The Elamite World assembles a group of 40 international scholars to contribute their expertise to the production of a solid lavishly illustrated English language treatment of Elamite civilization. It covers topics such as its physical setting, historical development, languages and people, material culture, art, science, religion, and society, as well as the legacy of Elam in the Persian empire and its presence in the modern world. This comprehensive and ambitious survey seeks for Elam, hardly a household name, a noteworthy place in our shared cultural heritage. It will be both a valuable introductory text for a general audience and a definitive reference source for students and academics. *The Lie Became Great* Muscarella, 2022-07-18

*The Lie Became Great* explores the closed society of international plunderers and forgers which thrives as a subculture of the Art World. These multi-cultural denizens include antiquity dealers, collectors, museum curators, forgers working in conjunction with auction houses, museums, and galleries. Forgeries are made to be sold and a great number pass into the Art World collections, exhibitions, catalogues, and popular and scholarly journals, complete with their fabricated stories of excavation and how they were found. *The Lie Became Great* documents the success and activities of one small corner of this vast network. Artifacts from the Ancient Near East with hundreds of detailed catalogue entries of forgeries. The participants in this society gain money, prestige, power, position as they distort and irretrievably damage the true story of our cultural heritage. STYX PUBLICATIONS

*History, Texts and Art in Early Babylonia* Piotr Steinkeller, 2017-06-12. These essays represent a summation of Piotr Steinkeller's decades-long thinking and writing about the history of third millennium BCE Babylonia and the ways in which it is reflected in ancient historical and literary sources and art, as well as of how these written and visual materials may be used by the modern historian to attain, if not a reliable record of history, a comprehensive picture of how the ancients understood their history. The book focuses on the history of early Babylonian kingship as it evolved over a period from Late Uruk down to Old Babylonian times and the impact of the concepts of kingship on contemporaneous history writing and visual art. Here comparisons are drawn between Babylonia and similar developments in ancient Egypt, China, and Mesoamerica. Other issues treated are the intersection between history writing and the scholarly lexical and literary traditions in early Babylonia and the question of how the modern historian should approach the study of ancient sources of historical nature. Such a broad and comprehensive overview is novel in Mesopotamian studies to date. As such, it should contribute to an improved and more nuanced understanding of early Babylonian history. *Gudea's Temple Building* Suter, 2021-12-28. Gudea of Lagash, who ruled at the end of the third millennium B.C., wanted to be remembered as a temple builder. An extensive narrative inscribed on two huge clay cylinders, one of the longest and best preserved Sumerian texts, recounts his construction of the temple of Ningirsu, Lagash's patron deity. More than sixty sculpted limestone fragments belong to several stelae erected in the temples Gudea built and depict their construction. A large number of inscribed and often sculpted artifacts provide additional information on Gudea's activities. This study treats this visual and textual material as a coherent corpus for the first time. It analyses contents, narrative structure, composition, and message. Text and image are

compared to elucidate the characteristics of each medium and to arrive at a comprehensive picture of the royal rhetoric of the time The book includes a catalogue of all artifacts and a translation of selected text passages **Congress Volume Jerusalem 1986** J.A. Emerton, 2014-09-03 **Gudea and His Dynasty** Sibylle Edzard, Dietz Otto Edzard, 1997-01-01 This volume of RIM focuses on the Second Dynasty of Lagas and concentrates mainly on the inscriptions of Cylinders A and B of the most important king of that dynasty Gudea **Congress Volume** International Organization for the Study of the Old Testament.
