From the Land of Shadows Khatharya Um, 2015-10-16 In a century of mass atrocities the Khmer Rouge regime marked Cambodia with one of the most extreme genocidal instances in human history What emerged in the aftermath of the regime s collapse in 1979 was a nation fractured by death and dispersal It is

estimated that nearly one fourth of the country's population perished from hard labor disease starvation and executions. Another half million Cambodians fled their ancestral homeland with over one hundred thousand finding refuge in America. From the Land of Shadows surveys the Cambodian diaspora and the struggle to understand and make meaning of this historical trauma. Drawing on more than 250 interviews with survivors across the United States as well as in France and Cambodia, Khatharya Um places these accounts in conversation with studies of comparative revolutions, totalitarianism, transnationalism, and memory works to illuminate the pathology of power as well as the impact of auto-genocide on individual and collective healing. Exploring the interstices of home and exile, forgetting and remembering, From the Land of Shadows follows the ways in which Cambodian individuals and communities seek to rebuild connections frayed by time, distance, and politics in the face of this injurious history.

Memory, Trauma, Asia Rahul K. Gairola, Sharanya Jayawickrama, 2021-01-28

The contributors to this volume re-think established insights of memory and trauma theory and enrich those studies with diverse Asian texts critically analyzing literary and cultural representations of Asia and its global diasporas. They broaden the scope of memory and trauma studies by examining how the East-West binary delimits horizons of trauma by excluding Asian texts. Are memory and trauma always reliable registers of the past that translate across cultures and nations? Are supposedly pan-human experiences of suffering disproportionately coloured by eurocentric structures of region, reason, race, or religion? How are Asian texts and cultural producers yet viewed through biased lenses? How might recent approaches and perspectives generated by Asian literary and cultural texts hold purchase in the 21st century? Critically meditating on such questions and whether existing concepts of memory and trauma accurately address the histories, present states, and futures of the non-Western world, this volume unites perspectives on both dominant and marginalized sites of the broader Asian continent. Contributors explore the complex intersections of literature, history, ethics, affect, and social justice across East, South, and Southeast Asia and on Asian diasporas in Australia and the USA. They draw on, yet diverge from, Orientalism and Area Studies given today's need for nuanced analytical methodologies in an era defined by the COVID-19 global pandemic. This book will be of great interest to students and scholars invested in memory and trauma studies, comparative Asian studies, diaspora and postcolonial studies, global studies, and social justice around contemporary identities and 20th and 21st century Asia.

The Barter Economy of the Khmer Rouge Labor Camps Scott Pribble, 2023-07-21

Pribble investigates the barter economies that developed in many of the labor camps established under the Khmer Rouge in Cambodia. When the Khmer Rouge abolished currency and markets in 1975, starving Cambodians created underground exchanges in labor camps throughout the country, bartering luxury items for food and other necessities while simultaneously undermining the regime's ideological goals of eliminating any traces of capitalism in Democratic Kampuchea. Pribble asserts three key points about the barter economy in the Khmer Rouge labor camps. First, the underground exchanges in Democratic Kampuchea provided food and medicine for desperate people subsisting under a totalitarian regime, saving the lives of countless Cambodians. Second, bartering was the

riskiest way to obtain food because it was dependent upon the discretion of two or more individuals from different social classes under the threat of violent punishment thereby altering the social dynamics of the camps Finally despite the regime's extreme efforts to eliminate foreign influence from the country and impose communist ideology on millions of citizens basic forms of market capitalism and a demand for superfluous luxury goods persisted in labor camps throughout the country A fascinating study of the human consequences of imposing rigid ideology that will be of particular interest to scholars and students of political history and Southeast Asian history The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
