## **First Globalization The Eurasian Exchange 1500 1800:**

**First Globalization** Geoffrey C. Gunn, 2003-06-05 First Globalization presents an original and sweeping conceptualization of the grand cultural civilizational encounter between Asia and Europe. Now largely taken for granted, the exchange resonates in multiple ways even today. Offering a metageography of the vast Eurasian zone, Geoffrey C. Gunn shows how between 1500 and 1800 a lively two-way flow in ideas, philosophies, and cultural products brought competing civilizations into serious dialogue and mostly peaceful exchange. In Europe, the interaction was reflected in missionary reporting, cartographic representations, literary productions, and intellectual fashions alongside the business of commerce and plunder when it reached the Americas and peripheries. In Asia, notably China, India, and particularly Japan, European ideas and their bearers received a remarkably positive hearing when they did not challenge reigning orthodoxies. Ranging from discussions of the natural world, livelihoods, and religious and intellectual encounters to language, play, crime, and punishment, gender, and governance, this book replays the themes of enduring hybridity and creolization of cultures dating from the first great encounter between Europe and Asia.

**China and the Birth of Globalization in the 16th Century** Dennis O. Flynn, Arturo Giráldez, 2024-10-28 Including 11 essays published over the last 15 years, this volume by Dennis O. Flynn and Arturo Giráldez concerns the origins and early development of globalization. It opens with their 1995 Silver Spoon essay and a theoretical essay published in 2002. Subsequent sections deal with Pacific Ocean exchanges, interconnections between the Spanish, Ottoman, Japanese, and Chinese empires, and the necessity of multidisciplinary approaches to global history. The volume follows the evolution of the authors' thinking concerning the central role of China in the global silver trade, as well as interrelations among silver and non-silver markets. Research before 2002 paved the way for development of a coherent Birth of Globalization narrative that portrays economic factors in the context of powerful epidemiological, ecological, demographic, and cultural forces. In the final essay, Flynn and Giráldez argue for incorporating the

work of all academic disciplines when attempting to understand the history of globalization advocating an inclusive historical data base which recognizes contextual realities and an inductive process of reasoning      China's Saints Anthony E. Clark, 2011-04-07 While previous works on the history of Christianity in China have largely centered on the scientific and philosophical areas of Catholic missions in the Middle Kingdom China's Saints recounts the history of Christian martyrdom precipitated as it was by cultural antagonisms and misunderstanding Anthony Clark shows that Christianity in China began and grew under similar circumstances to those during the Roman Empire with the notable exception that Catholic missionaries were not successful at producing a Chinese Constantine One of the principal results of Catholic martyrdom in China was the increased indigenization of Christianity During the reconstruction of mission churches hospitals and orphanages after the hostilities of the Boxer Uprising 1898 1900 the Roman Catholic tradition of venerating martyrs was attached to the reinvigoration of Christian communities Not only did Catholic architecture accommodate to Chinese sensibilities but causes for sainthood were also begun at the Vatican to add Chinese names to the Church's list of saints The implications of Clark's work extend beyond the subject of Christianity in China to the broader fields of cultural social economic political and religious history This pioneering study follows the trails of Western missionaries and Chinese converts as they negotiate the religious and cultural chasms that existed between the West and China and it demonstrates that these differences resulted in two very different outcomes Whereas converts appear to have bridged the cultural divide often to the point of self sacrifice political and cultural tensions on the macro level sometimes ended with forceful conflicts This book contributes to a deeper understanding of cultural and religious interaction and provides an account of an heretofore unstudied chapter in the history of Christianity on the global landscape      *The Visitor* Liam Matthew Brockey, 2014-09-15 In an age when few ventured beyond their birthplace Andr Palmeiro left Portugal to inspect Jesuit missions from Mozambique to Japan A global history in the guise of biography The Visitor tells the story of a theologian whose travels bore witness to the fruitful contact and violent collision of East and West in the early modern era      **World Trade Systems of the East and West** Geoffrey C. Gunn, 2017-11-13 In World Trade Systems of the East and West Geoffrey C Gunn profiles Nagasaki's historic role in mediating the Japanese bullion trade especially silver exchanged against Chinese and Vietnamese silk Founded in 1571 as the terminal port of the Portuguese Macau ships Nagasaki served as Japan's window to the world over long time and with the East West trade carried on by the Dutch and with even more vigor by the Chinese junk trade While the final expulsion of the Portuguese in 1646 characteristically defines the closed period of early modern Japanese history the real trade seclusion policy this work argues only came into place one century later when the Shogunate firmly grasped the true impact of the bullion trade upon the national economy      *Collecting the World* James Delbourgo, 2017-07-31 Winner of the Leo Gershoy Award Winner of the Louis Gottschalk Prize A Times Book of the Week A Guardian Book of the Week A wonderfully intelligent book Linda Colley A superb biography humane judicious and as passionately curious as Sloane himself

**Chaplains of the King in the Colonial Philippines** Alexandre Coello de la Rosa,2025-07-06 The first of two volumes on the archbishops and cathedral chapters of seventeenth century Manila this book fills a historiographical gap by examining the diocesan clergy of the Philippines political maneuverings In particular this volume studies the archbishops unstable authority and ecclesiastical chapters preeminence at this time First it emphasizes the need for a new paradigm of conflict ridden Catholic evangelization ius predicandi that explores the interactions and engagements of the Church s legal agents mainly priests canons and bishops and brings their rivalries to the fore Second it draws attention to one of the most neglected topics in Philippine ecclesiastical history namely the metropolitan cathedral chapters which far from being monolithic units at the service of their archbishops were too highly fragmented to constitute a single power holder This volume s examination of these power dynamics makes it clear that history of the colonial Catholic Church cannot be separated from political history of the Philippines *From Chinese Cosmology to English Romanticism* Yu Liu,2023-04-27 A culturally sensitive and rewarding new understanding of the cross cultural interaction between China and Europe In this important new work author Yu Liu argues that confined by a narrow English and European conceptual framework scholars have so far obscured the radical innovation and revolutionary implication of Samuel Taylor Coleridge and William Wordsworth s monistic philosophy Liu s innovative intellectual history traces the organic westward movement of the Chinese concept of tianren heyi or humanity s unity with heaven This monistic idea enters the European imaginary through Jesuit missionary Matteo Ricci s understanding of Chinese culture travels through Spinoza s identification of God with nature becomes ingrained in eighteenth century English thought via the landscaping theory and practice of William Kent and Horace Walpole and emerges in the poetry and thought of Coleridge and Wordsworth In addition to presenting a significantly different reading of the two English poets Liu contributes to scholarship about English literary history history of European

philosophy and religion English garden history and cross cultural interactions between China and Europe in the sixteenth seventeenth and eighteenth centuries      Christianity in India Clara A.B. Joseph, 2019-03-07 By studying the history and sources of the Thomas Christians of India a community of pre colonial Christian heritage this book revisits the assumption that Christianity is Western and colonial and that Christians in the non West are products of colonial and post colonial missionaries Christians in the East have had a difficult time getting heard let alone understood as anti colonial This is a problem especially in studies on India where the focus has typically been on North India and British colonialism and its impact in the era of globalization This book analyzes texts and contexts to show how communities of Indian Christians predetermined Western expansionist goals and later defined the Western colonial and Indian national imaginary Combining historical research and literary analysis the author prompts a re evaluation of how Indian Christians reacted to colonialism in India and its potential to influence ongoing events of religious intolerance Through a rethinking of a postcolonial theoretical framework this book argues that Thomas Christians attempted an anti colonial turn in the face of ecclesiastical and civic occupation that was colonial at its core A novel intervention this book takes up South India and the impact of Portuguese colonialism in both the early modern and contemporary period It will be of interest to academics in the fields of Renaissance Early Modern Studies Postcolonial Studies Religious Studies Christianity and South Asia The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
