

BulletPoints: Our First 3 Years

Since November 2019, the **BulletPoints Project** has taught thousands of medical and mental health care providers how to reduce the risk of firearm injury in their patients.

✦ BulletPoints Curriculum and Tools ✦

Our curriculum synthesizes key evidence in firearm injury prevention for different clinician types and settings. Our various curriculum formats have become a **go-to resource** for students and clinicians across the country.

Our core content and our signature **3A's Framework**—Approach, Assess, Act—prepares clinicians to counsel patients on firearm injury prevention.

Our supplementary content covers epidemiology, guns 101, cultural humility, and more to help clinicians better understand firearm injury and implement the 3A's Framework.

Our continuing education course, **Preventing Firearm Injury**, is accredited, free, and available on-demand. Its patient encounter videos demonstrate how to put lessons learned into practice.

Our website, www.bulletpointproject.org, has over 30 pages and 400 resources. It features in-depth syntheses, blogs, videos, printables, a resource library, and other tools.

Abell, 2005-12-16 Analysis of past developments in teacher education in Pakistan has shown that substantial progress has been made in this field It has however been pointed out that education of science teachers still needs much improvement At the present there is an emergent need to meet the shortage of qualified science teachers and at the same time to bring qualitative improvements in the courses offered in teacher education institutions First we recommend that the 1 year duration of teacher preparation is grossly inadequate for all teaching courses and should be lengthened and the qualifications for entrance be increased We believe that teaching must be made a graduate profession For example the basic qualification of primary school teachers for admission to teacher education institution should be increased We recommend that PTC should be made a 12 2 year program Similarly CT 12 3 B Ed 14 2 B S Ed 12 4 M A Ed 14 3 and M Ed one year after B Ed or B S Ed Secondly we think the quality of instruction in teacher preparation programs should be improved Most teachers in the teacher preparation institutions use the lecture method most of the time Prospective teachers behave like passive listeners to their teachers They do not participate in the teaching learning process Some instructors even dictate their notes to the preservice teachers When the teachers join schools they behave the same way Education ,1889
