## **Education At A Glance Oecd Indicators 1998 Edition:**

**Education at a Glance 1998 OECD Indicators** OECD,1999-12-06 The 1998 edition of Education at a Glance provides comparable information on the human and financial resources invested in education on how education and learning systems operate and evolve and on the returns to educational investments **Education at a Glance ,1998 Comparative and International Research In Education** Michael Crossley,Keith Watson,2003-09-02 From the foreword This book is a major contribution to the field of comparative and international education It has been co authored by two distinguished figures who write with authority and clarity and who present conceptual insights which add creative and intellectual vitality to the field at a time of major change and development Changing geopolitical relations the acceleration of globalisation and major advances in information and communication technology have all transformed and revitalised international and comparative research in education This multidisciplinary book critically examines the implications of this change for those engaged in such work worldwide Groundbreaking and insightful it draws on the latest research and developments in the field to give a comprehensive overview and analysis of the contemporary condition of this valuable form of research Drawing upon the authors extensive international experience the text Re assesses the diverse and multidisciplinary origins of this field of study Documents the increased orientation towards research Explores the changing nature of the problems and issues faced by both new and experienced researchers Puts forward a coherent and well informed case for a thorough reconceptualisation of the field as a whole The book argues eloquently for increased cultural and contextual sensitivity in educational research and development in order that the field might make a more effective contribution to educational theory policy and practice This multidisciplinary work will be welcomed by a wide range of theorists and researchers in education and the social sciences as well as teachers policymakers and anyone concerned with improving dialogue and understanding across cultures and nations

Investing in People Tony White,2001 **Self-Identity Narratives of Chinese Students in the United States** Sarah Y. Köksal,2023-01-31 While previous research has explored the academic adaptation or acculturation processes of Chinese students studying abroad limited attention has been paid to students own perspectives and narrations of their experience To contribute to a more nuanced understanding of this highly mobile group this study takes a closer look at the students self identity narratives How do they make sense of their foreign adventure How do they position themselves among their peers and their family members as well as within the greater transnational context Based on 29 in depth biographical interviews with Chinese students in the United States the findings show the participants continuously interpreting and revising their individual academic and cultural identities In the familial context a recurring narrative of the high potential only child could be observed Many students and their family members felt that their unique talents and personalities were not appreciated within the Chinese educational system and thus sought more holistic environments abroad Korea and the Knowledge-based Economy Carl J. Dahlman,Thomas Andersson,2000 Korea is a country with limited natural resources which

has developed through a strategy of industrialisation and the economies of scale. However, this is being challenged by the rise of knowledge as a principal driver of competitiveness. This book is the result of a joint study by the OECD and the World Bank to develop a comprehensive set of national policy responses to the knowledge revolution. It concentrates on four areas: 1. an institutional and economic regime that provides incentives for the creation of new knowledge and its efficient use; 2. an educated and entrepreneurial population; 3. a dynamic information infrastructure; 4. an efficient system of innovation.

**The Education Systems of Europe** Wolfgang Hörner, Hans Döbert, Botho von Kopp, Wolfgang Mitter, 2007-05-03 Education is a paradoxical phenomenon. On the one hand, it is universal as, since the period of Enlightenment, it has been declared universal good for everybody. Moreover, we learnt by historical research following the ideas of world system theory that, since this time as far as its main structures are concerned, compulsory state education given by professional teachers in classrooms took even universal traits. However, on the other hand, the fact that education became state education organised or at least controlled by the state was the beginning of another tradition. Line education in the form of state organised educational institutions became a means of creating national identity. Universal inclusion as for the light of reason shining for everybody is opposed to more or less nationalist exclusion of all the others, shaping the feature of a particular nation state with a particular educational system. This fundamental dialectical tension between the universal and the particular was one of the important motives to make this handbook. One of the central issues of the country studies is precisely to display the relationship between universal values and the search for national identity. Another motive is given by the European dimension of the handbook.

The Age of Knowledge James Dzisah, Henry Etzkowitz, 2011-10-14 The Age of Knowledge emphasizes that the ongoing transformations of knowledge both within universities and for society more generally must be understood as a reflection of the larger changes in the constitutive social structures within which they are invariably produced, translated and reproduced.

Dimensions of Inequality in Canada David A. Green, Jonathan R. Kesselman, 2011-11-01 Is Canada becoming a more polarized society? Or is it a kind hearted nation that takes care of its disadvantaged? This volume closely examines these differing views through a careful analysis of the causes, trends and dimensions of inequality to provide an overall assessment of the state of inequality in Canada. Contributors include economists, sociologists, philosophers and political scientists and the discussion ranges from frameworks for thinking about inequality to original analyses using Canadian data to assessments of significant policy issues, methodologies and research directions. What emerges is the most detailed picture of inequality in Canada to date and disturbingly one that shows signs of us becoming a less just society. An invaluable source of information for policy makers, researchers and students from a broad variety of disciplines, *Dimensions of Inequality in Canada* will also appeal to readers interested or involved in public debates over inequality.

**Our Children's Future** Gordon Cleveland, Michael Krashinsky, 2001-01-01 Assembling key experts and activists in the area of Canadian child care policy, this book makes an important contribution to understanding how Canada, with its particular institutions, politics

and values should design a national child care strategy      *Handbook of Education Policy Studies* Guorui Fan, Thomas S. Popkewitz, 2020-06-02 This open access handbook brings together the latest research from a wide range of internationally influential scholars to analyze educational policy research from international historical and interdisciplinary perspectives By effectively breaking through the boundaries between countries and disciplines it presents new theories techniques and methods for contemporary education policy and illustrates the educational policies and educational reform practices that various countries have introduced to meet the challenges of continuous change Based on an analysis of the nature of education policy and education reform this volume focuses on education reform and the concept of education quality Adopting a historical and comparative perspective it examines the dialectical relationship between education policy and education reform in various countries assesses theoretical and practical issues in the process of moving from regulation to multiple governance in contemporary education administration and explores the impact of globalization on national education reform and the interdependence between countries In addition it presents studies addressing educational policy research methodology from multiple perspectives Highlighting the changes in national education macro policies this volume comprehensively reveals the complex relationship between contemporary education reform and social change and explores the links between contemporary social political and economic systems and educational policy research and practice offering a holistic portrait of macro trends in contemporary education reform      *Social and Economic Policies in Korea* Dong-Myeon Shin, 2003-12-08 A unique explanation of the development of Korean social policy using the concepts of policy idea policy network and policy linkages to examine the causes patterns and consequences of state interventions in the economy and social affairs      **Education in Spite of Policy** Robin Alexander, 2021-12-30 A national system of education cannot function without policy But the path to practice is seldom smooth especially when ideology overrules evidence or when ministers seek to micromanage what is best left to teachers And once the media join the fray the mixture becomes downright combustible Drawing on his long experience as teacher researcher government adviser campaigner and international consultant and on over 600 published sources Robin Alexander expertly illustrates and illuminates these processes This selection from his recent writing some hitherto unpublished opens windows onto cases and issues that concern every teacher Part 1 tackles system level reform It revisits the Cambridge Primary Review an evidence rich enquiry into the condition and future of primary education in England which challenged the UK government's policies on curriculum testing standards and more besides Here the reform narratives and strategies of successive governments are confronted and dissected Part 2 follows the development of England's current National Curriculum exposing its narrow vision and questionable use of evidence and offering a more generous aims driven alternative This section also investigates the expertise and leadership needed if children are to experience a curriculum of the highest quality in all its aspects Part 3 reaches the heart of the matter securing the place in effective pedagogy of well founded classroom talk a mission repeatedly frustrated by political
