*Jorge Luis Borges, Post-Analytic Philosophy, and Representation* Silvia G. Dapía, 2015-08-20 Making an important contribution to studies in Literature and Philosophy this book reads Jorge Luis Borges philosophically particularly in reference to his use of representation and reality Rather than attempting to subordinate Borges to a set of philosophical constructs to reduce Borges texts to mere exemplifications or illustrations of philosophical theories the book uses Borges's short stories to

demonstrate how philosophical questions related to representation develop out of literature and actually serve as precursors to the various strains of post analytic philosophy that later developed in the United States The volume discusses American post analytic philosophers Richard Rorty Hilary Putnam Donald Davidson Nelson Goodman and Arthur Danto as well as a wide ranging set of philosophical ideas including reflections on Keynes Hayek Schopenhauer and many others Chapters offer detailed readings of Borges texts extending from 1939 to 1983 locating where he thematizes issues of representation and pursuing the logic of Borges s text toward its philosophical implications without neglecting their literary value The book argues that Borges exploration of the relationship between representation and reality places him unmistakably in the position of a precursor to the post analytic philosophers Illuminating the role that language plays in the creation of reality and representation this volume makes significant contributions not only to Borges scholarship but also post structuralism post analytic studies of language semiotics comparative literature and Latin American literature *Our World* Herbert Sherman

*Our World Weekly* ,1925 **Displacing the Anxieties of Our World** Ildikó Limpár,2017-01-06 Monster studies dystopian literature and film studies have become central to research on the now proliferating works that give voice to culture specific anxieties This new development in scholarship reinforces the notion that the genres of fantasy and science fiction call for interpretations that see their spaces of imagination as reflections of reality not as spaces invented merely to escape the real world In this vein *Displacing the Anxieties of Our World* discusses fictive spaces of literature film and video gaming The eleven essays that follow the Introduction are grouped into four parts I Imagined Journeys through History

Gaming and Travel II Political Anxieties and Fear of Dominance III The Space of Fantastic Science and Scholarship and IV Spaces Natural and Spaces Artificial The studies produce a dialogue among disciplinary fields that bridges the imagined space between sixteenth century utopia and twenty first century dystopia with analyses penetrating fictitious spaces beyond utopian and dystopian spheres This volume argues consequently that the space of imagination that conjures up versions of the world s frustrations also offers a virtual battleground and the possibility of triumph coming from a valuable gain of cognizance once we perceive the correspondence between spaces of the fantastic and those of the mundane Social Geography Series: Our world Frederick Kenneth Branom,1929 **Everything Is Miscellaneous** David
