**Zora Neale Hurston 1891-1960** is one of 20th century America's foremost fiction and folklore writers. One of the most important authors of the Harlem Renaissance and one of the first black anthropologists, she received little recognition during her lifetime. She was criticized by some of her contemporaries, including Richard Wright and Ralph Ellison, and her works were largely neglected until the early 1970s. Her works are now frequently taught in literature courses and are widely admired for their style and substance. Her anthropological study *Mules and Men* (1935) is a pioneering examination of Voodoo and related folklore. As a novelist, she is best known as the author of *Jonah's Gourd Vine* (1934) and *Their Eyes Were Watching God* (1937). In addition, she was a prolific journalist who contributed to the most popular magazines and newspapers of her time. Though long neglected, Hurston has become firmly established in the literary canon, and scores of books and articles have been written about her. This reference book is a comprehensive guide to the large body of work written about her in the last 75 years. Included are annotated entries for books, dissertations, and theses written about Hurston's life and literary career. **Fish Tales and Other Lies** Stephen Tate, 2004. Steve Tate has been soaking worms since he was old enough to stretch the truth. His collection of fishing stories from around the world will entertain fishermen and people who have never been near the water.

**The Last Fish Tale** Mark Kurlansky, 2008-06-03. The bestselling author of *Cod*, *Salt*, and *The Big Oyster* has enthralled readers with his incisive blend of culinary, cultural, and social history. Now, in his most colorful, personal, and important book to date, Mark Kurlansky turns his attention to a disappearing way of life: fishing. How it has thrived in and defined one particular town for centuries and what its imperiled future means for the rest of the world. The culture of fishing is vanishing, and consequently, coastal societies are changing in unprecedented ways. The once thriving fishing communities of Rockport, Nantucket, Newport, Mystic, and many other coastal towns from Newfoundland to Florida and along the West Coast have been forced to abandon their roots and become tourist destinations instead. Gloucester, Massachusetts, however, is a rare survivor. The livelihood of America's oldest fishing port has always been rooted in the life and culture of commercial fishing. The Gloucester story began in 1004 with the arrival of the Vikings. Six hundred years later, Captain John Smith championed the bountiful waters off the coast of Gloucester, convincing new settlers to come to the area and start a new way of life. Gloucester became the most productive fishery in New England, its people prospering from the

seemingly endless supply of cod and halibut With the introduction of a faster fishing boat the schooner the industry flourished In the twentieth century the arrival of Portuguese Jews and Sicilians turned the bustling center into a melting pot Artists and writers such as Edward Hopper Winslow Homer and T S Eliot came to the fishing town and found inspiration But the vital life of Gloucester was being threatened Ominous signs were seen with the development of engine powered net dragging vessels in the first decade of the twentieth century As early as 1911 Gloucester fishermen warned of the dire consequences of this new technology Since then these vessels have become even larger and more efficient and today the resulting overfishing along with climate change and pollution portends the extinction of the very species that fishermen depend on to survive and of a way of life special not only to Gloucester but to coastal cities all over the world And yet according to Kurlansky it doesn't have to be this way Scientists government regulators and fishermen are trying to work out complex formulas to keep fishing alive Engagingly written and filled with rich history delicious anecdotes colorful characters and local recipes *The Last Fish Tale* is Kurlansky's most urgent story a heartfelt tribute to what he calls socio diversity and a lament that each culture each way of life that vanishes diminishes the richness of civilization Death and Oil Bradford Matsen, 2011 Documents the events of the 1988 oil rig disaster on the North Sea drawing on interviews with survivors and family members the Occidental Petroleum Corp and rescue workers to trace the gas leak that triggered the explosion and the devastation it continues to inflict *Rapture of the Deep* Ray Troll, 2004 In addition to celebrating the extraordinary fish artist this beautiful book also pays tribute to the world of zoological and anthropological creatures he renders with a blend of biological accuracy and surreal offbeat humor **The Gentleman's Magazine**, 1882 *Legends and Superstitions of the Sea and of Sailors in All Lands and at All Times* Fletcher S. Bassett, 1885 **Legends and Superstitions of the Sea and of Sailors** Fletcher S. Bassett (Lieutenant U. S. Navy), 1885 *Fairy Tales and Other Stories* Hans Christian Andersen, 1914 *Fishing Scraps*, 1883 **The British National Bibliography** Arthur James Wells, 1995 **The Publishers Weekly**, 1919 Listening to Crickets Candice Ransom, 2011-01-01 From the time she was a very young girl Rachel Carson felt a bond with nature Growing up in Pennsylvania she spent hours exploring meadows and woods dreaming of seeing the ocean As Rachel grew older she combined her gift for writing with her love of nature producing award winning books about the sea But her best known achievement was the publication of *Silent Spring* an account of the dangerous effects of pesticides on plants and animals With *Silent Spring* Rachel helped create a movement to ban these harmful chemicals Her findings helped to assure that future generations would be able to dream about the ocean and listen to crickets
