First South Walter Lynwood Fleming Lectures:

"Origins of the New South" Fifty Years Later John B. Boles, Bethany L. Johnson-Dylewski, 2003-10-31 In this thoughtful sophisticated book John B Boles and Bethany L Johnson piece together the intricate story of historian C Vann Woodward s 1951 masterpiece Origins of the New South 1877 1913 published as Volume IX of LSU Press s venerable series A History of the South Sixteen reviews and articles by prominent southern historians of the past fifty years here offer close consideration of the creation reception and enduring influence of that classic work of history It is rare for an academic book to dominate its field half a century later as Woodward's Origins does southern history Although its explanations are not accepted by all the volume remains the starting point for every work examining the South in the era between Reconstruction and World War I In writing Origins Woodward deliberately set out to subvert much of the historical orthodoxy he had been taught during the 1930s and he expected to be lambasted But the revisionist movement was already afoot among white southern historians by 1951 and the book was hailed Woodward's work had an enormous interpretative impact on the historical academy and encapsulated the new trend of historiography of the American South an approach that guided both black and white scholars through the civil rights movement and beyond This easily accessible collection comprises four reviews of Origins from 1952 to 1978 Origin of Origins a chapter from Woodward s 1986 book Thinking Back The Perils of Writing History that explains and reconsiders the context in which Origins was written five articles from a fiftieth anniversary retrospective symposium on Origins and three commentaries presented at the symposium and here published for the first time A combination of trenchant commentary and recent reflections on Woodward's seminal study along with insight into Woodward as a teacher and scholar Fifty Years Later in effect traces the creation and development of the modern field of southern history Fleming Lectures, 1937-1990 Burl Noggle, 1992-10-01 As a quintessentially southern campus Louisiana State University has logically spawned some of the most important regional scholarly studies of the twentieth century During the campus golden age in the 1930s such eminent scholars as Cleanth Brooks Robert Penn Warren and Eric Voeglin made LSU one of the leading academic institutions in the country It was during this period that a series called the Walter Lynwood Fleming Lectures in Southern History named in honor of a noted scholar and researcher at LSU in the early 1900s was created to add to the body of knowledge in the developing field of southern history Now considered one of the most distinguished lecture series of its kind the Fleming series has brought to the LSU campus scholars of note who have studied the South in its various aspects Lecturers ranging from C Vann Woodward and Lewis P Simpson to Eric Foner and Drew Gilpin Faust have presented a wide panorama of views and methodological approaches In this book Burl Noggle presents an informative history of the lectures from 1937 through 1990 As a member of the LSU history faculty for more than thirty years Noggle has heard most of the Fleming lectures delivered and has participated in the selection of lecturers He thus brings a rather special perspective to his subject that of an insider who has been intimately involved in the series itself as well as the broader

understanding of a mature scholar who has devoted a substantial portion of his career to the analysis of American historiography Noggle focuses on two aspects of the Fleming series On one level he discusses the history of the lectures themselves who lectured on what topic why each lecturer was chose what general historiographical trends prevailed at the time and how each speaker's lectures were related to scholarly currents within the profession On another level Noggle discusses just what the lecturers said about southern history and how they contributed to qualified refuted or revised existing conceptions about southern history The Fleming Lectures 1937 1990 is therefore both a history of the lecture series and an And There Was Light Jon Meacham, 2023-10-17 NEW YORK TIMES analysis of the history contained in the lectures BESTSELLER Pulitzer Prize winning biographer Jon Meacham chronicles the life of Abraham Lincoln charting how and why he confronted secession threats to democracy and the tragedy of slavery to expand the possibilities of America Meacham has given us the Lincoln for our time Henry Louis Gates Jr Winner of the Gilder Lehrman Lincoln Prize Longlisted for the Biographers International Plutarch Award One of the Best Books of the Year The Christian Science Monitor Kirkus Reviews A president who governed a divided country has much to teach us in a twenty first century moment of polarization and political crisis Hated and hailed excoriated and revered Abraham Lincoln was at the pinnacle of American power when implacable secessionists gave no quarter in a clash of visions bound up with money race identity and faith In him we can see the possibilities of the presidency as well as its limitations At once familiar and elusive Lincoln tends to be seen as the greatest of American presidents a remote icon or as a politician driven more by calculation than by conviction This illuminating new portrait gives us a very human Lincoln an imperfect man whose moral antislavery commitment essential to the story of justice in America began as he grew up in an antislavery Baptist community who insisted that slavery was a moral evil and who sought as he put it to do right as God gave him to see the right This book tells the story of Lincoln from his birth on the Kentucky frontier in 1809 to his leadership during the Civil War to his tragic assassination in 1865 his rise his self education his loves his bouts of depression his political failures his deepening faith and his persistent conviction that slavery must end In a nation shaped by the courage of the enslaved of the era and by the brave witness of Black Americans Lincoln's story illustrates the ways and means of politics in a democracy the roots and durability of racism and the capacity of conscience to **Biennial Report** Louisiana State University and Agricultural and Mechanical College,1924 shape events Dixie Bohemia John Shelton Reed, 2012-09-17 In the years following World War I the New Orleans French Quarter attracted artists and writers with its low rents faded charm and colorful street life By the 1920s Jackson Square had become the center of a vibrant if short lived bohemia A young William Faulkner and his roommate William Spratling an artist who taught at Tulane University resided among the artful and crafty ones of the French Quarter In Dixie Bohemia John Shelton Reed introduces Faulkner's circle of friends ranging from the distinguished Sherwood Anderson to a gender bending Mardi Gras costume designer and brings to life the people and places of New Orleans in the Jazz Age Reed begins with Faulkner and

Spratling's self published homage to their fellow bohemians Sherwood Anderson and Other Famous Creoles The book contained 43 sketches of New Orleans artists by Spratling with captions and a short introduction by Faulkner The title served as a rather obscure joke Sherwood was not a Creole and neither were most of the people featured But with Reed s commentary these profiles serve as an entry into the world of artists and writers that dined on Decatur Street attended masked balls and blatantly ignored the Prohibition Act These men and women also helped to establish New Orleans institutions such as the Double Dealer literary magazine the Arts and Crafts Club and Le Petit Theatre But unlike most bohemias the one in New Orleans existed as a whites only affair Though some of the bohemians were relatively progressive and many employed African American material in their own work few of them knew or cared about what was going on across town among the city's black intellectuals and artists The positive developments from this French Quarter renaissance however attracted attention and visitors inspiring the historic preservation and commercial revitalization that turned the area into a tourist destination Predictably this gentrification drove out many of the working artists and writers who had helped revive the area As Reed points out one resident who identified herself as an artist on the 1920 federal census gave her occupation in 1930 as saleslady real estate reflecting the decline of an active artistic class A charming and insightful glimpse into an era Dixie Bohemia describes the writers artists poseurs and hangers on in the New Orleans art scene of the 1920s and illuminates how this dazzling world faded as guickly as it began Weary of War Joe A. Mobley, 2008-02-28 Providing a fresh look at a crucial aspect of the American Civil War this new study explores the day to day life of people in the Confederate States of America as they struggled to cope with a crisis that spared no one military or civilian Mobley touches on the experiences of everyone on the home front white and black male and female rich and poor young and old native and foreign born He looks at health agriculture industry transportation refugees city life religion education culture families personal relationships and public welfare In so doing he offers his perspective on how much the will of the people contributed to the final defeat of the Southern cause Although no single experience was common to all Southerners a great many suffered poverty dislocation and heartbreak For African Americans however the war brought liberation from slavery and the promise of a new life White women too saw their lives transformed as wartime challenges gave them new responsibilities and experiences Mobley explains how the Confederate military draft heavy taxes and restrictions on personal freedoms led to widespread dissatisfaction and cries for peace among Southern folk He describes the Confederacy as a region of divided loyalties where pro Union and pro Confederate neighbors sometimes clashed violently This readable one volume account of life behind the lines will prove particularly useful for students of the conflict The Lost Lectures of C. Vann Woodward Comer Vann Woodward, 2020 The Lost Lectures of C Vann Woodward focuses on lectures Woodward delivered in the mid twentieth century that reflect his life long interest in exploring the contours and limits of liberalism during key moments of great change in the South **Indians, Settlers & Slaves in a Frontier Exchange Economy**

University of California Union Catalog of Monographs Cataloged by Daniel Henry Usner, 1992 Southern society the Nine Campuses from 1963 Through 1967: Authors & titles University of California (System). Institute of Library Research, University of California, Berkeley, 1972 Shapers of Southern History John B. Boles, 2004 This volume gathers personal recollections by fifteen eminent historians of the American South Coming from distinctive backgrounds traveling diverse career paths and practicing different kinds of history the contributors exemplify the field s richness on many levels As they reflect on why they joined the profession and chose their particular research specialties these historians write eloquently of family and upbringing teachers and mentors defining events and serendipitous opportunities. The struggle for civil rights was the defining experience for several contributors Peter H Wood remembers how black fans of the St Louis Cardinals erupted in applause for the Dodgers Jackie Robinson I realized for the first time writes Wood that there must be something even bigger than hometown loyalties dividing Americans Gender equality is another frequent concern in the essays Anne Firor Scott tells of her advisor s ridicule when childbirth twice delayed Scott s dissertation With great effort I managed to write two chapters but Professor Handlin was moved to inquire whether I planned to have a baby every chapter Yet another prominent theme is the reconciliation of the professional and the personal as when Bill C Malone traces his scholarly interests back to the memories of growing up poor on an East Texas cotton farm and finding escape and diversion in the sounds of hillbilly music Always candid and often witty each essay is a road map through the intellectual terrain of The Dunning School John David Smith, J. southern history as practiced during the last half of the twentieth century Vincent Lowery, 2013-11-15 From the late nineteenth century until World War I a group of Columbia University students gathered under the mentorship of the renowned historian William Archibald Dunning 1857 1922 Known as the Dunning School these students wrote the first generation of state studies on the Reconstruction volumes that generally sympathized with white southerners interpreted radical Reconstruction as a mean spirited usurpation of federal power and cast the Republican Party as a coalition of carpetbaggers freedmen scalawags and former Unionists Edited by the award winning historian John David Smith and J Vincent Lowery The Dunning School focuses on this controversial group of historians and its scholarly output Despite their methodological limitations and racial bias the Dunning historians writings prefigured the sources and questions that later historians of the Reconstruction would utilize and address Many of their pioneering dissertations remain important to ongoing debates on the broad meaning of the Civil War and Reconstruction and the evolution of American historical scholarship This groundbreaking collection of original essays offers a fair and critical assessment of the Dunning School that focuses on the group's purpose the strengths and weaknesses of its constituents and its legacy Squaring the past with the present this important book also explores the evolution of historical interpretations over time and illuminates the ways in which contemporary political racial and social questions shape historical analyses
