This atlas is based on large scale fieldwork conducted in Galilee in the mid nineties of last century Galilee is the area with the highest percentage of arabophones in Israel and displays a rather complex dialectal situation The reshuffling of large parts of the population after 1948 led to a considerable degree of dialectal diversity in many places Moreover many points of investigation show besides the notorious Bedouin sedentary dichotomy a significant sociolinguistic variation with respect to age sex and denomination The atlas contains seventy three phonetic and phonological maps in addition to eighty morphological and thirty eight lexical maps Ten maps deal with the classification of the dialects The atlas is of interest to semitists dialectologists and variationists **Festival Sermons of Martin Luther** Martin Luther, 2005 Sermons of Martin Luther for Feasts and Saints days never before available in English A perfect companion to the Klug House Postils and
