## **Fiscal Policy Stabilization And Growth In Developing Countries:**

*Fiscal Policy, Stabilization, and Growth in Developing Countries* Mr. Mario I. Bléjer, Mr. Ke-young Chu, 1989-06-15 Edited by Mario I. Bléjer and Ke-young Chu this book investigates linkages among components of the public sector as well as between macro and micro aspects of fiscal policy in developing countries It presents 13 papers prepared by economists of the IMF's Fiscal Affairs Department **Fiscal Policy, Stabilization, and Growth** Guillermo E. Perry, Luis Servén, Rodrigo Suescún, 2007-10-19

Fiscal policy in Latin America has been guided primarily by short term liquidity targets whose observance was taken as the main exponent of fiscal prudence with attention focused almost exclusively on the levels of public debt and the cash deficit Very little attention was paid to the effects of fiscal policy on growth and on macroeconomic volatility over the cycle Important issues such as the composition of public expenditures and its effects on growth the ability of fiscal policy to stabilize cyclical fluctuations and the currency composition of public debt were largely neglected As a result fiscal policy has often amplified cyclical volatility and dampened growth *Fiscal Policy Stabilization and Growth* explores the conduct of fiscal policy in Latin America and its consequences for macroeconomic stability and long term growth In particular the book highlights the procyclical and anti investment biases embedded in the region's fiscal policies explores their causes and macroeconomic consequences and assesses their possible solutions Fiscal Issues in Adjustment in

Developing Countries Jaime de Melo, Riccardo Faini, 1993-07-15 The book deals with aspects of the recent fiscal crisis in developing countries Macro aspects cover theoretical underpinning of fiscal policy the size of the required adjustment and the link between internal and external transfers Micro aspects cover the relation between private and public investment the experience of tax and expenditure reforms and the impact of fiscal adjustment on the poor **Economic Policy and**

Fiscal Policy In Developing Countries Roberto Perotti, 2007 Abstract This paper surveys fiscal policy in developing countries from the point of view of long run growth The first section reviews existing methodologies to estimate the effects of fiscal policy shocks and of systematic fiscal policy with time series or with cross sectional methods and their applicability to developing countries The second section surveys optimal fiscal policy in developing countries by considering the role of the intertemporal government budget and sustainability and solvency It also reviews the fuzzy debate on fiscal space and macroeconomic space And the usefulness or lack thereof of these terms for policy analysis The third section asks what theory tells us about the optimal cyclical behavior of fiscal policy in developing countries It shows that it very much depends on the assumptions about the interactions between credit market imperfections at the individual firms or government level and on

the supply of external funds to the country Different sets of assumptions lead to different implications about optimal cyclical behavior The available evidence on the cyclical behavior of fiscal policy and possible reasons for the observed prevalence of a procyclical behavior in developing countries is also reviewed If one agrees that fiscal policy is indeed less countercyclical than we think is optimal the issue is how to correct the problem One obvious question is why government do not self insure i e why they do not accumulate assets in upturns and decumulate them in downturns This leads to the analysis of fiscal rules and stabilization funds in the fourth section The last section concludes with what the author considers important research and policy questions in each part

**Fiscal Policy in Open Developing Economies** Mr.Vito Tanzi,1990-06-15 Based on papers presented at the 44th Congress of the international Institute of Public Finance this book edited by Vito Tanzi deals with public finance and macroeconomic policy in open developing economies with case studies of Chile Mexico Turkey Korea and the Arab oil exporting countries

**Inequality, Inclusive Growth, and Fiscal Policy in Asia** Donghyun Park,Sang-Hyop Lee,Minsoo Lee,2015-04-17 Developing Asia s sustained rapid growth has improved general living standards and lifted hundreds of millions of Asians out of poverty within a generation Yet the region now finds itself confronting rising inequality Countries where inequality has worsened over the past 2 decades collectively account for over 80% of Asia s population As a result governments across the region have begun to accord a higher priority to promoting more inclusive growth The international experience especially the experience of the advanced economies suggests that fiscal policy can make a potent contribution to reducing inequality This

book systematically explores the relationship between both sides of fiscal policy public spending as well as taxes and other fiscal revenues and inequality in Asia at great depths On the basis of the analysis the book sets forth a number of concrete options for rendering fiscal policy a more effective tool for more inclusive growth that benefits all Asians Inequality Inclusive Growth and Fiscal Policy in Asia is written in response to an issue of growing demand in most Asian countries and it comes at a time when Asian governments are also beginning to use fiscal policy to bridge the glaring disparities between the rich and the poor of the region As such the book will be a highly valuable reference for researchers policy makers and students as well

**1992 World Economic and Financial Surveys** International Monetary Fund,1992-01-01 This paper reviews major issues and developments in the trade area and outlines the challenges governments face as they seek to liberalize trade in the Uruguay Round of trade negotiations and address new trade issues In industrial countries the reorientation of policies was most apparent in steps taken to liberalize financial markets and foreign direct investment privatize public enterprises and deregulate services particularly in the transportation and communication sectors Among developing countries a growing number recognized the merits of outward market oriented policies and took steps to liberalize their trade regimes and open their economies to international competition By and large the increased focus on market principles in industrial countries did not carry over to trade and industrial policies or most notable to the agricultural sector Despite strong growth performance in 1983 1989 little progress was made in rolling back the protective barriers that had risen during the preceding recessionary period protection persists in agriculture and declining sectors and has spread to newer high tech areas
