The Spiritual Journey of a Coptic Christian Brain Surgeon: Views and Reflections Ramsis F. Ghaly MD, 2018-11-09 Deeper and deeper as the human spirit roams with fascination unto Divinity Never enough roaming This is my eleventh book of Christianity and the human brain As a neurosurgeon for thirty years I have found unlimited bonds between the Christian Divinity and the human brain My neurosurgical humanity eagerly desires to explore Divinity Since my childhood goes back decades and is deeply rooted I meditate with my Christian brain searching for common understanding of spirituality in humanity It is hard to describe this through each book and I find myself seeking more Divine clarifications My meditation is achieved thorough reading the Holy Bible with my neurosurgical human brain I try to peel my deep thoughts layer by layer as if I am dissecting the human brain in neurosurgery in actual life The book touches on many timely aspects of our human life with personal spiritual views and poems The book consists of Twelve major Sections and each section ranges from 8 to 23 chapters with total of 137 chapters The main sections include My Christian Dreams in Neurosurgery Monasticism in My Life Mothers and Children Angels Living Human Brains and Spirituality Jesus Love The Persecuted Christ and Christ Followers Royalty and Heavens with Jesus Last Hours in humanity Spiritual Reflections Views and Poems Law and the Spirit Sacred Medicine and Patients Testimonials As a Coptic Christian from Egypt I was raised in keeping up with strong Christian Orthodox practice in daily living Perhaps the strength of the book is incorporating Jesus the Almighty God in everything I do not only in daily living but also with my patients in Neurosurgery practice There is a dire need of such a book especially in an era where Christianity continued to be persecuted worldwide and denied in a daily basis as evidenced through public restraining of Lord Jesus Christ in our daily life The human brain and Neurosurgery are in Jesus God as Christ the Lord is in human brain and Neurosurgery I hope for the reader to find spiritual use of the book and a closer relationship to our Holy Trinity God the Father the Son and the Holy Spirit

Narrative and the Cultural Construction of Illness and Healing Cheryl Mattingly, Linda C. Garro, 2000 A valuable collection The essays in the volume are all fresh the result of recent work and the opening chapter by Garro and Mattingly places the current trend in narrative analysis in historical context explaining its diverse origins and constructs in a range of disciplines Shirley Lindenbaum author of *Kuru Sorcery* A good place to consult the narrative turn in medical anthropology Thick with the richness and diversity and stubborn resistance to interpretations of human stories of illness An anthropological antidote for too narrow a framing of the complex tangle of ways of being and ways of telling that make medicine a space of indelibly human experiences Arthur Kleinman author of *The Illness Narratives*

A Bomb in the Brain Steven J. Fishman, 1990-04

The Reader's Digest DeWitt Wallace, Lila Acheson Wallace, 1987

Doctors in the Making Suzanne Poirier, 2009 Recent surveys of medical students reveal stark conditions more than a quarter have experienced episodes of depression during their medical school and residency careers a figure much higher than that of the general population Compounded by long hours of intellectually challenging physically taxing and emotionally exhausting work medical school has been called one of the most harrowing experiences a student can encounter Plumbing the diaries memoirs and blogs of physicians in training Suzanne Poirier's *Doctors in the Making* illuminates not just the process by which students become doctors but also the physical emotional and spiritual consequences of the process Through close readings of these accounts Poirier draws attention to the complex nature of power in medicine the rewards and hazards of professional and interpersonal relationships in all aspects of physicians lives and the benefits to and threats from the vulnerability that medical students and residents experience Although most students emerge from medical education as well trained well prepared professionals few of them will claim that they survived the process unscathed The authors of these accounts document for better or for worse the ways in which they have been changed Based on their stories Poirier recommends that medical education should make room for the central importance of personal relationships the profound sense of isolation and powerlessness that can threaten the wellbeing of patients and physicians alike and the physical and moral vulnerability that are part of every physician's life
