First Supplement To The Red Figured Vase:

First Supplement to The Red-figured Vases of Apulia Arthur Dale Trendall, Alexander Cambitoglou, 1983 **Patterns in the Production of Apulian Red-Figure Pottery** Edward Herring, 2018-10-01 Most of the previous scholarship on Apulian red figure pottery has focused on the cataloguing of collections the attribution of vases to painters and workshops iconographic and stylistic matters and individual vessels and vase forms This partly reflects the history of vase painting scholarship which grew out of antiquarian collecting during the eighteenth and nineteenth centuries and the fact that a full archaeological provenance is not preserved for the overwhelming majority of vessels This book takes a different approach by using a database containing in excess of 13 500 vessels and fragments to identify patterns in the production and decoration of Apulian vases that cast light on the choices made by vase producers and the preferences of their customers Individual chapters consider the popularity of different vessel shapes over time the use of highly generic decorative scenes which are characteristic of Apulian red figure as well as the popularity of scenes of myth images of the gods scenes of the life of the non Greek population of ancient Puglia and those showing funerary monuments As virtually all of the vases in the sample derive from tombs the patterns identified provide insights into the ways in which the ancient populations of South East Italy both Greek and indigenous honoured their dead **Patterns in the Production of Paestan Red-Figure Pottery** Edward Herring, 2022-05-10 Most of the previous scholarship on Paestan red figure pottery has focused on the cataloguing of collections the attribution of vases to painters and workshops iconographic and stylistic matters and individual vessels and vase forms This partly reflects the history of vase painting scholarship which grew out of antiquarian collecting during 18th and 19th centuries and partly the fact that a full archaeological provenance is not preserved for the majority of vessels This book uses a database containing in excess of 1 800 vessels and fragments to identify patterns in the production and decoration of Paestan vases that cast light on the choices made by vase producers and the preferences of their customers It considers the popularity of different vessel shapes over time the use of highly generic decorative scenes which are characteristic of Paestan red figure as well as the popularity of scenes of myth images of the gods and scenes of nude and half draped women Paestan red figure is compared with the vessels decorated in Applied Red produced at the same site A comparison is also made between the output of the Paestan red figure industry and that of Apulia As the majority of the vases in the sample derive from tombs the patterns identified provide insights into the ways in which the ancient populations of Paestum and South West Italy commemorated the dead **The Red and the Black** Brian A. Sparkes, 2013-10-16 The Red and the Black covers the major stages in the history of Greek pottery production both figured and plain as they are understood today It provides an up to date evaluation of ways of studying Greek pottery and encourages new approaches There is a detailed analysis of the subject matter of figured scenes covering some of the main preoccupations of ancient Greece myth fantasy and everyday life Furthermore it sets the artefacts in the context of the societies that produced them

highlighting the social art historical mythological and economic information that can be revealed from their study This volume also covers a hitherto neglected area the history of the collecting of Greek pottery through the Renaissance and up to the present day It shows how market values have gradually increased to the high prices of today and goes on to take a closer look at the enthusiasm of the collectors Epigraphy of Art Dimitrios Yatromanolakis, 2016-12-31 Ancient Greek vase paintings offer broad ranging and unprecedented early perspectives on the often intricate interplay of images and texts This book investigates both epigraphic technicalities of Attic and non Attic inscriptions and their broader iconographic and sociocultural significance *Papers in Italian Archaeology VII: The Archaeology of Death* Edward Herring, Eoin O'Donoghue, 2018-08-13 This volume collects more than 60 papers by contributors from the British Isles Italy and other parts of continental Europe and North and South America focussing on recent developments in Italian archaeology from the Neolithic to the modern period **Pots & Plays** Oliver Taplin, 2007-10-15 This interdisciplinary study opens up a fascinating interaction between art and theater It shows how the mythological vase paintings of fourth century B C Greeks especially those settled in southern Italy are more meaningful for those who had seen the myths enacted in the popular new medium of tragedy Of some 300 relevant vases 109 are reproduced and accompanied by a picture by picture discussion This book supplies a rich and unprecedented resource from a neglected treasury of painting Hope in Ancient Literature, History, and Art George Kazantzidis, Dimos Spatharas, 2018-07-09 Although ancient hope has attracted much scholarly attention in the past this is the first book length discussion of the topic The introduction offers a systematic discussion of the semantics of Greek elpis and Latin spes and addresses the difficult question of whether hope ancient and modern is an emotion On the other hand the 16 contributions deal with specific aspects of hope in Greek and Latin literature history and art including Pindar's poetry Greek tragedy Thucydides Virgil's epic and Tacitus Historiae The volume also explores from a historical perspective the hopes of slaves in antiquity the importance of hope for the enhancement of stereotypes about the barbarians and the depiction of hope in visual culture providing thereby a useful tool not only for classicist but also for philosophers cultural historians and political scientists Corpus Vasorum Antiquorum: The J. Paul Getty Museum Marit R. Jentoft-Nilsen, A. D. Trendall, 1990-08-01 The Museum's Apulian Lucanian Campanian Sicilian and Paestan red figure vases are discussed in this edition of Corpus Vasorum Antiquorum The vases are arranged by shape and documented by photographs and profile drawings The unbound plates offer easy reference and comparison The text includes detailed descriptions and complete bibliographies **A Companion to Greek Art** Tyler Jo Smith, Dimitris Plantzos, 2018-06-18 A comprehensive authoritative account of the development Greek Art through the 1st millennium BC An invaluable resource for scholars dealing with the art material culture and history of the post classical world Includes voices from such diverse fields as art history classical studies and archaeology and offers a diversity of views to the topic Features an innovative group of chapters dealing with the reception of Greek art from the Middle Ages to the present Includes chapters on Chronology and

Topography as well as Workshops and Technology Includes four major sections Forms Times and Places Contacts and Colonies Images and Meanings Greek Art Ancient to Antique *The Search for Knowledge and Understanding* Professor Maxwell R. Bennett AO, 2019-05-28 For nearly a millennium universities have searched for knowledge understanding and truth Internationally renowned neuroscientist Professor Maxwell Bennett evaluates the work of 20 of the greatest scholars in the University of Sydney's history and shows how this university's search has benefitted society in manifold ways The Search for Knowledge and Understanding demonstrates an interdisciplinary approach as Bennett crafts short but insightful biographies of some of the most significant scholars that have worked at Australia's oldest university over the past half-century in medicine the life sciences the physical sciences and the humanities and social sciences Bennett provides a striking account of how this particular scholarly community has flourished by nurturing scholars and allowing them with the intellectual freedom to pursue their passions The book clarifies the notion of understanding as it holds in different disciplines and depicts the benefit the world of scholarship can have on the wider community Technology, Crafting and Artisanal Networks in the Greek and Roman World Diego Elia, Eleni Hasaki, Marco Serino, 2024-12-02 This volume aims to merge theoretical models with methodological approaches on ceramic technology and artisanal networks in the Classical world This convergence of analytical frameworks allowed scholars to explore some traditional archaeological topics that usually have a very low level of visibility such as the skillful gestures of the craftspeople involved the organization of the ceramic production the dynamics of apprenticeship and knowledge transfer as well as intra and inter regional artisanal mobility in the Graeco Roman communities of practice The papers promote interdisciplinary dialogues among various fields of study such as archaeology archaeometry anthropology ethnoarchaeology experimental archaeology and digital humanities such as Social Network Analysis computational imaging and big data analysis **Omens and Oracles** Matthew Dillon, 2017-07-14 Addressing the role which divination played in ancient Greek society this volume deals with various forms of prophecy and how each was utilised and for what purpose Chapters bring together key types of divining such as from birds celestial phenomena the entrails of sacrificed animals and dreams Oracular centres delivered prophetic pronouncements to enquirers but in addition there were written collections of oracles in circulation Many books were available on how to interpret dreams the birds and entrails and divination as a religious phenomenon attracted the attention of many writers Expert diviners were at the heart of Greek prophecy whether these were Apollo's priestesses delivering prose or verse answers to questions put to them by consultants diviners known as manteis who interpreted entrails and omens the chresmologoi who sang the many oracles circulating orally or in writing or dream interpreters Divination was utilised not only to foretell the future but also to ensure that the individual or state employing divination acted in accordance with that divinely prescribed future it was employed by all and had a crucial role to play in what courses of action both states and individuals undertook Specific attention is paid in this volume not only to the ancient written evidence but to that of inscriptions and papyri with emphasis

placed on the iconography of Greek divination **Refiguring Tragedy** Ioanna Karamanou, 2019-05-20 This book brings together case studies delving into different unstudied aspects of the *Nachleben* of selected lost tragedies either in their once extant form or in their fragmentary state in later periods of time It seeks to explore the ways in which the plays in question were reworked discussed represented or reperformed within varying frameworks Notably enough research on the reception of tragic fragments could yield insight not only into the receiving work but also into the facets of the source text that have attracted attention in its subsequent refigurations It could thus shed light on the ideological and cultural routes through which these fragmentary tragedies were received by the poet the scholar the artist the viewer the reader and the spectator in each case The complex process of the refiguration of a fragmentarily preserved play within different contexts could form a yardstick of its cultural power and elucidate the dynamics of fragmentation in modern times the volume is of particular interest to scholars in the fields of classics reception cultural and performance studies as well as to readers fascinated by Greek tragedy and its vibrant afterlife **Art and Crime** Noah Charney, 2009-05-14 Through the use of case examples and careful examination this book presents the first interdisciplinary essay collection on the study of art crime and its effect on all aspects of the art world Contributors discuss art crime subcategories including vandalism iconoclasm forgery fraud peace time theft war looting archaeological looting smuggling submarine looting and ransom The contributors offer insightful analyses coupled with specific practical suggestions to implement in the future to prevent and address art crime This work is of critical importance to anyone involved in the art world its trade study and security Art crime has received relatively little attention from those who study art to those who prosecute crimes Indeed the general public is not well aware of the various forms of art crime and its impact on society at large to say nothing of museums history and cultural affairs And yet it involves a multi billion dollar legitimate industry with a conservatively estimated 6 billion annual criminal profit Information about and analysis of art crime is critical to the wide variety of fields involved in the art trade and art preservation from museums to academia from auction houses to galleries from insurance to art law from policing to security Since the Second World War art crime has evolved from a relatively innocuous crime into the third highest grossing annual criminal trade worldwide run primarily by organized crime syndicates and therefore funding their other enterprises from the drug and arms trades to terrorism It is no longer merely the art that is at stake *The Failings of Empire* Christopher Tuplin, 1993 Current views of Xenophon's account of 404-362 BC under play the fact that it is a chronological report of politico-military events which should be taken seriously and not seen merely as arbitrary pegs for didactic utterances A reading of this idiosyncratic narrative is offered which shows how by interplay of direct stress allusiveness and telling silence Xenophon invites a largely negative attitude to the major states and their leaders as they strive unsuccessfully for predominance The record of Spartan aims and achievements is notably gloomy but Thebes Athens and Arcadia are also treated with scant respect The disorder with which the work ends is the logical conclusion and a real source of discontent not an excuse for terminating a narrative

in which its author had lost interest **Gnathia and related Hellenistic ware on the East Adriatic coast** Maja Miše, 2015-10-31 This book aims to present Gnathia ware on the East Adriatic coast to define local Issaeian Gnathia production from manufacturing to distribution to identify other pottery workshops along the East Adriatic coast and finally to understand the trade and contacts in the Adriatic during the Hellenistic period **The Cambridge Companion to Greek Tragedy** P. E. Easterling, 1997-10-02 As a creative medium ancient Greek tragedy has had an extraordinarily wide influence many of the surviving plays are still part of the theatrical repertoire and texts like Agamemnon Antigone and Medea have had a profound effect on Western culture This Companion is not a conventional introductory textbook but an attempt by seven distinguished scholars to present the familiar corpus in the context of modern reading criticism and performance of Greek tragedy There are three main emphases on tragedy as an institution in the civic life of ancient Athens on a range of different critical interpretations arising from fresh readings of the texts and on changing patterns of reception adaptation and performance from antiquity to the present Each chapter can be read independently but each is linked with the others and most examples are drawn from the same selection of plays *Northern Pontic Antiquities in the State Hermitage Museum* John Boardman, S. Sergei L. Solovyov, Gocha R. Tsetskhladze, 2001 This volume by members of staff publishes Graeco Roman antiquities from the State Hermitage many of them unearthed during the museum's field projects in Berezan Myrmekion and Nymphaeum There are also reviews and notes on new publications on the Black Sea The book is very well illustrated

Underworld David Saunders, 2022-01-11 Abundantly illustrated this essential volume examines depictions of the Underworld in southern Italian vase painting and explores the religious and cultural beliefs behind them What happens to us when we die What might the afterlife look like For the ancient Greeks the dead lived on overseen by Hades in the Underworld We read of famous sinners such as Sisyphus forever rolling his rock and the fierce guard dog Kerberos who was captured by Herakles For mere mortals ritual and religion offered possibilities for ensuring a happy existence in the beyond and some of the richest evidence for beliefs about death comes from southern Italy where the local Italic peoples engaged with Greek beliefs Monumental funerary vases that accompanied the deceased were decorated with consolatory scenes from myth and around forty preserve elaborate depictions of Hades's domain For the first time in over four decades these compelling vase paintings are brought together in one volume with detailed commentaries and ample illustrations The catalogue is accompanied by a series of essays by leading experts in the field which provides a framework for understanding these intriguing scenes and their contexts Topics include attitudes toward the afterlife in Greek ritual and myth inscriptions on leaves of gold that provided guidance for the deceased funerary practices and religious beliefs in Apulia and the importance accorded to Orpheus and Dionysos Drawing from a variety of textual and archaeological sources this volume is an essential source for anyone interested in religion and belief in the ancient Mediterranean
