**The Ink of the Scholars** Bachir Diagne, 2016-12-29 What are the issues discussed today by African philosophers Four important topics are identified here as important objects of philosophical reflection on the African continent One is the question of ontology in relation to African religions and aesthetics Another is the question of time and in

particular of prospective thinking and development A third issue is the task of reconstructing the intellectual history of the continent through the examination of the question of orality but also by taking into account the often neglected tradition of written erudition in Islamic centres of learning Timbuktu is certainly the most important and most famous of such intellectual centres The fourth question concerns political philosophy the concept of African socialisms is revisited and the march that led to the adoption of the African Charter of Human and Peoples Rights is examined All these important issues are also fundamental to understanding the question of African languages and translation *Marginal to Mainstream* Toby

Norris,2023-10-30 *Marginal to Mainstream* French Modernism Between the Wars traces the near miraculous progress of modern art in France in the first half of the twentieth century Before World War I it was a marginal phenomenon largely absent from the museums and bought and sold by a handful of second string dealers by the early 1950s it had been canonized as the representative form of the epoch The triumph of modernism and the simultaneous establishment of Paris as the crucible of modern art were not the products of a coherent policy but of a stumbling and spasmodic process France was the leading democratic nation in Europe and it wanted its art to reinforce its prestige on the international stage but no one could agree how best to achieve this Toby Norris shows how amidst the policy squabbles and in fighting of representative government France fumbled its way toward an art of democracy and in the process helped install modern art as the house style of democratic capitalism Accidental Branding David Vinjamuri,2008-03-31 Every year thousands of new business are started by people with no knowledge of modern marketing at all and some of them survive and thrive *Accidental Branding* tells the story of seven accidental brands and how their founders beat bigger competitors by breaking the standard rules of marketing Successful brands like Burt s Bees J Peterman and Clif Bar reveal how doing things differently can lead to big time success If you re an entrepreneur or a marketer this guide will show you how to build stronger brands
