Power and Control in the Imperial Valley Benny J Andrés, 2014-11-22 Power and Control in the Imperial Valley examines the evolution of irrigated farming in the Imperial Mexicali Valley an arid desert straddling the California Baja California border Bisected by the international boundary line the valley drew American investors determined to harness the nearby Colorado River to irrigate a million acres on both sides of the border The conquest of the environment was a central theme in the history of the valley Colonization in the valley began with the construction of a sixty mile aqueduct from the Colorado River in California through Mexico Initially Mexico held authority over water delivery until settlers persuaded Congress to construct the All American Canal Control over land and water formed the basis of commercial agriculture and in turn enabled growers to use the state to procure inexpensive plentiful immigrant workers **Multitribal Indians In Search of No Man's Land** Carla Toney, 2022-12-12 During the American westward expansion Chickamaugans originally Cherokees prioritized resistance to the U S government and Euro American invaders They signed treaties with Great Britain and Spain Overlooked by scholars it was the diplomatic savvy of Chickamaugan women and the support of their numerous allies British loyalists free persons of color former slaves and Native Americans from other nations that made it possible for Chickamaugan resistance to last from 1775 to 1794 Carla Toney proves that after the collapse of their resistance many chose migration not as individuals but in migration clusters She clearly elucidates the feudal patterns brought to the United States the cultural fluidity of Indigenous nations and migration as a form of resistance Water and the West Norris Hundley, 2009-05-15 Back in print for the first time in over ten years this classic account of the numerous struggles national state and local that have occurred over western American water rights since the late 1800s is thoroughly expanded and updated to trace the continuing battles raging over the West s most valuable and contentious resource Thirst for Growth Robert Gottlieb, Margaret FitzSimmons, 2022-05-10 An overview of the key issues of public accountability and water policy innovation that confront urban and agricultural water agencies throughout the country notably in California where the prospects for future water development have become especially problematic Focusing on six agencies in the Southern California region they offer a series of case studies analyzing the issues of water quality including groundwater contamination and disinfection by products reallocation and transfer of existing supplies and management programs based on pricing changes the conjunctive use of surface and groundwater supplies and increased storage capacity aimed at greater efficiencies in stretching those existing supplies *History* Adam Hart-Davis, 2012-03-20 Homo sapiens have remained the same species largely unchanged in genetic makeup and anatomy since the Cro Magnon era By contrast the cultural social and technological changes since then have been nothing less than extraordinary At the core of this development is the ability of humans to store and transmit knowledge so that each new generation stands upon the shoulders of its predecessors This ability to use what has gone before is what sets humans apart Telling our story from prehistory to the present day DK s

destructive conflicts in European history      After the Nation Pedro Garcia-Caro, 2014-07-07 After the Nation proposes a series of groundbreaking new approaches to novels essays and short stories by Carlos Fuentes and Thomas Pynchon within the framework of a hemispheric American studies Garc a Caro offers a pioneering comparativist approach to the contemporary American and Mexican literary canons and their underlying nationalist encodement through the study of a wide range of texts by Pynchon and Fuentes which question and historicize in different ways the processes of national definition and myth making deployed in the drawing of literary borders After the Nation looks at these literary narratives as postnational satires that aim to unravel and denounce the combined hegemonic processes of modernity and nationalism while they start to contemplate the ensuing postnational constellations These are texts that playfully challenge the temporal and spatial designs of national themes while they point to and debase holy borders international borders as well as the internal lines where narratives of nation are embodied and consecrated StartFragment      Prototypes for Modelers Charles M. O'Herin, 2006      Library of the Bishop of Vermont Arthur Crawshay Alliston Hall, 1898      *History Year by Year* DK, 2024-03-05 The entire course of history is revisited in this unique and unforgettable visual guide The most memorable moments and significant events of each year are charted in a definitive timeline that runs throughout the book From the ancient origins of our earliest African ancestors right up to our modern world today Timelines of History includes a diverse range of people cultures and countries Ideas inventions and innovations come together to provide a truly global view of history Dramatic photography eye catching maps and supporting graphics bring history to life as never before The instantly accessible multi layered timeline enables you to move effortlessly through the ages This essential reference strikes a balance between being completely comprehensive but also ideal for browsing thanks to the organized structure chronological order and bitesize information This celebratory compendium makes an outstanding addition to any family library enabling you to dip into the past any time you like      **Politics, Conflict, and Movements in First-Century Palestine** Richard A. Horsley, 2023-09-28 This volume brings together groundbreaking essays that laid the foundations of several of Horsley s later works The initial aims of these essays were first to ferret out evidence from our sources primarily from the histories of Josephus evidence for the lives of ordinary people living in Judean and Galilean villages A second purpose was to explore as precisely as possible the fundamental conflictual division between the Roman Herodian and high priestly rulers in Palestine and the Judean and Galilean villagers they ruled A third purpose was to explore more particularly how the popular and scribal opposition to the rulers was manifested in a remarkable diversity of movements and their leaders And the fourth purpose entailed in the first two was to wriggle out from under some of the controlling constructs of New Testament biblical studies that had been hiding the considerable complexity of the historical context This was necessary even to begin to discern more precisely the fundamental political economic religious conflict between the rulers and the villagers manifested in a diversity of social movements attested in the sources      *The Palatine Family and the Thirty Years' War* Thomas

Pert,2023-06-01 The Palatine Family and the Thirty Years War examines the experience of exiled royal and noble dynasties during the early modern period through a study of the rulers of the Electorate of the Palatinate during the Thirty Years War 1618 1648 By drawing on a wide range of archival source materials ranging from financial records printed manifestos and considerable quantities of diplomatic and personal correspondence it investigates the resources available to the exiled Palatine Family as well as their attempts to recover the lands and titles lost by Elector Frederick V the son in law of King James VI and I of England and Scotland in the opening stages of the Thirty Years War This work focuses on the years between Frederick s death in 1632 and the partial restoration of his son Charles Louis under the Peace of Westphalia in 1648 Although the Palatine Question remained one of the most divisive and important issues throughout the entire Thirty Years War the years 1632 1648 have been greatly overlooked in previous examinations of the Palatine Family s exile By considering the experiences of exiled elites in early modern Europe such as the relationship between the Palatine Family and the Stuart Dynasty this work will reveal the influence of dynastic and familial obligations on the high politics of the period as well as the importance of conspicuous display and diplomatic recognition for exiled regimes in seventeenth century Europe It will demonstrate that that dispossessed rulers and houses were not automatically rendered politically insignificant after losing their lands and titles and could actually remain an important player on the geo political stage of early modern Europe
