Hungry Britain Hannah Lambie-Mumford, 2017-07-05 Examining the prolific growth of UK charitable emergency food provision over the past fifteen years Hungry Britain uses the human right to food as a pathway to developing solutions to food poverty Hannah Lambie Mumford draws on data from the country's two largest charitable food providers to explore the effectiveness of this emerging system of food acquisition its enduring sustainability and most importantly where responsibility lies for ensuring that all people can realize their human right to food She shows that the increasing tendency of charitable food providers to take responsibility for protecting people against food poverty occurs in tandem with significant cuts to the welfare state cuts shaping both the need for and nature of emergency food provision Arguing for a clear rights based framework this book envisions a future where a range of actors from the state to charities and the food industry will be jointly accountable in combating food poverty

Food Bank Nations Graham Riches, 2018-04-19 In the world's most affluent and food secure societies why is it now publicly acceptable to feed donated surplus food dependent on corporate food waste to millions of hungry people While recognizing the moral imperative to feed hungry people this book challenges the effectiveness sustainability and moral legitimacy of globally entrenched corporate food banking as the primary response to rich world food poverty It

investigates the prevalence and causes of domestic hunger and food waste in OECD member states the origins and thirty year rise of US style charitable food banking and its institutionalization and corporatization It unmasks the hidden functions of transnational corporate food banking which construct domestic hunger as a matter for charity thereby allowing indifferent and austerity minded governments to ignore increasing poverty and food insecurity and their moral legal and political obligations under international law to realize the right to food The book s unifying theme is understanding the food bank nation as a powerful metaphor for the deep hole at the centre of neoliberalism illustrating the de politicization of hunger the abandonment of social rights the stigma of begging and loss of human dignity broken social safety nets the dysfunctional food system the shift from income security to charitable food relief and public policy neglect It exposes the hazards of corporate food philanthropy and the moral vacuum within negligent governments and their lack of public accountability The advocacy of civil society with a right to food bite is urgently needed to gather political will and advance joined up policies and courses of action to ensure food security for all

Rebato Ochoa, 2022-05-10 This book provides an in depth analysis of different dimensions of contemporary food charity It does so against the background of an increasing number of food banks and other forms of food philanthropy The book examines the incongruity of considering food donation as an expression of pure altruism Taking into account the dignity and rights of people it addresses how hunger is seen and explained in rich countries and how philanthropy and democracy coexist It looks at the relationship that exists between religious traditions and the current food donation narrative It discusses the risks of stigmatizing food recipients and clarifies ways to better deal with food poverty and food waste Paradoxically food insecurity and food waste have grown exponentially in the last decade More and more people are not able to access food properly The amount of perfectly edible food that is discarded also grows The consolidation of democracies welfare policies and economic growth do not guarantee that all citizens can meet their basic needs in the so called rich countries This book analyses the current state of affairs and presents facts and reflections from diverse sources and from a cross disciplinary perspective

and shapes the study allowing contributors to unpick the ways in which crisis and sharing relate to each other in real life The book is divided into three thematic sections Following an extended introduction to the themes and ideas of the book by the editors the first section foregrounds the shaping of sharing practices by already existing or anticipated crises The second section focuses on the lived relations between sharing and economic practice In the third section authors conclude the book by exploring the possibilities and challenges for creating alternative economic forms grounded in practices of sharing This edited volume makes a major original contribution towards academic understandings of sharing economies in the context of crises It is suitable for both students and academics who are interested in political economy economic geography and consumption
