character of the Resistance and the role of Iran It draws attention to these broad leitmotifs underpinning each particular history that are key to understanding both the parts and the whole A single essentially colonial impetus drives each particular US aggression from Libya to Afghanistan These hybrid wars utilize propaganda offensives economic siege warfare terrorist proxies direct invasions and military occupations followed by repression via client states The aim is to keep resistance forces fragmented Just as each aggression forms part of a broader Washington strategy similarly the integration of the resistance in particular remains critical to its success The Resistance has a common character but no idealized personality or ideology However the common features are a demand for popular self determination and for accountable social structures that serve broad social interests Western policy has been worse than a crime it s been a blunder Tim Anderson s epic study shows what a crime what a blunder it has been And how ugly the monster which now stalks the land My land your land the whole of humanity It is a must read GEORGE GALLOWAY British politician Axis of Resistance will take its place alongside the few books worth reading on how and by whom the flickering lights of the imperial twilight of the West in the Middle East were finally extinguished DR JEREMY SALT Middle East historian former professor Melbourne Universit
