Colonial America and the War for Independence US Army Military History Research Collection, Joyce L. Eakin, 1976

A summary & review of early american history , With Justice for All John K. Trammell,2023-09-22 Social history is only one kind of history Still it is exactly the type of history that disability demands to be told especially due to the universality of the disability experience Doris and Frieda Zames remind us that handicapism is the only ism we all will experience if we live long enough Although disability will always arguably be about physical differences of body mind intellect personality etc its universal nature means that it should logically be the king queen of identity politics while it has long been the pauper This story helps explain why that was and is today and what America s unique and sometimes unpleasant role in the story is This text attempts not just to represent the American experience with disability but the American experience The further we move away from 1990 and the passage of the ADA the less that demarcation seems to be distinct and dichotomous and the more America seems to be an abject case study of identity possibility in flux placed squarely at the intersection of the rational and irrational the qualitative and quantitative the old and new the individual and collective and at the nexus of classic liberalism and neomodernism In fact the ADA was reauthorized in 2008 an indication of the constructivist nature of disability policy This book is intended to be useful and informative whether as a classroom textbook or as a conversation starter on the coffee table It also uses the unique tools of the social historian to tell the story

Nelson,2000-01-30 There has been a dramatic resurgence of interest in early African American writing Since the accidental rediscovery and republication of Harriet Wilson s *Our Nig* in 1983 the works of dozens of 19th and early 20th century black writers have been recovered and reprinted There is now a significant revival of interest in the Harlem Renaissance of the 1920s and in the last decade alone several major assessments of 18th and 19th century African American literature have been published Early African American literature builds on a strong oral tradition of songs folktales and sermons Slave narratives began to appear during the late 18th and early 19th century and later writers began to engage a variety of themes in diverse genres A central objective of this reference book is to provide a wide ranging introduction to the first 200 years of African American literature Included are alphabetically arranged entries for 78 black writers active between 1745 and 1945 Among these writers are essayists novelists short story writers poets playwrights and

autobiographers Each entry is written by an expert contributor and provides a biography a discussion of major works and themes an overview of the author s critical reception and primary and secondary bibliographies The volume concludes with a selected general bibliography

Lyn H. Lofland,2019-04-23 The fortieth anniversary edition of a classic and prescient work on death and dying Much of today s literature on end of life issues overlooks the importance of 1970s social movements in shaping our understanding of death dying and the dead body This anniversary edition of Lyn Lofland s The Craft of Dying begins to repair this omission Lofland identifies critiques and theorizes 1970s death movements including the Death Acceptance Movement the Death with Dignity Movement and the Natural Death movement All these groups attempted to transform death into a positive experience anticipating much of today s death and dying activism Lofland turns a sociologist s eye on the era s increased interest in death considering among other things the components of the modern face of death and the craft of dying the construction of a dying role or identity by those who are dying and the constraints on their freedom to do this Lofland wrote just before the AIDS epidemic transformed the landscape of death and dying in the West many of the trends she identified became the building blocks of AIDS activism in the 1980s and 1990s The Craft of Dying will help readers understand contemporary death social movements historical relationships to questions of race class gender and sexuality and is a book that everyone interested in end of life politics should read

Homicide Justified Andrew T. Fede,2017-07-15 This

comparative study looks at the laws concerning the murder of slaves by their masters and at how these laws were implemented Andrew T Fede cites a wide range of cases across time place and circumstance to illuminate legal judicial and other complexities surrounding this regrettably common occurrence These laws had evolved to limit in different ways the masters rights to severely punish and even kill their slaves while protecting valuable enslaved people understood as property from wanton destruction by hirers overseers and poor whites who did not own slaves To explore the conflicts of masters rights with state and colonial laws Fede shows how slave homicide law evolved and was enforced not only in the United States but also in ancient Roman Visigoth Spanish Portuguese French and British jurisdictions His comparative approach reveals how legal reforms regarding slave homicide in antebellum times like past reforms dictated by emperors and kings were the products of changing perceptions of the interests of the public of the individual slave owners and of the slave owners families heirs and creditors Although some slave murders came to be regarded as capital offenses the laws consistently reinforced the second class status of slaves This influence Fede concludes flowed over into the application of law to free African Americans and would even make itself felt in the legal attitudes that underlay the Jim Crow era
