Hair Tells a Story Margo Maine,2023-01-16 The body is the canvas upon which women paint their secrets their hopes and dreams pain and disappointments Hair has long played a role in the struggles for power self determination and autonomy serving as

a nonverbal language that represents women's lives. However, pain, anxiety, racism, sexism, and rigid beauty standards can too often underlie these stories. Modern events like the Black Lives Matter movement and the COVID-19 pandemic have exposed societal barriers that prevent the free and equitable expression of hair. Although countless books and articles address body image, the personal psychology and the meaning of hair have been missing. This work empowers women to understand complex hair-head-heart connections and pressures. Above all, the text emphasizes that hair is never just hair.
