European Party Financing Regulation The:

The European Party Financing Regulation Martin Schurig, Hans-Herbert von Arnim, 2005 Although the new EU Party Financing Regulation is actually a sub topic of the widely discussed European Constitution officials have so far been rather quiet in this regard The Regulation declares artificially created bodies called party alliances as political parties for the sole purpose of enabling subsidies from the EU budget to be paid to the European umbrella organizations of the established parties The Regulation violates almost every principle of appropriate and legitimate public funding of political parties Such principles have for instance already been drawn up by the German Constitutional Court and the Council of Europe

European Political Parties and Party Finance Reform Wouter Wolfs, 2022-04-06 This book provides a comprehensive overview of the party finance regime at the level of the European Union Based on an in depth analysis of the interaction between European political parties and their institutional environment it shows how the Europarties have coped with and altered the funding rules The book explains why increasing party subsidies have been made available and why considerable differences exist in how Eurosceptic and pro European parties have used their EU funding It also examines how party finance reform at the EU level has been at the centre of party competition by demonstrating how the rules were strategically changed to benefit some European parties over others Considering the strong democratic aspirations that lay at the origins of the finance regime the book explores its consequences for party democracy and the rule of law in Europe This book is valuable for scholars working on the European Parliament Eurosceptic parties EU decision making European party politics and political finance

Funding of Political Parties and Election Campaigns, 2014-04-01 All political parties need funding

to play their part in the political process yet the role of money in politics is arguably the biggest threat to democracy today This global threat knows no boundaries and is evident across all continents from huge corporate campaign donations in the United States and drug money seeping into politics in Latin America to corruption scandals throughout Asia and Europe Attempts to tackle these challenges through political finance laws and regulations are often undermined by a lack of political will or capacity as well as poorly designed and enforced measures This Handbook addresses the problems of money in politics by analysing political finance regulations around the world and providing guidance for reform The chapters are divided by region each assesses the current state of regulations in relation to its challenges and offers a series of recommendations to tackle the identified shortcomings This contextual approach has the benefit of revealing regional trends and patterns An additional chapter focuses on gender reflecting the reality that women remain grossly under represented in politics and how the increasing influence of money in politics perpetuates this inequality Party Funding and Campaign Financing in International Perspective K D Ewing, Samuel Issacharoff, 2006-01-19 This volume deals with questions of political party funding and campaign financing issues which arouse controversy in many parts of the world How are the central actors in the political arena supposed to gather the funds necessary to operate effectively on behalf of their chosen political ends And how may they spend money in furtherance of their political objectives The aim of this volume the first in a new series of Columbia University London University collaborative projects is to explore these issues in the specific context of a number of national settings The studies presented here show that financing questions cannot be addressed independent of the constitutional conventions of the country the nature of the political parties in the country and the means of access to publication and the media in any given nation The national studies in this volume reveal a rich diversity in the approach to regulation in Australia Canada the European Union Japan New Zealand Quebec the United Kingdom and the United States The topicality of the issues considered is reflected in the fact that since the book was first mooted there have been major decisions of the US Supreme Court and the Supreme Court of Canada as well as an investigation and report by the Electoral Commission in the United Kingdom all of which have a direct bearing on the legal and policy issues discussed in this book

The Regulation of Post-Communist Party Politics Fernando Casal Bértoa, Ingrid van Biezen, 2017-11-06 The question of how political parties are and ought to be regulated has assumed an increased importance in recent years both within the scholarly community and among policy makers and politicians as the state assumes an increasingly active role in the management of and control over their behaviour and organisation This book concentrates on the regulation of political parties in the EU post communist democracies and on Bulgaria Croatia the Czech Republic Estonia Hungary Latvia Lithuania Poland Slovakia Slovenia and Romania in particular In analysing the various dimensions of party regulation it builds on the main premises derived from the neo institutionalist literature in political science concerning the ways in which the formal and informal rules and procedures may influence constrain or determine the behaviour of political actors In doing so it

provides a comprehensive overview of the regulation of Eastern European political parties provided by leading experts in the field and casts theoretical and empirical light on the manner in which the constitutional and legal regulation of party organizations and finances have had an impact or not on the consolidation of party politics in post communist Europe since 1989 This text will be of key interest to scholars and students of Political Parties and Behaviour East European and Post Communist Politics and Comparative Politics *The Routledge Handbook of Political Parties* Neil Carter, Daniel Keith, Gyda M. Party Members and Their Importance in Non-EU Countries Sergiu Gherghina, Alexandra Iancu, Sorina Soare, 2018-05-23 Although party membership has been extensively analysed in the EU Members States from Western and Eastern Europe there is a gap in systematic data collection and analyses for the other countries in the Balkans and post Soviet region This book provides new and innovative insights in the area of party membership research to analyse the evolution of membership organizations in political parties from under investigated countries Specifically it seeks to understand the way in which political parties and the national legislation conceptualize the notion of membership within and across countries It provides original data and affords a first comprehensive comparative study of party members in the EU neighbouring countries which resonate particular interest because some of them occupy the precarious middle ground between a full fledged democracy and outright dictatorship In light of these relevant observations this systematic analysis of membership evolutions in democratizing countries brings valuable insights for the study of party politics in general This text will be of key interest to scholars and students of political parties and party systems party organisation and elections post Soviet and East European politics and more broadly to democratization studies and comparative politics

The

Consequences of the Crisis on European Integration and on the Member States Stelio Mangiameli, 2017-02-23 The book examines the economic crisis in the European Union and its consequences for European integration and the member states. Discussing the provisions introduced by the Treaty of Lisbon from the effects of macroeconomic monitoring to the restraints produced by the Fiscal Compact, it offers an analysis of the European Union's current situation and the effects of the measures adopted to manage the crisis, also making reference to how Europe is perceived by its citizens. Moreover, the chapters offer thoughts on the European integration process, in particular the effects that the policies adopted to tackle the crisis have had on the economic and financial sovereignty of the member states. This detailed examination of the situation of the EU between the Treaty of Lisbon and the Fiscal Compact is characterized by an original multidisciplinary approach that offers an articulate reflection on the criticalities that affect the actions of both European and national institutions. The European Union Walter van Gerven, 2005-03-21 This book provides a general introduction to the European Union (EU) as an ever closer union of states and peoples. It describes how from its origin in 1958 as an economic community of six states, the EU has grown into a political entity of 25 states with a population of more than 450 million. It also explains the constitution-making process that is currently taking place, with a draft constitution now being submitted for ratification by the 25 member states. The book shows how the distinctive features of a democratic polity that characterize the separate EU member states are gradually replicated in the European Union and how the Union is on its way to becoming a democratic polity of its own kind. Van Gerven writes from a legal perspective with an eye to political theory and recent American and European history and with a diverse readership from both sides of the Atlantic in mind. *EU Anti-corruption Efforts in the Eastern Neighbourhood* Mihai-Razvan Corman, 2024-12-02 In *EU Anti Corruption Efforts in the Eastern Neighbourhood* Mihai Razvan Corman provides a fresh and original legal analysis of the EU's capability to tackle this complex and multi-faceted phenomenon beyond its borders. Key legal instruments and mechanisms from the external dimension are examined and contrasted to the EU's anti-corruption arsenal towards Member States. Special attention is dedicated to the EU's anti-corruption capability in the areas of organized and cross-border crime, public procurement, and political party financing. In particular, this book focuses on the implications of the EU's internal capability for its external efforts. It also explores to what extent there is a gap between the EU's high ambitions of tackling corruption in the Eastern Neighbourhood and its actual legal capability. While EU anti-corruption efforts in Moldova serve as a crucial case study, its engagement in the other candidate countries from the EaP is also incorporated in the analysis.
