Richard Jackson, Neil Howe, 2008-05-23 The demographic trends of the twenty first century will challenge the geopolitical assumptions of both the left and the right **BOOK JACKET** *Ebony*, 1977-02 EBONY is the flagship magazine of Johnson Publishing Founded in 1945 by John H Johnson it still maintains the highest global circulation of any African American focused magazine *Writing Ourselves Into the Story* Sheryl I. Administration and Labor Relations Norma M Riccucci, 2015-03-26 The readings in this volume will enlighten and enliven the contents of any standard public administration text covering human resource management. Selected mainly from the pages of *Public Administration Review* and *Review of Public Personnel Administration*, these classic articles trace the historical and evolutionary development of the fields of public personnel administration and labor relations from the point at which the first civil service law was passed, the Pendleton Act in 1883, through the 21st century. The collection covers everything from the seminal concerns of civil service, e.g., keeping spoils out, to topics that early reformers would never have envisioned, e.g., affirmative action and drug testing. These works continue to inform the theory and practice of public personnel and labor relations. To facilitate an instructor's ability to assign readings that illuminate lectures and course material, a correlation matrix on the M. E.
