**Putting Poetry First** Anne Charlton,William Charlton,2003 The name of Robert Nichols has its place in the memorial in Westminster Abbey to the poets of the First World War and his first collections *Invocations* 1915 and *Ardours and Endurances* 1917 speaking directly to the mood of a nation in the throes of war achieved real popular success He went on to

produce three more volumes of poetry four plays that reached the London stage and two novels He numbered among his friends many of the best known authors composers and actors of his day and was himself a perceptive and articulate observer of the contemporary scene As a result this first full study of his life and writings drawing on a mass of unpublished letters has much to divert and entertain It shows him in Japan in the early 1920s in Hollywood during an exciting phase in the development of the film industry in Austria and Bavaria during the rise of Hitler and escaping from France in 1940 He was only fifty one when he died and his life was not a happy one bad health went with an inability despite a generous and affectionate nature to form stable relationships with women What is remarkable is the sometimes impractical single mindedness with which he pursued his vocation as a poet He believed he was born to write poetry and for him that always came first
