*The Novel-Machine* Walter Kendrick, 2019-12-01 Originally published in 1980 The first section of The Novel Machine consists of five short chapters that rewrite Autobiography as an undisguised theory of realistic fiction exploring its paradoxes while placing it in the context of mid Victorian criticism Chapters 6 and 7 survey the manifestations in Trollope s novels of what his theory sets down as the primary difference of realism its way of telling its readers how to read Chapter 8 is a close reading of He Knew He Was Right a neglected novel that in Kendrick s estimation deserves to stand in much higher critical esteem than it does Kendrick shows how deeply woven into the texture of Trollope s writing the rhetoric of realism is Kendrick s reading is a departure from the usual method of criticizing Trollope surveying the whole of his work a novel at a time saying a little about every novel and always too little about each
