Shocking the Conscience of Humanity Margaret M. deGuzman, 2020-04-13 The most commonly cited justification for international criminal law is that it addresses crimes of such gravity that they shock the conscience of humanity From decisions about how to define crimes and when to exercise jurisdiction to limitations on defences and sentencing determinations gravity rhetoric permeates the

discourse of international criminal law Yet the concept of gravity has thus far remained highly undertheorized This book uncovers the consequences for the regime s legitimacy of its heavy reliance on the poorly understood idea of gravity Margaret M deGuzman argues that gravity s ambiguity may at times enable a thin consensus to emerge around decisions such as the creation of an institution or the definition of a crime but that increasingly it undermines efforts to build a strong and resilient global justice community The book suggests ways to reconceptualize gravity in line with global values and goals to better support the long term legitimacy of international criminal law

Spatial Formats under the Global Condition Matthias Middell, Steffi Marung, 2019-08-05 Contributions to this volume summarize and discuss the theoretical foundations of the Collaborative Research Centre at Leipzig University which address the relationship between processes of re spatialization on the one hand and the establishment and characteristics of spatial formats on the other hand Under the global condition spatial formats are products of collective negotiations on the most effective and widely acceptable balance between the claim for sovereignty and the need for interconnectedness *British Contributions to International Law, 1915-2015 (Set)* Jill Barrett, Jean-Pierre Gauci, 2020-12-15 The original documentary sources of key British contributions to international law spanning the past 100 years are collected for the first time in this unique anthology set of 4 books These range from seminal writings of highly qualified British scholars of international law judgments of British courts opinions of British judges on international courts and tribunals and pleadings by British advocates treaties concluded and statements made by the United Kingdom government British contributions to international legal drafting legislation and parliamentary debates to an imaginative selection of other forms of literature The Editors introduction explains why of all the multifarious British contributions these are the ones that have had the most enduring impact upon the development of international law from a global perspective The sheer quality in these texts speaks for itself these are the must read and must keep classic pieces for all interested in international law and the uniquely British contributions to it Please also see the following related titles *British Influences on International Law 1915 2015 The Role of Legal Advisers in International Law* **NGOs** Thomas Davies, 2014-01-11 In the first historical account of international NGOs from the French Revolution to the present Thomas Davies places the contemporary debate on transnational civil society in context In contrast to the conventional wisdom which sees transnational civil society as a recent development taking place along a linear trajectory he explores the long history of international NGOs in terms of a cyclical process characterized by three major waves the era to 1914 the inter war years and the period since the Second World War The breadth of transnational civil society activities explored is unprecedented in its diversity from business associations to humanitarian organizations peace groups to socialist movements feminist organizations to pan nationalist groups The geographical scope covered is also extensive and the analysis is richly supported with reference to a diverse array of previously unexplored sources By revealing the role of civil society rather than governmental actors in the major transformations of the past two and a half centuries this book is for anyone interested in obtaining a new perspective on world

history The analysis concludes in the second decade of the twenty first century providing insights into the trajectory of transnational civil society in the post 9 11 and post financial crisis eras

The Commonwealth and the European Union in the 21st Century Melanie Torrent, Virginie Roiron, 2018-02-02 Should the United Kingdom remain a member of the European Union Is the Commonwealth of Nations still relevant for its very diverse member states ranging from small island states to Australia and India In contemporary British politics both organisations have come under fierce criticism sometimes leading to hasty assessments of historical experiences and current policies Given the fact that the United Kingdom Cyprus and Malta are members of both organisations and that Brexit would have far ranging consequences much beyond British shores relations between the EU and the Commonwealth have featured surprisingly rarely in major debates of international policy This edited volume suggests possible and even desirable connections between the two organisations by investing current contacts fault lines external critique and outside perspectives Focusing on soft power development humanitarianism and modes of intervention the authors investigate disputes over international norms and trade patterns Through global approaches and specific case studies drawn from Asia Africa and the Caribbean they demonstrate where opportunities for international cooperation were missed and how useful partnerships might be found The EU and the Commonwealth are undoubtedly very different organisations but distinctions can provide grounds for meaningful relevant cooperation More strategic dialogue between the Commonwealth and the EU this volume argues would be a valuable asset for the two international organisations their member states and their citizens This book was originally published as a special issue of The Round Table The Commonwealth Journal of International Affairs

The Institution of International Order Simon Jackson, Alanna O'Malley, 2018-07-11 This volume delivers a history of internationalism at the League of Nations and the United Nations UN with a focus on the period from the 1920s to the 1970s when the nation state ascended to global hegemony as a political formation Combining global regional and local scales of analysis the essays presented here provide an interpretation of the two institutions and their complex interrelationship that is planetary in scale but also pioneeringly multi local Our central argument is that although the League and the UN shaped internationalism from the centre they were themselves moulded just as powerfully by internationalisms that welled up globally far beyond Geneva and New York City The contributions are organised into three broad thematic sections the first focused on the production of norms the second on the development of expertise and the third on the global re ordering of empire By showing how the ruptures and continuities between the two international organisations have shaped the content and format of what we now refer to as global governance the collection determinedly sets the Cold War and the emergence of the Third World into a single analytical frame alongside the crisis of empire after World War One and the geopolitics of the Great Depression Each of these essays reveals how the League of Nations and the United Nations provided a global platform for formalising and proliferating political ideas and how the two institutions generated new spectrums of negotiation and dissidence and re codified norms As an ensemble the book shows how the League of Nations and the United Nations constructed and progressively re fashioned the basic building blocks of international society right across the twentieth century Developing the new international history's view of the League and UN as dynamic complex forces the book demonstrates that both organisations should be understood to have played an active role not just in mediating a world of empires and then one of nation states but in forging the many principles and tenets by which international society is structured

International Communism and Transnational Solidarity: Radical Networks, Mass Movements and Global Politics, 1919-1939, 2016-11-21 This book provides an analysis of the articulation and organisation of radical international solidarity by organisations that were either connected to or had been established by the Communist International Comintern such as the International Red Aid the International Workers Relief the League Against Imperialism the International of Seamen and Harbour Workers and the International Trade Union Committee of Negro Workers The guiding light of these organisations was a radical interpretation of international solidarity usually in combination with concepts and visions of gender race and class as well as anti capitalism anti imperialism anti colonialism and anti fascism All of these new transnational networks form a controversial part of the contemporary history of international organisations Like the Comintern these international organisations had an ambiguous character that does not fit nicely into the traditional typologies of international organisations as they were neither international governmental organisations nor international non governmental organisations They constituted a radical continuation of the pre First World War Left and exemplified an

attempt to implement the ideas and movements of a new type of radical international solidarity not only in Europe but on a global scale Contributors are Gleb J Albert Bernhard H Bayerlein Kasper Brask n Fredrik Petersson Holger Weiss
