David Garson, 2001-11-21 Describes the quantitative research process framing analytical questions developing a comprehensive outline providing a roadmap for the reader and accessing indispensable computer and program tools Supplies end of chapter checklists extensive examples and bibliographies **Outcome-Based Performance**

**Management in the Public Sector** Elio Borgonovi, Eugenio Anessi-Pessina, Carmine Bianchi, 2017-07-17 This book highlights the use of an outcome oriented view of performance to frame and assess the desirability of the effects produced by adopted policies so to allow governments not only to consider effects in the short but also the long run Furthermore it does not only focus on policy from the perspective of a single unit or institution but also under an inter institutional viewpoint This book features theoretical and empirical research on how public organizations have evolved their performance management systems toward outcome measures that may allow one to better deal with wicked problems Today wicked problems characterize most of governmental planning involving social issues These are complex policy problems underlying high risk and uncertainty and a high interdependency among variables affecting them Such problems cannot be clustered within the boundaries of a single organization or referred to specific administrative levels or ministries They are characterized by dynamic complexity involving multi level multi actor and multi sectoral challenges In the last decade a number of countries have started to develop new approaches that may enable to improve cohesion to effectively deal with wicked problems The chapters in this book showcase these approaches which encourage the adoption of more flexible and pervasive governmental systems to overcome such complex problems Outcome Based Performance Management in the Public Sector is divided into five parts Part 1 aims at shedding light on problems and issues implied in the design and implementation of outcome based performance management systems in the public sector Then Part 2 illustrates the experiences problems and evolving trends in three different countries Scotland USA and Italy towards the adoption of outcome based performance management systems in the public sector Such analyses are conducted at both the national and local government levels The third part of the book frames how outcome based performance management can enhance public governance and inter institutional coordination Part 4 deals with the illustration of challenges and results from different public sector domains Finally the book concludes in Part 5 as it examines innovative methods and tools that may support decision makers in dealing with the

challenges of outcome based performance management in the public sector Though the book is specifically focused on a research target it will also be useful to practitioners and master students in public administration

**Environmental Indicators for North America** United Nations Environment Programme, 2006 Although the environment of North America is not dissected by political borders Canada and the United States often measure environmental conditions and report on them using different indicators This report examines the environmental indicators used by both nations and based on analysis of current research into common methodologies used in national regional and global environmental reporting it goes on to draw lessons for the development of bilateral indicators to cover the North American region

**Critical Reflections on Cities in Southeast Asia** Tim Bunnell, Lisa Barbara Welch Drummond, Ho Kong Chong, 2002 Critical Reflections draws together the multi disciplinary research of scholars working in on cities across Southeast Asia The fourteen essays collected in the volume are organised into three thematic sections re conceptualisation competition and intervention Collectively these reflections contribute to and interrogate the expanding urban and regional studies literature The volume constitutes a critical corrective to the existing literature which all too often seeks to diagnose

contemporary urban trends everywhere from a small number of mostly Western paradigmatic cases Yet while acknowledging the increasing interconnectedness and shared global orientation of most cities in Southeast Asia the volume is wary of positing an equally generalising regional model Individually these essays attend to the diversity of contemporary urban experiences in Southeast Asia      *Tourism and Development* Richard Sharpley, David J. Telfer, 2002-04-30 The development of tourism is frequently justified on the basis of its potential contribution to the broader socio economic development of destination areas Indeed tourism is generally considered an effective vehicle of development yet the meaning and objectives of development and the extent to which it can be achieved through tourism is rarely questioned Moreover the relationship between tourism and development remains an under represented area of study and research This book addresses this gap in the literature by challenging many of the widelyheld assumptions about tourism s developmental contribution In the first part a theoretical link is established between the discrete yet interconnected disciplines of tourism studies and development studies More specifically the meaning of development and successive development paradigms are considered within the context of tourism This provides a conceptual foundation for the second part of the book which addresses a number of fundamental issues related to tourism s potential contribution to development These include issues of economic development regional development socio cultural development and environmental development Finally the third part focuses upon barriers to tourism induced development arguing that a new political economy of tourism the consumption of tourism and the dominance of the sustainable development paradigm represent significant counterpoints to overly simplistic models of tourism s potential contribution to development      *The Sustainable Business Blueprint* Zabihollah Rezaee, 2024-08-14 Understanding how to build and manage a sustainability business plan has become a business imperative as investors demand regulators require and stakeholders increasingly expect companies to report their financial economic sustainability performance ESP and non financial environmental social and governance ESG sustainability information This book provides both the rationale for and key practical steps in how to approach business sustainability factors of planning performance risk reporting and assurance This comprehensive book covers all the areas that a business would need to embed articulate and execute a strategy of profit with purpose in promoting shared value creation for all stakeholders It addresses drivers sources and international guidelines GRI IIRC SASB FASB PCAOB IAASB ISSB for prioritising business sustainability factors and establishing the link between ESG performance and financial performance It presents key performance indicators KPIs of ESP and ESG dimensions of sustainability performance It also provides templates for performance risk and disclosure presenting cases and examples of why to disclose ESG performance what to disclose and where and how to disclose ESG performance information For businesses wanting a detailed understanding of how to deliver on these important areas including boards of directors senior management financial officers internal auditors external auditors legal counsel investors and regulators this book is an invaluable resource      *Investment Performance Measurement* William Bain, 1996-02-28 This

book is split into four distinct sections to provide a complete account of investment performance measurement The first section examines the development of the concept of performance measurement with the evolution of benchmarks and the increasing sophistication of performance analysis The practical implications of performance measurement are tackled in the second section with particular emphasis on the calculations that can be used to derive a rate of return for a fund and risk is also examined in detail The third section covers the performance measurement of pension funds over the last 25 years and the lessons that can be learned about the investment performance and measurement process The final section considers the future prospects for performance measurement and proposes potential future directions for the measurement of investment performance

**Advances in Economic Measurement** Duangkamon Chotikapanich, Alicia N. Rambaldi, Nicholas Rohde, 2022-10-03 The purpose of this book is to honour D S Prasada Rao and his many outstanding contributions to economic measurement including index number methods for international comparisons of prices real incomes output and productivity stochastic approaches to index numbers purchasing power parities for the measurement of regional and global inequality and poverty and measurement of income and economic insecurity This book brings together contributions by well known and influential researchers in the field of economic measurement with special focus on topics in productivity measurement Part I income and health inequality inequality of opportunity and measurement of insecurity Part II index number theory and applications to consumer price index numbers international comparisons of prices and real expenditures and housing price index numbers Part III The chapters are authored by eminent researchers including Conchita D Ambrosio Bert Balk Erwin Diewert Robert Hill Robert Inklaar Knox Lovell Robin Sickles Jacques Silber and Marcel Timmer The contributed papers offer in depth reviews of the state of the art in these areas with a focus on the existing methods and applications making the volume an invaluable source for both experienced researchers and new researchers including PhD and other postgraduate students

**Integrated Thinking For Long-Term Value Creation** Sabrina Roszak, Raluca Sandu, 2024-10-09 This book structured in two parts gives a 360 degree view on integrated thinking the foundation of integrated reporting a rising trend in corporate reporting practice This topic is particularly interesting in the context of new

regulatory landscape such as the Corporate Sustainability Reporting Directive CSRD in the EU shaped by EFRAG's developments alongside the IFRS Foundation's efforts towards global sustainability standards both of which are shaping contemporary debates on sustainable value creation. The first part builds a framework for integrated thinking in a multidisciplinary perspective while the second part revises the framework in the light of practices by bridging the gap with research findings in this field to date. The book concludes with the current shift of paradigm and the need to address managerial questions in their complexity building on knowledge across different specialized disciplines. The book will be of specific interest to accounting and finance teams and professional accounting bodies alongside those teaching or doing research within the fields of finance and accounting.
