Fisheries Dependent Regions:

Fisheries Dependent Regions David Symes, 2000-01-28 Fisheries dependent regions FDRs serve as a crucial barometer for measuring the economic and social impacts of fisheries policy. While some more favoured regions benefit from the modernisation and centralisation of fishing activity, many fishing dependent communities in remoter FDRs are drawn into a downward spiral of prosperity provoked by reduced levels of catch and increasing regulation. The uneven pattern of development poses particular problems for policy makers across the spectrum of fisheries management: economic development and social welfare, which are addressed in Fisheries Dependent Regions through expert accounts of the current situation in Europe. By examining these issues and exploring ways of improving our understanding of the specific dynamics of FDRs, the book makes a vital and unique contribution to the ongoing debate on reform of fisheries policy. *Inshore*

Fisheries Management David Symes, Jeremy Phillipson, 2013-06-29 Despite their importance in terms of employment and income generation, inshore fisheries have been a neglected area of study. The review of the common fisheries policy, especially in the light of the need to re-examine the derogation which reserves access to the inshore zone to coastal state vessels, provides an opportunity to redress the balance. With contributions from leading authorities on fisheries management, the book takes an in-depth look at seven European countries, examining the basis for the definition of inshore fisheries, evaluating their status and describing the salient characteristics of their management. The national studies form the basis for cross-cultural analyses of the social organisation, cultural norms, economic objectives and institutional structures of inshore fisheries in Europe. Finally, a number of key issues relating to the future of inshore fisheries management in a more integrated approach are examined. Overall, the volume reaffirms the invaluable role played by inshore fisheries in the local and regional economies of Europe's complex coastline. **Structural Change in Fisheries Dealing with the Human Dimension**

OECD, 2007-09-14 This conference proceedings analyses the social issues and policy challenges that arise from fisheries adjustment policies and how OECD member countries are meeting those challenges. *Use of Property Rights in Fisheries Management* Ross Shotton, 2000-01-01 The session was closed with papers that provided a prognosis on the future development of property rights in fisheries management. Thus the conference papers addressed the theory and application of property. *Opinion on the Common Fisheries Policy - Safeguarding of Fisheries-dependent Regions*, 1997 **Fisheries**

Participation in Fisheries Governance Tim S. Gray, 2006-06-30 The chapters focus on three main themes first what value does stakeholder participation bring to fisheries governance Its advocates claim that participation improves the quality of decision making resolves conflicts and increases compliance with regulations On the other hand critics argue that participation is often unnecessary ineffective costly time consuming and cosmetic The second theme is the relationship between the participatory mode and the current switch from single species based fisheries management to the ecosystem based approach EBA In what way does widening the extent of public participation contribute to the EBA Third is the vexed question of the relationship between fishers experiential knowledge and fisheries science how far does fishers knowledge improve our understanding of the marine environment The central message of the book is that while stakeholder participation is beneficial it carries with it responsibilities as well as rights all stakeholders have a public duty to act as stewards for the marine environment **Rural Geography** Michael Woods, 2005-01-05 An introduction to contemporary rural societies and economies in the developed world Rural Geography examines the social and economic processes at work in the contemporary countryside **Programmatic Supplemental EIS for Alaska Groundfish Fisheries Implemented**
