Global Agenda Issues And Perspectives:

The Global Agenda Charles W. Kegley, Eugene R. Wittkopf, 1998 A reader by top scholars The Global Agenda is incisive in its coverage of key concepts issues and theoretical and prescriptive approaches to the interpretation of world politics The readings in this top selling book are broad based balanced and are categorized into four areas that build on the distinction between high and low politics Global Agenda Charles W. Kegley, 2001-05 A reader by top scholars The Global Agenda is incisive in its coverage of key concepts issues and theoretical and prescriptive approaches to the interpretation of world politics The readings in this top selling book are broad based balanced and are categorized into four areas that build on the distinction between high and low politics *The Global Agenda* Charles W. Kegley, Eugene R. Wittkopf, 1988-01-01 A reader by top scholars The Global Agenda is incisive in its coverage of key concepts issues and theoretical and prescriptive approaches to the interpretation of world politics The readings in this top selling book are broad based balanced and are categorized into four areas that build on the distinction between high and low politics *Preparing Africa for the Twenty-First Century* John Mukum Mbaku, 2018-12-20 First published in 1999 this volume is written by seasoned African scholars and is intended to make a significant contribution to the debate on peaceful coexistence and sustainable development in the continent The book contains a very refreshing rigorous informative and multidisciplinary analysis of the transition in Africa and provides practical and effective policy options for Africans It breaks new ground in that it emphasizes the importance of institutions to economic growth and development in Africa As such it differs significantly from previous efforts which have tended to blame Africa's underdevelopment on incompetent ill informed and poorly educated leadership While agreeing that the shortage of competent and skilled technocrats has been a significant problem for many African countries during the last four decades the contributors argue that the most critical determinant of poverty and deprivation in the continent has been the absence of institutional arrangements that enhance the creation of wealth and allow ethnic and other social cleavages to live together peacefully Thus as Africans prepare their societies for the new century the first line of business should be state reconstruction a task that was supposed to have been undertaken shortly after independence but was never accomplished The main purpose of such an exercise is for each African country to design and adopt institutional arrangements that enhance peaceful coexistence of groups the creation of wealth and sustainable development *The 1992 Project and the Future of Integration in Europe* Dale L. Smith, James Lee Ray, 2016-09-16 The term 1992 Project refers to the portion of the 1987 Single European Act that commits the European Community to the completion of a single integrated market by 1992 The project has brought about a dramatic revival of interest in the EC and this volume is a product of that revival It provides evaluations and estimates of the future of the integration process and of the EC itself The contributors share two broad themes The first is a view of the integration process as a multilevel game The second is consideration of the consequences of that process **The Global Agenda** Charles W. Studies in International Relations and Politics William T. Bagatelas, Getnet Tamene, David Reichardt, Bruno Sergi, 2010-10-28 The book represents a major examination regarding the current practice of international relations and world politics It analyzes the international relations of large medium and smaller sized actors and how they influence the larger dynamics and ebb and flow of the international system While assessing the perspectives of 21st century international systems it also examines how relations between actors may improve or worsen surely the most timely issue presently facing global and relational politics Through globalization the concept of a more balanced version of the American Dream has extended worldwide Irrespective of wealth or poverty globalization's promise of prosperity has been adopted eagerly despite uneven progress along the way Together with the larger realities of Neo Liberal thinking and influence where global and cyber markets have evolved with little supervision we have seen a move from enlightened self interest to the reality of pure self interest This book addresses the larger ethical implications of this global trend *Regionalism, Globalisation and International Order* Jens-Uwe Wunderlich, 2016-03-23 New regionalism and globalization have been prominent themes in academic and political debates since the beginning of the 1990s Despite the considerable amount of scholarly attention that the new regionalism has received in recent years its full empirical and theoretical potential has yet to be fully investigated This illuminating study provides an overview of new avenues in theorizing regionalism and proposes a consolidated framework for analysis and comparison Offering a comparative historical perspective of European and Southeast Asian regionalism it presents new and imaginative insights into the theory and practice of regionalism and the links between regional developments globalization and international order *International Environmental Law, Policy, and Ethics* Alexander Gillespie, 2014-08-21 This second edition of International Environmental Law Policy and Ethics revises and expands this groundbreaking study into the question of why the environment is protected in the international arena This question is rarely asked because it is assumed that each member of the international community wants to achieve the same ends However in his innovative study of international environmental ethics Alexander Gillespie explodes this myth He shows how nations like individuals create environmental laws and policies which are continually inviting failure as such laws can often be riddled with inconsistencies and be ultimately contradictory in purpose Specifically he seeks a nexus between the reasons why nations protect the environment how these reasons are reflected in law and policy and what complications arise

from these choices This book takes account of the numerous developments in international environmental law and policy that have taken place the publication of the first edition most notably at the 2002 World Summit on Sustainable Development and the 2012 Rio 20 United Nations Conference on Sustainable Development Furthermore it addresses recent debates on the economic value of nature and the problems of the illegal trade in species and toxic waste The cultural context has also been considerably advanced in the areas of both intangible and tangible heritage with increasing attention being given to conservation wildlife management and the notion of protected areas The book investigates the ways in which progress has been made regarding humane trapping and killing of animals and how in contrast the Great Apes initiative and similar work with whales have failed Finally the book addresses the fact that while the notion of ecosystem management has been embraced by a number of environmental regimes it has thus far failed as an international philosophy

A Changing United Nations W. Knight, 2000-10-19 The United Nations is at a critical juncture It is faced with two distinct choices to remain a decision frozen in time or to develop a long term adaptation agenda and strategy that would allow it to be a relevant institution of global governance for the twenty first century Reform and reflexive institutional adjustments have failed to address underlying problems facing this organization After fifty five years of existence it is still considered an inefficient and ineffective world body Worse yet its relevance is being questioned This study offers a critique of existing UN change processes and then shifts focus to considerations of institutional learning strategies that would allow the UN to maintain relevance amidst the evolution of global governance arrangements

International Law in Transition Nagendra Singh, R. S. Pathak, Ramaa Prasad Dhokalia, 1992-07-30 The essays in this volume written in memory of Judge Nagendra Singh are centred around the theme of International Law in Transition The international legal system has been in transition ever since the end of the Second World War and it can be argued that a new international law has emerged different from traditional Eurocentric law and comprising legal principles and standards of behaviour acceptable to all States irrespective of their ideological economic or political systems Innovations in international law have been brought about in response to contemporary needs demands and aspirations within the global community to fill gaps in the existing law and in order to bring it into some accord with radically new societal conditions Distinguished scholars jurists and judges from around the world have contributed essays to this thought provoking book

Building Sustainable Peace Tom Keating, W. Andy Knight, 2012-07-02 As the world turns its attention to the reconstruction of Afghanistan and Iraq following recent conflicts in these countries the issue of post conflict peacebuilding takes centre stage This collection presents a timely and original overview of the field of peace studies and offers fresh analytical tools which promote a critical reconceptualization of peace and conflict while also making specific reference to peacebuilding strategies employed in recent international conflicts
