The Moving Image G. D. Yarnold,2025-01-06 Research scientist and university teacher Anglican clergyman and warden of a great theological library the author had previously lectured and written extensively on religious and scientific questions In The Moving Image originally published in 1966 he deals with a number of related problems some old and some new on the borderland where science philosophy and theology meet How does our sense of time arise and what does it mean Is the universe an accident and human life without purpose or is a doctrine of creation a necessary counterpart to the teachings of evolution What does it mean in a scientific age to claim that the eternal God works out his purpose in cosmic and organic process revealing himself in human history Does the classical doctrine of the Incarnation do justice to Christ s involvement as a human person in the travail of the real world as we know it These and other questions are looked at afresh in the light of a carefully articulated understanding of the relation of time to eternity

which draws together the contributions of the ancient world the insights of existentialists and linguistic philosophy and the most recent trends in natural science On this basis skilfully argued and cogently presented the author examines the problems of divine omniscience in relation to human freewill and neurophysiological determinism and deals in a fresh manner with the great questions of Christology and the hope of eternal life The result is a work of fascinating interest in which bold metaphysical views are advanced with full awareness of the pitfalls to which such thinking was exposed at the time Of interest to philosophers and theologians at the time as well as the lay reader today it can be read in its historical context

Moral Foundations of Constitutional Thought Graham Walker,2014-07-14 Graham Walker boldly recasts the debate over issues like constitutional interpretation and judicial review and challenges contemporary thinking not only about specifically constitutional questions but also about liberalism law justice and rights Walker targets the skeptical moral nihilism of leading American judges and writers on both the political left and right charging that their premises undermine the authority of the Constitution empty its moral words of any determinate meaning and make nonsense of ostensibly normative theories But he is even more worried about those who desire to conduct constitutional government by direct recourse to an authoritative moral truth Augustine s political ethics Walker argues offers a solution a way to embrace substantive goodness while relativizing its embodiment in politics and law Walker sees in Augustinian theory an understanding of the rule of law that prevents us from mistaking law for moral truth Pointing out how the tensions in that

theory resonate with the normative ambivalence of America's liberal constitutionalism he shows that Augustine can provide successful but decidedly nonliberal grounds for the artifices and compromises characteristic of law in a liberal state

The People of the Truth Robert E. Webber, Rodney Clapp, 2001-02-06 In this provocative book a prominent theologian and a leading Christian editor speak to all Christians who have grown mistrustful of the church's involvement in religious political power plays and are seeking the way home Robert E. Webber and Rodney Clapp examine the dilemma so many Christians face what to do if you are an enthusiast for neither the New Right nor the Old Left but still take seriously the church's social and political responsibility People of the Truth offers a biblical solution to this perplexing question The authors show how American Christians have come to depend on the nation rather than the church as their primary instrument of social change and communal influence They call for the church to move beyond the dead end of civil religion to affirm the authentic role of the worshipping community in effecting social change The church should dare to lay down its life the authors write to give up its ill begotten political leverage to turn aside from success and stop counting heads or dollars to stand at the side of forgotten poor and oppressed to be a sign and a witness of humanity's insufficiency and God's all sufficiency Drawing upon the works of many esteemed theologians and historians the authors trace the growth of Christianity and offer a fresh approach to the history of the church in the world They reveal how the church's identity and vision have become confused how they can be recovered and how Christians by living out their distinctive story as a worshipping community can heal society's ills People of the Truth provides concrete examples of how the church by realigning itself with its Christ centered mandate can effectively respond to such urgent problems as poverty drug abuse violence pornography AIDS and the ever present threat of nuclear war Here is at once a summons and a guide for the church to become in fact what it has always been ideally the only people charged with proclaiming this Christ a people of the truth [Sangharakshita Complete Works](#) Sangharakshita, 2019-04-01 The nine texts in this volume composed over a period of more than thirty years show Sangharakshita's unfolding insight into the meaning significance and centrality of Going for Refuge **Reality and Wisdom** Lama Migmar Tseten, 2023-10-10 A clear and comprehensive guide to practicing the foundational Buddhist teachings of the four noble truths and how these truths can lead to the liberating insight of the wisdom gone beyond Written in a warm and accessible style by one of today's most respected Tibetan Buddhist masters Reality and Wisdom leads the reader on a journey of discovery beginning with the very first teachings of the Buddha and into the profound experience of

emptiness The first section of the book explores the bedrock Buddhist teachings of the four noble truths insights into freedom from suffering from craving which underpin all schools of Buddhism Lama Migmar presents and explores these foundational Buddhist truths with humor and insight explaining how from a Mahayana Buddhist perspective these truths serve as crucial supports for cultivating the transformative wisdom of emptiness In the book s second half Lama Migmar illuminates the terse and enigmatic lines of the Heart Sutra perhaps the most studied and revered of all Mahayana Buddhist scriptures The Heart Sutra presents the reader with a vision of reality as it is perceived by a buddha a vision underpinned by and infused with the radical flexibility and possibility of emptiness and the engagement and responsiveness of profound compassion The clarity warmth and vibrancy of Lama Migmar s writing combined with the comprehensiveness and detail of his presentations of key Buddhist teachings make this book a valuable resource for a range of readers from beginners to more advanced practitioners seeking to deepen their practice

Phenomenology and the Physical Reality of Consciousness Arthur Melnick, 2011-08-31 The predominant positive view among philosophers and scientists alike is that consciousness is something realized in brain activity This view however largely fails to capture what consciousness is like according to how it shows itself to conscious beings What this work proposes instead is that consciousness is a phenomenon that exists in and throughout the body Apart from whether or not it involves intentionality and apart from whether or not it involves awareness of the self consciousness is self intimating self revealing self disclosing Self disclosure is the definitive phenomenological character of consciousness in all its forms Taking this stance as a point of departure the book presents a specific account of what bodily field phenomenon consciousness is In this way the current stalemate in philosophy over the question of the physical reality of consciousness is broken Series A

traditionally read as someone is dying to inspire the people they love the people who are present to begin their search for a conscious life By exploring the methods described in this book a person frozen in their fear of death can melt flow and really begin to live for the first time Once you really face your fears about death says Osho your life will automatically transform and become conscious joyful and silent Osho defies all categorization As he says I am not much of a religious person I am not a saint I have nothing to do with spirituality All those categories are irrelevant about me You cannot categorize me you cannot pigeonhole me But one thing can be said that my whole effort is to help you release the energy called love intelligence If love intelligence is released you are healed
