Principal Induction Elaine L. Wilmore, 2004-01-07 Finally a standards-based leadership induction program that will help every principal flourish. Many school administrator candidates enter the principalship with great potential but sometimes lack the critical guidance to ensure their success. With the many challenges facing principals daily, it is imperative for new and seasoned principals alike to remain informed, rejuvenated, and passionate about providing students with a quality education and supporting high-quality teachers and an effective staff. Principal Induction focuses on the importance of an effective induction process in the recruitment, development, and retention of school principals. The first of its kind, this standards-based format seamlessly weaves the new Educational Leadership Constituent Council (ELCC) standards resulting from the work of ten leading educational organizations interested in school leadership and improvement into the principal induction process. Developing this unique approach while providing encouragement and support, Wilmore produces case studies, professional development activities, and how-to's for improving schools by enhancing the human and leadership qualities of administrators. Promoting positive school culture. Creating collaborative teams to support all stakeholders. Addressing inconsistent follow-up and unreliable accountability systems in a structured, productive manner. By cultivating their own individual growth and development through an effective induction program, school leaders will revitalize their professional and personal lives and move from surviving to flourishing during their principalship years. *Resources in Education*, 1998
