[A Journey into the Human Experience of Incurable Disease](#) Malcolm de Roubaix, 2023-06-05. Incurable disease is a natural phenomenon inherent to the human condition. This book critically investigates the uniquely human experience of and response to illness and treatment which affects the body, the mind and the very core of human existence and identity. Uncertainties regarding the outcomes of laboratory and other investigations that aid in the diagnosis and assessment of disease exacerbate the apprehension inherent to the diagnosis of incurable disease. An excessively scientific approach may disregard the suffering patient. The book begins by analysing the nature, meaning and significance of hope in the context of disease and goes on to reflect on the language of medicine and the role of emotion, ideology and politics in disease treatment and research. The epilogue reflects on healing as distinct from physical cures. Without hope there is no future without healing, no holistic recovery. The final chapters are devoted to the end of life period of this journey. This book is a revision, extension and reconceptualization of the original Afrikaans publication *Hoop Heling en Harmonie Dink Nuut Oor Siekte en Genesing*, winner of the 2021 Andrew Murray Prize for Theological Publications.

[My Cancer Journey – a Rendezvous with Myself](#) Parul Banka, 2015-05-26. My book *My Cancer Journey: A rendezvous with myself* is a candid narration of my encounter with breast cancer. It is the story of an ordinary woman who was put in extraordinary circumstances and who undertook her cancer journey with the utmost courage. This memoir is not just about describing a difficult medical condition. It is about going through the experience and emerging from it wiser and stronger. It is about using cancer as a life-changing experience despite all the trauma and the loss and the change needn't be for the worse. It is about understanding the choice that a human being has: the choice to accept what cannot be changed and to use one of the toughest fights of life to evolve into a better person irrespective of the prognosis. Pick up a copy to embark on a rendezvous with your inner self. A factual, informative and profound book truly from the heart. I highly recommend this book and it offers some important insights from holistic therapy.

Lorraine Smillie, Homeopath and Holistic Healer, UK. Parul's account of her experience with breast cancer and what she found helpful will be a useful companion for other young women finding themselves in a similar situation.

Dr Caroline Hoffman, OAM, PhD, clinical and research director, The Haven, London. This book is a very personal and very honest story of survival from breast cancer. Parul has shown enormous courage to emerge as a strong, determined woman with everything to live for.
