Gidney,W.P.J. Millar,2012-02-21 Between the 1880s and the 1940s children in English Canada encountered schools and school systems profoundly different from today s In *How Schools Worked* R D Gidney and W P J Millar map the contours of that world retrieving it from the obscurity created not only by the passage of time but by fundamental shifts in organization pedagogical values and beliefs about the role of public education Moving beyond the rhetoric on school reform that marked the period *How Schools Worked* focuses squarely on schooling itself How many children went to elementary or secondary school how often and for how long What was the range of their educational attainments How were their patterns of attendance influenced by social class gender and where they lived What and how were they taught How were they assessed and promoted from grade to grade What were their teachers qualifications and experience What were their school buildings like Who paid the bills and how much did they pay How well or badly were children and young people served by their schools And how did answers to these questions change over time A sympathetic yet critical analysis *How Schools Worked* is a portrait of a complex enterprise at work Gidney and Millar offer a rich understanding of the period a reappraisal of some major debates and insights into educational issues that perplex us still **The Canadian Municipal System** Donald C. Equal as Citizens Richard Starr,2014-04-30 No matter where they live Canadians expect and receive equal benefits

from their government when it comes to old age pensions consular services when travelling abroad and airline safety Canadians also expect the same quality of education medical care and social benefits anywhere in the country But when government services come from provinces and not Ottawa differences in the quality of services can be enormous Canada's provinces have equal responsibilities but very unequal means to pay for those responsibilities Equal citizenship for all Canadians is an idea that has a long and distinguished pedigree in Canadian life When differences between the provinces grew dramatically in the early twentieth century politicians crafted a response that sought to equalize services across the country They called these measures equalization and the idea was deemed so fundamental that it was embodied in the 1982 Canadian constitution But Canada has changed The centre of wealth has been shifting from Ontario toward the resource rich provinces The wealth gap between provinces has grown and with it disparities in taxes and services available to citizens Regionalism and neoconservative ideas have undermined support for equal citizenship In this compelling new book Richard Starr traces the history of this idea He tracks how it has been undermined and attacked and proposes how it can be reframed in a twenty first century context to attract the support of most Canadians
