## **European Integration And Political Conflict:**

**European Integration and Political Conflict** Gary Marks, Marco R. Steenbergen, 2004-02-12 Over the past half century Europe has experienced the most radical reallocation of authority that has ever taken place in peace time yet the ideological conflicts that will emerge from this are only now becoming apparent The editors of this 2004 volume Gary Marks and Marco Steenbergen have brought together a formidable group of scholars of European and comparative politics to investigate patterns of conflict that are arising in the European Union Using diverse sources of data and examining a range of actors including citizens political parties members of the European Parliament social movements and interest groups the authors of this volume conclude that political contestation concerning European integration is indeed rooted in the basic conflicts that have shaped political life in Western Europe for many years This comprehensive volume provides an analysis of political conflict in the European Union

**The European Union and Border Conflicts** Thomas Diez, Mathias Albert, Stephan Stetter, 2008-03-27 It is generally assumed that regional integration leads to stability and peace This book is a systematic study of the impact of European integration on the transformation of border conflicts It provides a theoretical framework centred on four pathways of impact and applies them to five cases of border conflicts Cyprus Ireland Greece Turkey Israel Palestine and various conflicts on Russia's border with the EU The contributors suggest that integration and association provide the EU with potentially powerful means to influence border conflicts but that the EU must constantly re adjust its policies depending on the dynamics of each conflict Their findings reveal the conditions upon which the impact of integration rests and challenge the widespread notion that integration is necessarily good for peace This book will appeal to scholars and students of international relations European politics and security studies studying European integration and conflict analysis

**Politicizing European Integration** Dominic Hoeglinger, 2016-01-26 This book offers a comprehensive treatment of the timely question of the politicization of European integration It shows how this issue's complex linkages with traditional political divides pose a tough challenge to politicians and lead to bitter framing contests about its actual meaning

**The Europeanisation of Conflict Resolutions** Boyka Stefanova, 2013-07-19 This book is about the EU's role in conflict resolution and reconciliation in Europe Ever since it was implemented as a political project of the post World War II reality in Western Europe European integration has been credited with performing conflict resolution functions It allegedly transformed the long standing adversarial relationship between France and Germany into a strategic partnership Conflict in Western Europe became obsolete The end of the Cold War further reinforced its role as a regional peace project While these evolutionary dynamics are uncontested the deeper meaning of the process its transformative power is still to be elucidated How does European integration restore peace when its equilibrium is broken and conflict or the legacies of enmity persist This book sets out to do exactly that It explores the peace and conflict resolution role of European integration by testing its somewhat vague albeit well established macro political rationale of a peace project in the practical settings of conflicts The

analytical lens of that of Europeanization The central argument of the book is that the evolution of the policy mix resources framing influences and political opportunities through which European integration affects conflicts and processes of conflict resolution demonstrates a historical trend through which the EU has become an indispensable factor of conflict resolution It begins with the pooling together of policy making at the European level for the management of particular sectors early integration in the European Coal and Steel Community through the functioning of core EU policies Northern Ireland to the challenges of enlargement Cyprus and the European perspective for the Western Balkans Kosovo The book will be of value to academics and non expert observers alike with an interest in European integration and peace studies     Political Conflict in Western Europe Hanspeter Kriesi,2012-07-26 Analyzes the effects of globalization on the restructuring of politics in Western Europe over the past three decades     **The European Union and Border Conflicts** Stetter Stephan Albert Mathias Diez Thomas,2014-05-14     **The Impact of European Integration on West European Politics** Luca Carrieri,2020-10-27 This book analyses emerging trends in the politicisation of EU conflicts in Western Europe between 2006 and 2019 evaluating the transformative effects arising from multiple crises the Euro crisis the migration crisis and the Brexit Referendum It describes how EU issues have been increasingly emphasised and polarised by various political parties both the mainstream pro EU and anti EU protest parties and have been transformed into more meaningful determinants of voting The respective chapters investigate the fluctuations in EU issue entrepreneurship and EU issue voting identifying which party types have been more likely to benefit from their EU issue proximity to voters and assessing the growing politicisation of the EU conflict in both South European and North Western countries This book will be of particular interest to students and scholars of political parties European politics Euroscepticism and voting behaviour     *The Oxford Handbook of the European Union* Erik Jones,Anand Menon,2012-08-30 This is an authoritative one volume and independent treatment of the history functioning and nature of the European integration Written by a selection of leading scholars It covers the major institutions policies and events in the history of integration whilst also providing a guide to the major theoretical approaches that have been used to study it over time By bringing together such a distinguished cast covering such a wide array of themes the Handbook is intended as a one stop shop for all those interested in the European Union and its predecessors Written in an accessible style the volume is intended to shape the discipline of EU studies and to establish itself as the essential point of reference for all those interested in European integration both in universities and more broadly It represents a timely guide to an institution that is much discussed but often only imperfectly understood     *Politicising Europe* Swen Hutter,Edgar Grande,Hanspeter Kriesi,2016-04-04 *Politicising Europe* presents the most comprehensive contribution to empirical research on politicisation to date The study is innovative in both conceptual and empirical terms Conceptually the contributors develop and apply a new index and typology of politicisation Empirically the volume presents a huge amount of original data tracing politicisation in a comparative perspective over more than forty years Focusing on six European countries Austria France Germany Sweden

Switzerland and the UK from the 1970s to the current euro crisis the book examines conflicts over Europe in election campaigns street protests and public debates on every major step in the integration process It shows that European integration has indeed become politicised However the patterns and developments differ markedly across countries and arenas and many of the key hypotheses on the driving forces of change need to be revisited in view of new findings

**Understanding Conflicts of Sovereignty in the EU** Nathalie Brack,Ramona Coman,Amandine Crespy,2021-05-09 This book investigates the multifaceted conflicts of sovereignty in the recent crises in the European Union Although the notion of sovereignty has been central in the contentious debates triggered by the recent crises in the European Union it remains strikingly under researched in political science This book bridges this gap by providing both theoretical reflections and empirical analyses of today s conflicts of sovereignty in the EU More particularly it investigates conflicts between four types of sovereignty First national sovereignty referring to the autonomy of the Westphalian Nation State to rule on a territory delimited by borders second the supranational sovereignty acquired by the EU in a fragmentary fashion in a number of scattered internal and external policy fields third parliamentary sovereignty understood as the autonomy of parliaments at the regional national and European levels to take part in the decision making process and control the executive in the name of the principles of election and representation fourth popular sovereignty whereby the body politic confers legitimacy to decision makers in a democratic system Through an analysis of the various crises rule of law Brexit migration Eurozone crisis the chapters look at how sovereignty is framed and contested by different types of actors and how the strengthening or the weakening of certain types of sovereignty contribute to shape preferences regarding policies and governance structures in the multi level EU The chapters in this book were originally published as a special issue of the Journal of European Integration

**Futures of Modernity** Michael Heine, Cordula Kropp, Judith Neumer, Angelika Pöferl, Regina Römhild, 2014-03-15  
Global risks mobilities and interdependencies transnationalize local life and working worlds These processes lead to an inner globalization of societies in which worldwide constellations of reflexive Ulrich Beck multiple Shmuel N Eisenstadt entangled Shalini Randeria and global Arjun Appadurai modernities simultaneously and immediately clash in social action a process of cosmopolitanization in which the global is localized and the local is globalized in radical new ways In this book an international selection of prominent critical thinkers address this premise and provide their interpretations of imminent challenges concomitant social dynamics and political implications With contributions by Arjun Appadurai Zygmunt Bauman Ulrich Beck Elisabeth Beck Gernsheim Edgar Grande Maarten Hajer Ronald Hitzler Wolf Lepenies Anna Tsing Angela McRobbie Bruno Latour Ted Nordhaus Michael Shellenberger Hans Georg Soeffner Natan Sznaider Anja Wei and Yunxiang Yan      **A Litmus Test for Democratic Politics in Europe** Julien Navarro, 2022-12-26 This book investigates how political actors and more particularly members of parliaments have reacted to Brexit to assess its long term consequences Brexit has not only been a major disruption affecting the functioning and internal balance of the European Union EU but to a very large extent it also represents a challenge to the idea of an ever closer union and to the democratic principles on which the EU has been built Relying on empirical explorations of regional and national parliaments across the continent as well as the European Parliament the chapters in this volume address three intertwined sets of questions regarding the evolution of democratic politics in Europe in the wake of Brexit Firstly how do citizens representatives assess the UK's decision to withdraw from the EU and its consequences Secondly what is the impact of Brexit as regards the politicisation of the debate on Europe Has Brexit exacerbated existing political divisions or generated new cleavages Thirdly and crucially have parliaments attempted to and succeeded in influencing Brexit negotiations and their outcome What positions did parliamentarians promote in these negotiations What model for the future of the EU did they defend The book is key reading for all students and researchers interested in Politics and International Relations Elections European Studies and European Union Politics This book was originally published as a special issue of the Journal of Contemporary European Studies

**Debating Europe in National Parliaments** Frank Wendler, 2016-06-27 This book investigates recent public debates about the European Union EU in national parliaments which have become the primary arena for public debate about the EU Responding to claims about a politicization of European governance the author investigates the link between two dimensions of debate the discursive justification and party political contestation of decision making in the EU Embedded in a comparison between the legislatures of four Member States Austria France Germany and the United Kingdom the main finding of the book is that generalizable links can be identified between the use of different argumentative frames and patterns of party

political polarization These insights help to clarify the context conditions in which patterns of left right and government opposition politics are replaced by more atypical forms of polarization In a comparative perspective the author demonstrates that party political factors are a more relevant factor for variation than thematic or country specific cultural or institutional factors Case studies include debates on EU Treaty Reform the Eurozone crisis and EU enlargement
