First Nations Of North America Politics And Representation:

First Nations of North America Hans Bak, 2005 *First Nations of North America Indigenous Political Representation in Latin America* Adrian Albala, Alejandro Natal, 2023-07-19 This book presents a comparative analysis of the struggles of Latin American indigenous peoples for effective representation in national political systems in the region Through a detailed exploration of the political dynamics of indigenous groups and examples of mechanisms of political representation the studies in this book reveal how power relations cleavages and indigenous civil society organizations are essential to our understanding of indigenous political participation These studies closely inspect how collective action builds up at local level in grassroots organizations and how it then articulates or not with larger mechanisms of regional and national political representation providing a more comprehensive and comparative assessment of why and when representation works and fails for indigenous people This contributed volume is organized around one general and comparative chapter on indigenous political representation in Latin America followed by eight case studies divided into three main groups The first group includes cases with a more inclusive political environment such as Bolivia Ecuador and Guatemala The second group brings together cases with certain representation and or active indigenous elites Colombia Mexico and Paraguay Tthe third group presents outlier cases with potential indigenous issues Peru and Chile Finally the last chapter brings together reflections on how mechanisms for effective political representation can be improved and how indigenous organizations can be fostered to ensure effective political representation Indigenous Political Representation in Latin America will be of interest to political scientists sociologists and anthropologists studying both indigenous collective action and political representation by presenting a discussion on how to structure representation mechanisms capable of politically integrate the ethnic diversity of Latin American countries in order to build a multicultural citizenship It will also help policy makers and activists by discussing the successes and failures of effective indigenous political representation in Latin America

Women, Power, and Political Representation Roosmarijn de Geus, Erin Tolley, Elizabeth Goodyear-Grant, Peter John Loewen, 2021-07-30 Delving into the pressing topic of gender and politics this volume provides fresh comparative perspectives on what works to promote women in politics today

Inspiring and informative *Women Power and Political Representation* offers a comprehensive overview of the role women play in contemporary politics and pinpoints the reasons behind their underrepresentation. Discussing the challenges and opportunities women face when running for office as well as their experiences as political leaders, this book offers a broad and thoughtful overview of the pitfalls encountered by women from gender biases to sexual harassment in the notoriously male dominated political arena. Featuring a range of voices that articulate a path towards women's political advancement and equality, *Women Power and Political Representation* is an important and timely resource for scholars, students, and women working professionally in Canadian and international politics. *Indigenous Networks* Jane Carey, Jane Lydon, 2014-06-27

This edited collection argues for the importance of recovering Indigenous participation within global networks of imperial power and wider histories of transnational connections. It takes up a crucial challenge for new imperial and transnational histories to explore the historical role of colonized and subaltern communities in these processes and their legacies in the present. Bringing together prominent and emerging scholars who have begun to explore Indigenous networks and transnational encounters and to consider the broader significance of extra local connections, exchanges, and mobility for Indigenous peoples, this work engages closely with some of the key historical scholarship on transnationalism and the networks of European imperialism. Chapters deploy a range of analytic scales including global, regional, and intra-Indigenous networks and methods including histories of ideas and cultural forms and biography as well as exploring contemporary legacies. In drawing these perspectives together, this book charts an important new direction in research. *News Framing of Indigenous Politics in Canada* Brian Budd, 2024-07-31

This book explores the news media's coverage of Indigenous settler reconciliation following the conclusion of the Truth and Reconciliation Commission of Canada (TRC). Using a comparative case study research design, the book examines news coverage of three significant Indigenous rights issues and events during the post-TRC era. The findings presented demonstrate that in the post-TRC era, the Canadian news media continue to produce systemic patterns in coverage which reject, marginalize, and erase the territorial rights and claims of Indigenous Peoples. The author concludes that rather than helping to move the relationship between Indigenous Peoples and settlers forward along a path of reconciliation, power sharing, and the resurgence of land-based self-determination, the news media are continuing to construct discourses and representations that work against the political objectives of Indigenous Peoples and reinforce settler colonial power relationships in Canada. *First Nations Gaming in Canada* Yale D. Belanger, 2011-11-30

While games of chance have been part of the Aboriginal cultural landscape since before European contact, large-scale commercial gaming facilities within First Nations communities are a relatively new phenomenon in Canada. *First Nations Gaming in Canada* is the first multidisciplinary study of the role of gaming in Indigenous communities north of the 49th parallel. Bringing together some of Canada's leading gambling researchers, the book examines the history of Aboriginal gaming and its role in Indigenous political economy, the rise of large-scale casinos, and cybergaming, the socio-ecological impact of problem

gambling and the challenges of labour unions and financial management The authors also call attention to the dearth of socio economic impact studies of gambling in First Nations communities while providing models to address this growing issue of concern *Introduction to Indigenous Literary Criticism in Canada* Heather Macfarlane, Armand Garnet Ruffo, 2015-12-18
