Korsgaard, 2018-06-18 Christine M Korsgaard presents a compelling new view of humans moral relationships to the other animals She defends the claim that we are obligated to treat all sentient beings as what Kant called ends in themselves Drawing on a theory of the good derived from

Aristotle she offers an explanation of why animals are the sorts of beings for whom things can be good or bad She then turns to Kant s argument for the value of humanity to show that rationality commits us to claiming the standing of ends in ourselves in two senses Kant argued that as autonomous beings we claim to be ends in ourselves when we claim the standing to make laws for ourselves and each other Korsgaard argues that as beings who have a good we also claim to be ends in ourselves when we take the things that are good for us to be good absolutely and so worthy of pursuit The first claim commits us to joining with other autonomous beings in relations of moral reciprocity The second claim commits us to treating the good of every sentient creature as something of absolute importance Korsgaard argues that human beings are not more important than the other animals that our moral nature does not make us superior to the other animals and that our unique capacities do not make us better off than the other animals She criticizes the marginal cases argument and advances a new view of moral standing as attaching to the atemporal subjects of lives She criticizes Kant s own view that our duties to animals are indirect and offers a non utilitarian account of the relation between pleasure and the good She also addresses a number of directly practical questions whether we have the right to eat animals experiment on them make them work for us and fight in our wars and keep them as pets and how to understand the wrong that we do when we cause a species to go extinct

A Philosophy for the Science of Animal Consciousness Walter Veit, 2023-06-16 This book attempts to advance Donald Griffin s vision of the final crowning chapter of the Darwinian revolution by developing a philosophy for the science of animal consciousness It advocates a Darwinian bottom up approach that treats consciousness as a complex evolved and multidimensional phenomenon in nature rather than a mysterious all or nothing property immune to the tools of science and restricted to a single species The so called emergence of a science of consciousness in the 1990s has at best been a science of human consciousness This book aims to advance a true Darwinian science of consciousness in which its evolutionary origin function and phylogenetic diversity are moved from the field s periphery to its very centre thus enabling us to integrate consciousness into an evolutionary view of life Accordingly this book has two objectives i to argue for the need and possibility of an evolutionary bottom up approach that addresses the problem of consciousness in terms of the evolutionary origins of a new ecological lifestyle that made consciousness worth having and ii to articulate a thesis and beginnings of a theory of the place of consciousness as a complex evolved phenomenon in nature that can help us to answer the question of what it is like to be a bat an octopus or a crow

A Philosophy

for the Science of Animal Consciousness will appeal to researchers and advanced students interested in advancing our understanding of animal minds as well as anyone with a keen interest in how we can develop a science of animal consciousness

The Anthropology of Eastern Religions Murray J. Leaf, 2014-05-21 The world's great religions depend on traditions of serious scholarship dedicated to preserving their key texts but also to understanding them and therefore to debating what understanding itself is and how best to do it They also have important public missions of many kinds and their ideas and organizations influence many other important institutions including government law education and kinship Anthropology of Eastern Religions Ideas Organizations and Constituencies is a comparative survey of the world's major religious traditions as professional enterprises and often as social movements Documenting the principle ideas behind eastern religious traditions from an anthropological perspective Murray J Leaf demonstrates how these ideas have been used in building internal organizations that mobilize or fail to mobilize external support

The Physiology of Taste Jean Anthelme Brillat-Savarin, 2009-10-06 A culinary classic on the joys of the table written by the gourmand who so famously stated Tell me what you eat and I will tell you what you are in a handsome new edition of M F K Fisher's distinguished translation and with a new introduction by Bill Buford First published in France in 1825 and continuously in print ever since The Physiology of Taste is a historical philosophical and ultimately Epicurean collection of recipes reflections and anecdotes on everything and anything gastronomical Brillat Savarin who spent his days eating through the famed food capital of Dijon lent a shrewd exuberant and comically witty voice to culinary matters that still resonate today the rise of the destination restaurant diet and weight digestion and taste and sensibility

Ethics With Aristotle Sarah Broadie, 1993-09-30 This is a close and comprehensive study of the main themes of Aristotle's ethics Sarah Broadie concentrates on what he has to teach about happiness virtue voluntary agency practical reason incontinence pleasure and the place of theoria in the best life Never forgetting that ethics for Aristotle is above all a practical enterprise she sheds new light on ways in which this practical orientation affects both content and method of his inquiry The book culminates in a sustained argument showing how even Aristotle's ideal of theoretic contemplation is integral to his essentially practical vision of human nature Ethics with Aristotle is a major contribution toward the further understanding of Aristotle's ethics

The Virgin Mary Conspiracy Graham Phillips, 2005-03-01 A convincing and cogent argument refuting the Assumption of the Virgin Mary in Church dogma and revealing the true father of Jesus Provides historical and archaeological evidence of a tomb of the Virgin Mary Introduces the theory that Jesus's father was Antipater son of Herod What became of the Virgin Mary after the Crucifixion is one of the greatest mysteries of the Bible Although it appears nowhere in the Bible the belief in the Assumption Mary's bodily ascension into heaven is accepted by many Christians as historical fact Some however believe that Mary died naturally and was buried in a tomb in Jerusalem's Valley of Jehosaphat Others say that her final resting place was in the Roman ruins of Ephesus in Asia Minor In 1950 Giovanni Benedetti an archaeologist attached to the Vatican museum found a fourth century manuscript

indicating that Mary had been smuggled out of Palestine to an island off the west coast of Britain According to Benedetti s findings England s first Bishop St Augustine discovered Mary s tomb there in A D 597 The reigning pope Gregory the Great forbade St Augustine to speak of this initiating a conspiracy of silence that lasted 1 400 years Similarly as Benedetti was about to publish his findings he was instructed by the Vatican to discontinue his research Soon after the Roman Catholic Church declared the Assumption dogma In *The Virgin Mary Conspiracy* Graham Phillips unravels the truth behind this centuries old ecclesiastical cover up and discovers what may be Mary s final resting place During his extensive research Phillips also discovered another controversial theory revealing that Jesus was the son of Antipater the son of Herod and therefore the true heir to Herod s throne thus explaining his title of King of the Jews [The Rishi of Bangladesh](#) Dr Cosimo Zene, Cosimo Zene, 2014-04-08 This book is a study of the changing relationship over time 1856 1994 between the Rishi an ex Untouchable jati of Bengal South West Bangladesh and various groups of Catholic missionaries The book s originality and importance lies in its multi disciplinary approach which combines anthropological fieldwork historical research philosophical enquiry and contemporary missiological debates Moreover it addresses issues of great current relevance in its discussions of Orientalism Neo colonialism and Otherness
