First Nations? Second Thoughts Tom Flanagan, 2019-10-17

Over the last thirty years Canadian policy on aboriginal issues has come to be dominated by an ideology that sees aboriginal peoples as nations entitled to specific rights Indians and Inuit now enjoy legal privileges that include the inherent right to self government collective property rights immunity from taxation hunting and fishing rights without legal limits and free housing education and medical care Underpinning these privileges is what Tom Flanagan describes as aboriginal orthodoxy the belief that prior residence in North America is an entitlement to special treatment Flanagan shows that this orthodoxy enriches a small elite of activists politicians administrators and well connected entrepreneurs while bringing further misery to the very people it is supposed to help Controversial and thought provoking **First Nations Second Thoughts** dissects the prevailing ideology that determines public policy towards Canada's aboriginal peoples Flanagan analyzes the developments of the last ten years showing how a conflict of visions has led to a stalemate in aboriginal policy making He concludes that aboriginal success will be achieved not as the result of public policy changes in government but through the actions of the people themselves

states are actively resisting in a multitude of ways While Indigenous peoples are often dismissed as marginal non state actors this book argues that far from insignificant global Indigenous politics is potentially forging major changes in the international system as the implementation of Indigenous peoples rights requires a complete re thinking and re ordering of sovereignty territoriality liberalism and human rights After thirty years of intense effort the transnational Indigenous rights movement achieved passage of the UN Declaration on the Rights of Indigenous Peoples in September 2007 This book asks Why did movement need to fight so hard to secure passage of a bare minimum standard on Indigenous rights Why is it that certain states are so threatened by an emerging international Indigenous rights regime How does the emerging Indigenous rights regime change the international status quo The questions are addressed by exploring how Indigenous politics at the global level compels a new direction of thought in IR by challenging some of its fundamental tenets It is argued that global Indigenous politics is a perspective of IR that with the recognition of Indigenous peoples collective rights to land and self determination complicates the structure of international politics in new and important ways challenging both Westphalian notions of state sovereignty and the neo liberal foundations of states and the international human rights consensus Qualitative case studies of Canadian and New Zealand Indigenous rights based on original field research analyse both the potential and the limits of these challenges This work will be of interest to graduates and scholars in international relations Indigenous studies international organizations IR theory and social movements

Towards the Dignity of Difference? Mojtaba Mahdavi, 2016-02-24 The rise of popular social movements throughout the Middle East North Africa Europe and North America in 2011 challenged two hegemonic discourses of the post Cold War era Francis Fukuyama's *The End of History* and Samuel Huntington's *The Clash of Civilizations* The quest for genuine democracy and social justice and the backlash against the neoliberal order is a common theme in the global mass protests in the West and the East This is no less than a discursive paradigm shift a new beginning to the history a move towards new alternatives to the status quo This book is about difference and dialogue it embraces *The Dignity of Difference* and promotes dialogue However it also demonstrates the limits of dialogue as a useful and universal approach for resolving conflicts particularly in cases involving asymmetric and unequal power relations The distinguished group of authors suggests in this volume that there is a third way of addressing global tensions one that rejects the extremes of both universalism and particularism This third way is a radical call for an epistemic shift in our understanding of us other and good evil a radical approach toward accommodating difference as well as embracing the plural concept of the good The authors strengthen their alternative approach with a practical policy guide by challenging existing policies that either exclude or assimilate other cultures that wage the constructed global war on terror and that impose a western neo liberal discourse on non western societies This important book will be essential reading for all those studying civilizations globalization foreign policy peace and security studies multiculturalism and ethnicity regionalism global governance and international political economy

Identities in Transition Paige Arthur, 2010-12-13 In many societies histories of exclusion racism and nationalist violence often create divisions so deep that finding a way to deal with the atrocities of the past seems nearly impossible These societies face difficult practical questions about how to devise new state and civil society institutions that will respond to massive or systematic violations of

human rights recognize victims and prevent the recurrence of abuse

First Nations, Identity, and Reserve Life Simone Poliandri, 2011-11-01 Issues of identity figure prominently in Native North American communities mediating their histories traditions culture and status This is certainly true of the Mi'kmaq people of Nova Scotia whose lives on reserves create highly complex economic social political and spiritual realities This ethnography investigates identity construction and negotiations among the Mi'kmaq as well as the role of identity dynamics in Mi'kmaq social relationships on and off the reserve Featuring direct testimonies from over sixty individuals this work offers a vivid firsthand perspective on contemporary Mi'kmaq reserve life Simone Poliandri begins *First Nations Identity and Reserve Life* with a search for the criteria used by the Mi'kmaq to construct their identities which are traced within the context of their different perceptions of community tradition spirituality relationship with the Catholic Church and the recent reevaluation of the iconic figure of late activist Annie Mae Aquash Building on the notions of self identification and ascribed identity as the primary components of identity Poliandri argues that placing others at specific locations within the social landscape of their communities allows the Mi'kmaq to define and reinforce their own spaces by way of association contrast or both This identification of others highlights Mi'kmaq people's agency in shaping and monitoring the representations of their identities With its theoretical insights this richly textured ethnography will enhance understanding of identity dynamics among Indigenous communities even as it illuminates the unique nature of the Mi'kmaq people

approaches to justice and the Canadian Charter of Rights and Freedoms Until now scholars have explored idealized notions of what Aboriginal justice might look like David Milward strikes out into new territory by asking why Aboriginal communities seek reform and by identifying some of the constitutional barriers in their path He identifies specific areas of the criminal justice process in which Aboriginal communities may wish to adopt different approaches tests these approaches against constitutional imperatives and offers practical proposals for reconciling the various matters at stake This bold exploration of Aboriginal justice grapples with the difficult question of how Aboriginal justice systems can be fair to their constituents but still comply with the protections guaranteed to all Canadians by the Charter
