Native Heritage Arlene B. Hirschfelder,1995 Arguably the most eloquent powerful portrayal of Native Americans are written or narrated by Natives themselves In Native Hermitage authentic accounts of Natives voices are brought together some for the first time for readers who want an informed authentic perspective about Native Americans This work is significant because until recent times the literature has been largely devoid of firsthand perspectives The need for accurate authentic materials on native Americans has never been greater *Alaska* Claus-M. Naske,1987 History of the state of Alaska from early to contemporary times discussing its native peoples sale to the United States gold rush quest for statehood and oil boom The Birth of Whiteness Daniel Bernardi,1996 As indelible components of the history of the United States race and racism have permeated nearly all aspects of life cultural economic political and social In this first anthology on race in early cinema fourteen scholars examine the origins dynamics and ramifications of racism and Eurocentrism and the resistance to both during the early years of American motion pictures Any discussion of racial themes and practices in any arena inevitably begins with the definition of race Is race an innate and biologically determined essence or is it a culturally constructed category Is the question irrelevant Perhaps race exists as an ever changing historical and social formation that regardless of any standard definition involves exploitation degradation and struggle In his introduction Daniel Bernardi writes that early cinema has been a clear partner in the hegemonic struggle over the meaning of race and that it was steadfastly aligned with a Eurocentric world view at the expense of those who didn t count as white The contributors to this work tackle these problems and address such subjects as biological determinism miscegenation Manifest Destiny assimilation and nativism and their impact on early cinema Analyses of *The Birth of a Nation* *Romona* *Nanook of the North* and *Madame Butterfly* and the directorial styles of D W Griffith Oscar Micheaux and Edwin Porter are included in the volume **The Extraordinary Book of Native American Lists** Arlene Hirschfelder,Paulette F. Molin,2012-03-22 Communicates information about the histories contemporary presence and various other facts of the Native peoples of the United States From publisher description **The Third Eye** Fatimah Tobing Rony,1996 Charting the intersection of technology and

ideology cultural production and social science Fatimah Tobing Rony explores early twentieth century representations of non Western indigenous peoples in films ranging from the documentary to the spectacular to the scientific Turning the gaze of the ethnographic camera back onto itself bringing the perspective of a third eye to bear on the invention of the primitive other Rony reveals the collaboration of anthropology and popular culture in Western constructions of race gender nation and empire Her work demonstrates the significance of these constructions and more generally of ethnographic cinema for understanding issues of identity In films as seemingly dissimilar as Nanook of the North King Kong and research footage of West Africans from an 1895 Paris ethnographic exposition Rony exposes a shared fascination with and anxiety over race She shows how photographic realism contributed to popular and scientific notions of evolution race and civilization and how in turn anthropology understood and critiqued its own use of photographic technology Looking beyond negative Western images of the Other Rony considers performance strategies that disrupt these images for example the use of open resistance recontextualization and parody in the films of Katherine Dunham and Zora Neale Hurston or the performances of Josephine Baker She also draws on the work of contemporary artists such as Lorna Simpson and Victor Masayesva Jr and writers such as Frantz Fanon and James Baldwin who unveil the language of racialization in ethnographic cinema Elegantly written and richly illustrated innovative in theory and original in method *The Third Eye* is a remarkable interdisciplinary contribution to critical thought in film studies anthropology cultural studies art history postcolonial studies and women s studies

Historical Dictionary of the Inuit Pamela R. Stern, 2013-09-26 The Inuit do not represent a very large population only 160 000 or so spread over a very large portion of the Arctic region and located in four different countries Although they are a people there are many variations from one group to the next and any study of them must consider both similarities and differences The Historical Dictionary of the Inuit introduces us to the Inuit as they actually are and not as they have been traditionally pictured and some would still like to see them looking after their traditional chores and engaged in time honored practices but rather as a modern people trying to shape their worlds in their own interest This second edition includes an updated chronology as well as an introduction to provide a broader view of who the Inuit are where they live and what they do But it is the dictionary section that is most interesting with many new informative entries on persons places events and institutions shedding light not only on the culture but also on the society economy and politics For those seeking further information there is a considerably expanded bibliography This book is an excellent access point for students researchers and anyone wanting to know more about the Inuit

Playing for Keeps Daniel Fischlin, Eric Porter, 2020-04-24 The contributors to *Playing for Keeps* examine the ways in which musical improvisation can serve as a method for negotiating violence trauma systemic inequality and the aftermaths of war and colonialism Outlining the relation of improvisatory practices to local and global power structures they show how in sites as varied as South Africa Canada Egypt the United States and the Canary Islands improvisation provides the means for its participants to address the past and imagine the
