International Handbook of Violence Research Wilhelm Heitmeyer, John Hagan, 2005-08-12 An international manual is like a world cruise a once in a lifetime experience All the more reason to consider carefully whether it is necessary This can hardly be the case if previous research in the selected field has already been the subject of an earlier review or even several competing surveys On the other hand more thorough study is necessary if the intensity and scope of research are increasing without comprehensive assessments That was the situation in

Western societies when work began on this project in the summer of 1998 It was then too that the challenges emerged any manual especially an international one is a very special type of text which is anything but routine It calls for a special effort the state of the art has to be documented for selected subject areas and its presentation made as compelling as possible The editors were delighted therefore by the cooperation and commitment shown by the eighty one contributors from ten countries who were recruited to write on the sixty two different topics by the constructive way in which any requests for changes were dealt with and by the patient response to our many queries This volume is the result of a long process It began with the first drafts outlining the structure of the work which were submitted to various distinguished colleagues Friedheim Neidhardt of Berlin Gertrud Nunner Winkler of Munich and Roland Eckert of Trier to name only a few supplied valuable comments at this stage

Bearing Witness Sandra L Bloom, Michael Reichert, 2014-02-25 Bearing Witness Violence and Collective Responsibility offers a unique layperson's introduction to the scope and causes of violence and trauma theory and suggests ways we can all work to attack these causes Upon completing this work you will have a better understanding of the social causes of the violence epidemic and concrete suggestions for its long term control Bearing Witness addresses the cycle of violence by discussing some of the biological psychological social and moral issues that go into determining whether a person will end up as a victim perpetrator or bystander to violent events and what happens to us when we are in one or all three of these roles The authors look at a number of intersecting factors that play interdependent roles in creating a culture that promotes supports and even encourages violence Specifically you will gain invaluable insight into trauma theory and traumatogenic forces backdrops against which the chances of exposure to violence and the use of violence as a problemsolver are increased normal human development in the context of attachment theory and what occurs as a result of disrupted attachment bonds how rapid changes in modern society and the breakdown of the traditional family structure contribute to a level of social stress that promotes violence violence in the family in the workplace and in the schools all places to which people turn for security social responses to violence the ways in which certain responses decrease or increase the likelihood of violence the unhealthy balance of power between the genders and how violence or the threat of violence maintains this imbalance how our cultural standard of disavowing our normal emotional experience sets the stage for repeated and regular empathic failure which leads to violence A framework for understanding the various aspects of the problem of violence Bearing Witness delves into the various aspects of trauma what trauma does to the body the mind the emotions and relationships before beginning to formulate proposals for initiating processes that lead to problemsolving Once this knowledge base has been established the authors give you the beginnings of an outline for reorganizing society with the aim of establishing a community that is responsive to the basic human need for safety and peace

The Idea of Human Rights Michael J. Perry, 1998-01-08 Inspired by a 1988 trip to El Salvador Michael J Perry s new book is a personal and scholarly exploration of the idea of human rights Perry is one of our nation s leading authorities on the relation of morality including religious morality to politics and law He seeks in this book to disentangle the complex idea of human rights by way of four probing and interrelated essays The initial essay which is animated by Perry s skepticism about the capacity of any secular morality to offer a coherent account of the idea of human rights suggests that the first part of the idea of human rights the premise that every human being is sacred or inviolable is inescapably religious Responding to recent criticism of rights talk Perry explicates in his second essay the meaning and value of talk about human rights In his third essay Perry asks a fundamental question about human rights Are they universal In addressing this question he disaggregates and criticizes several different varieties of moral relativism and then considers the implications of these different relativist positions for claims about human rights Perry turns to another fundamental question about human rights in his final essay Are they absolute He concludes that even if no human rights understood as moral rights are absolute or unconditional some human rights understood as international legal rights are and indeed should be absolute In the introduction Perry writes Of all the influential indeed formative moral ideas to take center stage in the twentieth century like democracy and socialism the idea of human rights which again in one form or another is an old idea is for many the most difficult It is the most difficult in the sense that it is for many the hardest of the great moral ideas to integrate the hardest to square with the reigning intellectual assumptions of the age especially what Bernard Williams has called Nietzsche s thought

There is not only no God but no metaphysical order of any kind For those who accept Nietzsche's thought can the idea of human rights possibly be more than a kind of aesthetic preference In a culture in which it was widely believed that there is no God or metaphysical order of any kind on what basis if any could the idea of human rights long survive The Idea of Human Rights Four Inquiries will appeal to students of many disciplines including but not limited to law philosophy religion and politics

Universal Rights, Systemic Violations, and Cultural Relativism in Morocco O. Glacier, 2013-11-06 Are universal rights bound to colonialism Are they culturally imperialistic By juxtaposing Morocco's practice of torture with its discourse of cultural relativism this study links popular resistance to universal rights to a deliberate politics that delegitimizes those very same rights requiring a new more inclusive system of universalism

Sin and Forgiveness Kay Carmichael, 2019-09-16 Originally published in 2003 Western attitudes to crime were in the past rooted in concepts of sin and therefore of hopes for redemption and forgiveness So what happens to offenders and society as a whole in a world where people no longer talk of sin but of evil If hopes of redemption go too will revenge take the place of forgiveness Kay Carmichael explores these dilemmas in this topical and provocative book She traces the stories of Myra Hindley Mary Bell Sarah Payne James Bulger and his killers comparing public responses to such crimes in various Western countries Art and literature are examined for the light they throw on the evolution of our ideas about sin and forgiveness from Rembrandt to Nathaniel Hawthorne Samuel Becket Dali and writings inspired by the Holocaust Turning to our own day Carmichael discusses the emergence of structural sins or iniquities in which we may all find ourselves involved poverty slavery violence and war are her themes Her analysis leaves her sceptical about many contemporary appeals for forgiveness but hopeful about ideas of restorative justice

The Compassionate Revolution David Edwards, 1998-05-07 An enlightening examination of the ways our capitalist system depends on three corrupt principles greed hatred and ignorance After exploring in *Free to be Human* the ways the mass media distorts our understanding of many personal ethical and spiritual issues to make us willing to accept the irrational values of corporate consumerism political writer David Edwards is back with another powerful read In *The Compassionate Revolution* David builds on his argument showing how our capitalist system is dependent on the promotion of the three Buddhist Poisons of Greed Hatred and Ignorance greed for profit at any cost in terms of human suffering hatred of foreign obstacles to profit ignorance of the cosy link between Western corporations and Third World dictators helping to protect Western profits Western activists need to recognise the truly revolutionary potential of the Buddhist conviction that compassion is the basis of all happiness The antidote to exploitative social systems is rational awareness rooted in unconditional kindness and compassion for all By marrying the political arguments of activists like Noam Chomsky and Howard Zinn with the compassionate awareness of Buddhist writers such as Aryasura Geshe Gyeltsen and Stephen Batchelor David shows how we can instigate a compassionate revolution in which the only enemies and casualties are greed hatred and ignorance

Voices from S-21 David Chandler,2023-09-01 The horrific torture and execution of hundreds of thousands of Cambodians by Pol Pot s Khmer Rouge during the 1970s is one of the century s major human disasters David Chandler a world renowned historian of Cambodia examines the Khmer Rouge phenomenon by focusing on one of its key institutions the secret prison outside Phnom Penh known by the code name S 21 The facility was an interrogation center where more than 14 000 enemies were questioned tortured and made to confess to counterrevolutionary crimes Fewer than a dozen prisoners left S 21 alive During the Democratic Kampuchea DK era the existence of S 21 was known only to those inside it and a few high ranking Khmer Rouge officials When invading Vietnamese troops discovered the prison in 1979 murdered bodies lay strewn about and instruments of torture were still in place An extensive archive containing photographs of victims cadre notebooks and DK publications was also found Chandler utilizes evidence from the S 21 archive as well as materials that have surfaced elsewhere in Phnom Penh He also interviews survivors of S 21 and former workers from the prison Documenting the violence and terror that took place within S 21 is only part of Chandler s story Equally important is his attempt to understand what happened there in terms that might be useful to survivors historians and the rest of us Chandler discusses the culture of obedience and its attendant dehumanization citing parallels between the Khmer Rouge executions and the Moscow Show

Trails of the 1930s Nazi genocide Indonesian massacres in 1965-66 the Argentine military's use of torture in the 1970s and the recent mass killings in Bosnia and Rwanda In each of these instances Chandler shows how turning victims into others in a manner that was systematically devaluing and racist made it easier to mistreat and kill them More than a chronicle of Khmer Rouge barbarism *Voices from S 21* is also a judicious examination of the psychological dimensions of state sponsored terrorism that conditions human beings to commit acts of unspeakable brutality The horrific torture and execution of hundreds of thousands of Cambodians by Pol Pot's Khmer Rouge during the 1970s is one of the century's major human disasters David Chandler a world renowned historian of Cambodia examines the Khmer Rouge phenomenon International Developments in Investigative Interviewing Tom Williamson, Becky Milne, 2013-01-11 This book examines international developments in investigative interviewing It analyses the cases and other factors leading to the paradigm shift in a number of countries it considers issues that are of current interest to practitioners and academics including the continuing calls for the use of torture whether it is possible to detect deception and the contribution of investigative interviewing methods to concepts of therapeutic and restorative justice The book responds to the recognition that there are currently no international human rights instruments that relate specifically to custodial questioning whilst also offering a critical analysis of the attempts to influence investigator and prosecutor behaviour by recourse to human rights This book will be essential reading for practitioners designing and delivering investigative interviewing training programmes as well as academics and students studying international criminal justice **The Church As the Family of God** Lievin Engbanda Lingonge, 2004-11 This book is intended to be a contribution to the Congolese church's response to the reconciliation and peacemaking process The author's assumption is that when the local church in the Congo becomes a church family it will be able to integrate the reconciliation strategies emerging from the culture of the people into the theological reflection and pastoral praxis for peacemaking and reconciliation Concretely the Congolese church which is committed to reconciliation and peacemaking has to become like an extended family a lineage a clan or a tribe Through cultural and Christian rituals the church must bring together a people divided by conflicts and violence States of Violence and the Civilising Process Rob Watts, 2016-05-30 This book offers a distinctive and novel approach to state sponsored violence one of the major problems facing humanity in the previous and now the twenty first century It addresses the question how is it possible that large numbers of ordinary men and women are able to do the killing torturing and violence that defines crimes against humanity In his striking analysis Rob Watts shows how and why states of all political persuasions engage in crimes against humanity including genocide homicide torture kidnapping illegal surveillance and detention This book advances a new interpretive frame It argues against the civilizing process model showing how both states and social sciences like sociology and criminology have been complicit in splitting the social from the ethical while accepting too complacently that modern states are the exemplars of morality and rationality The book makes the case that it is possible to bring together in the one interpretative frame our understanding of

social action involving personal motivation and ethical responsibility and patterns of collective social action operating in terms of the agencies of the State Rob Watts identifies and charts the pathways of action and practical i.e. ethical judgements which the perpetrators of these crimes against humanity constructed for themselves to make sense of what they were doing At once challenging and highly accessible the book reveals the policy making processes that produce state crime as well as showing how ordinary people do the state's dirty work
