**The Children of Africa in the Colonies** Melanie J. Newton, 2008-06 When a small group of free men of color gathered in 1838 to celebrate the end of apprenticeship in Barbados they spoke of emancipation as the moment of freedom for all colored people not just the former slaves The fact that many of these men had owned slaves themselves gives a hollow ring to their lofty pronouncements Yet in *The Children of Africa in the Colonies* Melanie J Newton demonstrates that simply dismissing these men as hypocrites ignores the complexity of their relationship to slavery Exploring the role of free blacks in Barbados from 1790 to 1860 Newton argues that the emancipation of the

**African and Caribbean People in Britain** Hakim Adi, 2022-09-01 SHORTLISTED FOR THE WOLFSON HISTORY PRIZE A major new history of Britain that transforms our understanding of this country's past I've waited so long so read a comprehensively researched book about Black history on this island This is it a journey of discovery and a truly exciting and important work Zainab Abbas Despite the best efforts of researchers and campaigners there remains today a steadfast tendency to reduce the history of African and Caribbean people in Britain to a simple story it is one that begins in 1948 with the arrival of a single ship the Empire Windrush and continues mostly apart from a distinct British history overlapping only on occasion amid grotesque injustice or pioneering protest Yet as acclaimed historian Hakim Adi demonstrates from the very beginning from the moment humans first stood on this rainy isle there have been African and Caribbean men and women set at Britain's heart Libyan legionaries patrolled Hadrian's Wall while Rome's first African Emperor died in York In Elizabethan England Black Tudors served in the land's most eminent households while intrepid African explorers helped Sir Francis Drake to circumnavigate the globe And as Britain became a major colonial and commercial power it was African and Caribbean people who led the radical struggle for freedom a struggle which raged throughout the twentieth century and continues today in Black Lives Matter campaigns Charting a course through British history with an unobscured view of the actions of African and Caribbean people Adi reveals how much our greatest collective achievements universal suffrage our victory over fascism the forging of the NHS owe to these men and women and how in understanding our history in these terms we are more able to fully understand our present moment

*The Demography of Africa* Bloomsbury Publishing, 1996-11-25 Written lucidly and simply to serve as an introduction to the study of the African continent from a human population perspective this book demonstrates important factors in the ebb and flow of group size and structure using the example of the fastest growing region in the world From a total original population of less than a quarter million in prehistoric times to the present count of 642 million people in 1990 Africa is now demonstrating an annual growth rate of 3.0% the highest on the planet While the rest of the world's population is expected to increase by 60% Africa's is expected to increase by 100% doubling by the year 2025 to a projected total of 1.6 billion people The major factor creating the high growth rate is the drop in death rates while the fertility rates remain high Stress on the population has been related to urbanization which has increased since African countries attained independence in the 1960s Employment opportunities in cities are inadequate and slum conditions have appeared around most major cities Since agriculture remains the major industry and occupation rural development policies are seen to hold the most promise for stemming urban migration and

within the process of cross cultural audience reception which frequently destabilizes the intentions of the filmmakers
