Glasgow Caledonian University Its Origins And Evolution:

Glasgow Caledonian University Carole McCallum,Willie Thompson,1998 In 1993 Queen s College and Glasgow Polytechnic combined to create Glasgow Caledonian University This book examines the very different histories of both these establishments and the new university which was formed from them Edinburgh History of Education in Scotland Robert Anderson,2015-05-19 This book investigates the origins and evolution of the main institutions of Scottish education bringing together a range of scholars each an expert on his or her own period and with interests including but also ranging beyond the history of education **British Universities Past and Present** Robert Anderson,2006-11-27 Presenting a concise history of British universities and their place in society over eight centuries this book gives an analysis of the university problems and policies as seen in the light of that history It explains how the modern university system has developed since the Victorian era giving attention to changes in policy since the WWII *Social Change in the History of British Education* Joyce Goodman,Gary McCulloch,WILLIAM RICHARDSON,2013-09-13 This work provides an overall review and analysis of the history of education and of its key research priorities in the British context It investigates the extent to which education has contributed historically to social change in Britain how it has itself been moulded by society and the needs and opportunities that remain for further research in this general area Contributors review the strengths and limitations of the historical literature on social change in British education over the past forty years ascertain what this literature tells us about the relationship between education and social change and map areas and themes for future historical research They consider both formal and informal education different levels and stages of the education system the process and experience of education and regional and national perspectives They also engage with broader discussions about theory and methodology The collection covers a large amount of historical territory from the sixteenth century to the present including the emergence of the learned professions the relationship between society and the economy the role of higher technological education the historical experiences of Ireland Scotland and Wales the social significance of teaching and learning and the importance of social class gender ethnicity and disability It involves personal biography no less than broad national and international movements in its considerations This book will be a major contribution to research as well as a general resource in the history and historiography of education in Britain **When Kitty Came To London** Teresa Pyott,2024-04-28 In 1952 Teresa Pyott s father received an inheritance including a London house from a woman to whom he was not related Out of the Burning House Sandy Hobbs,Willie Thompson,2011-05-25 This unique collaboration between a Marxist historian and behaviourist psychologist is a vivid picture of the cultural milieu they experienced at Aberdeen University and of social forces often overlooked in histories of the time Scientific Humanism The New Left and precursors of the Women s Liberation Movement As students together in the MacMillan Era they shared an attachment to socialist secular and scientific values Like Brecht they saw those unwilling to commit to revolutionary socialism as like people in a burning house asking if it is

raining outside before they agree to escape They followed different paths in their subsequent lives one became an historian and long time member of the Communist Party the other although a radical behaviourist unusually focussed on contemporary folklore and child labour

Ore Deposits in an Evolving Earth G.R.T. Jenkin,P.A.J. Lusty,I. McDonald,M.P. Smith,A.J. Boyce,J.J. Wilkinson,2015-01-02

Ore deposits form by a variety of natural processes that concentrate elements into a volume that can be economically mined. Their type, character and abundance reflect the environment in which they formed and thus they preserve key evidence for the evolution of magmatic and tectonic processes, the state of the atmosphere and hydrosphere and the evolution of life over geological time. This volume presents 13 papers on topical subjects in ore deposit research viewed in the context of Earth evolution. These diverse yet interlinked papers cover topics including controls on the temporal and spatial distribution of ore deposits, the sources of fluid gold and other components of orogenic gold deposits, the degree of oxygenation in the Neoproterozoic ocean, bacterial immobilization of gold in the semi arid near surface environment and mineral resources for the future including issues of resource estimation, sustainability of supply and the criticality of certain elements to society.

The Later Proterozoic Torridonian Rocks of Scotland A. D. Stewart, 2002 *Vilfredo Pareto* Joseph V. Femia, 2016-02-11

This collection examines the work of the Italian economist and social theorist Vilfredo Pareto highlighting the extraordinary scope of his thought which covers a vast range of academic disciplines. The volume underlines the enduring and contemporary relevance of Pareto's ideas on a bewildering variety of topics while illuminating his attempt to unite different disciplines such as history and sociology in his quest for a holistic understanding of society. Bringing together the world's leading experts on Pareto, this collection will be of interest to scholars working in the fields of sociology and social psychology, monetary theory and risk analysis, philosophy and intellectual history and political science and rhetoric. *Irish Identities in Victorian Britain* Roger Swift, Sheridan Gilley, 2013-10-31 Recent studies of the experiences of Irish migrants in Victorian Britain have emphasized the significance of the themes of change, continuity, resistance and accommodation in the creation of a rich and diverse migrant culture within which a variety of Irish identities co-existed and sometimes competed. In contributing to this burgeoning historiography, this book explores and analyses the complexities surrounding the self-identity of the Irish in Victorian Britain which differed not only from place to place and from one generation to another but which were also variously shaped by issues of class and gender and politics and religion. Moreover, and given the tendency for Irish ethnicity to mutate through a comparative study of the Irish in Britain and the United States, the book suggests that in order to preserve their Irishness the Irish often had to change it. Written by some of the foremost scholars in the field, these original essays not only shed new light on the history of the Irish in Britain but are also integral to the broader study of the Irish Diaspora and of immigrants and minorities in multicultural societies. This book was previously published as a special issue of *Immigrants and Minorities*.
