

Hardest Card to Write

Team Response

Art/ID

Pak-Man Yesterday at 11:53 PM

English is a tricky thing. It took me embarrassingly long to realize that Tarnax doesn't count the number of locations (It would almost always be 3) and shuffle that many rocks into the loser's deck, but rather shuffles one rock into the deck of the loser in each location. (And please correct me if I'm wrong.)

My question: What card's ability was the hardest to translate into text that could easily be understood in the space given?

Why did the team decide to use the first person when creating the card text. It was jarring at first to read what the card did because other cards aren't worded in this way even when they refer to themselves.

No version of the card we wrote in the third person fit in three lines—that was a significant part of what made it the most onerous. I wrote and mocked at least 50 versions of the card. (edited)

Modeling and Simulation in Python Jason M. Kinser, 2022-05-16 The use of Python as a powerful computational tool is expanding with great strides Python is a language which is easy to use and the libraries of tools provides it with efficient versatility As the tools continue to expand users can create insightful models and simulations While the tools offer an easy method to create a pipeline such constructions are not guaranteed to provide correct results A lot of things can go wrong when building a simulation deviously so Users need to understand more than just how to build a process pipeline Modeling and Simulation in Python introduces fundamental computational modeling techniques that are used in a variety of science and engineering disciplines It emphasizes algorithmic thinking skills using different computational environments and includes a number of interesting examples including Shakespeare movie databases virus spread and Chess Key Features Several theories and applications are provided

each with working Python scripts All Python functions written for this book are archived on GitHub Readers do not have to be Python experts but a working knowledge of the language is required Students who want to know more about the foundations of modeling and simulation will find this an educational and foundational resource *Intentional Play* Sheila Peters,2014-12-05 *Intentional Play* embraces a specific way of processing communication dynamics through a gaming tool and it will help you communicate better with colleagues friends and even strangers Framed around basic communication concepts the game shows you how youre communicating what youre doing why youre doing itand most importantlyhow to make better choices to improve outcomes for yourself and others Annie Werner a corporate trainer says the book places the reader into real world scenarios that force an individual to critically think How would I honestly handle that situation Am I effectively communicating Whats great is that the reader realizes I could be better Some people love the game but others are afraid of it or avoid itbut they do so at their own peril as it challenges participants to navigate complicated human dynamics and preserve communication integrity Youre not just thrown into the game Youll learn the underlying concepts that will help you master it card by card From there its up to you to apply what youve learned to communicate better and strengthen relationships by engaging in *Intentional Play* in everyday life 2/1 Game Force System Neil H. Timm PhD,2020-10-27 The 2 1 Game Force System is an improvement over the Standard American System that has been in effect and played by bridge players for many years The advantage of the 2 1 System is that it allows the partnership to know that game is possible with only an initial single bid This book is about bridge that incorporates conventions that allow partnership s to reach game or slam In this regard I have incorporated modern methods for hand evaluation developed by Marty Bergen called the ADJUST 3 Method and Zar points new bidding conventions like SARS Shape Asking Relays after Stayman and Quest transfers and an overview of Bridge Rules and Laws that I hope will improve your approach to the bidding structure you may use today Also included is the bidding structure are Bergen Reverse Bergen and Combined Bergen major suit raises inverted minor suit raises with crisscross and flip flop cue bidding modified scroll bids and many more methods not used in Standard American or Precision The bidding conventions in the previous editions have been enhanced corrected expanded upon and reorganized with new ones added Given the release of the new ACBL convention charts the chapter with the modifications to Fantunes in my prior edition is no longer needed Fantunes may now be played using the Open Convention Chart The Mid chart no longer exists Hence I have deleted the chapter and replaced it with a new chapter on Bridge Tips and Agreements New conventions include a Modern Splinter Bidding Convention the Zirconia Convention Unusual 2 level bids Jump Transfer bids a new Two Way Check back Convention 1430 Modified Jacoby 2NT additional Bridge Rules with more examples Four Way Transfers with the range ask bid and more are included in this edition Also included is an update of the Minorwood and the Roman Keycard Blackwood Conventions Two Way New Minor Forcing with modified Wolff Signoff bids and new bidding sequences using Mini Weak Notrump The topic of Offense to Defense Ratio ODR is included in this revision as well as expanded bidding sequences
